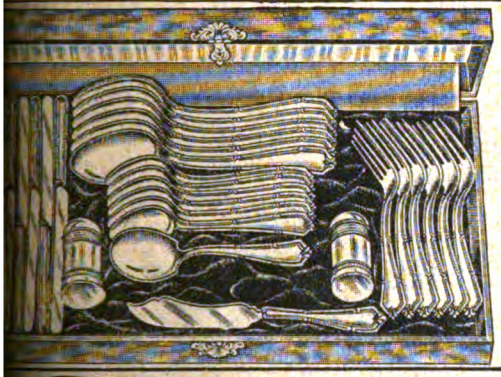
Alaska Silverlike Tableware

Guaranteed to Give a Lifetime of Service

Alaska Silverlike Metal Tableware Looks Like Solid Silver

In color and appearance it is difficult to distinguish between the two. Yet Alaska Silverlike Metal Tableware contains no silver. It is not plated. It is made of the same metal throughout and, with ordinary use and care, will last a lifetime.



Like sterling silver, Alaska Silverlike Metal Tableware takes a high polish. It is easy to clean, but, like solid silver or silver plate, it should not be left in vinegar or foods which contain acid or salt.

GUARANTEE—We guarantee Alaska Silverlike Metal Tableware for the term of your natural lifetime. You make no mistake when you buy Alaska Silverlike Metal Tableware.

ENGRAVING—On account of the hardness of the metal we do not engrave Alaska Silverlike Metal Tableware.

A Set With Your Initial

We ship each 28-Piece Set of Initialed Alaska Metal Tableware in this attractive case, fitted with pull drawer.

This illustration shows the style of lettering on this set. You may have any initial you desire.

Initialed Alaska Silverlike Metal Tableware.

Each piece comes stamped with the initial you desire, except the knives and salt and pepper shakers. Write plainly and distinctly the letter wanted, so that no mistake can be made.

Like sterling silver, Alaska Silverlike Metal Tableware takes a high polish. It is easy to clean, but, like solid silver or silver plate, it should not be left in vinegar or foods which contain acid or salt.

Plain Pattern.
5H1607
Fancy Pattern.

Genuine Rogers Nickel Silver Tableware is a composition metal, the same metal through and through. It resembles silver, though it has no silver in it, and like solid silver it should not be left standing for any length of time in fatty or acid foods. With proper care it will keep bright and new looking. You can make no mistake in ordering any of the sets or pieces shown here.

Medium knives are 9⅛ inches long; medium forks are 7½ inches long. Order by Number	Shipping Weight	Price	Plain Pattern	Fancy Pattern

Pearl Handle Tableware

We offer here our Pearl Handle Tableware. The pearl used in these articles is of a beautiful luster, well shaped and finished. The blades, tines and bowls of these pieces are silver plated with the exception of the bread knife, which is good quality steel. The pearl handles are made secure by a sterling silver ferrule which extends well up on the pearl, making a very neat appearing, well finished, article. These pieces all come in a neat, lined paper box. You make no mistake in buying our Pearl Handle Ware if you wish a very attractive, durable gift.

a sturdy, dependable watchman, making the rounds twice each sounding the alarm automatically whenever you wish. His ear and vibrant; and if you wish it so, insistent; also the alarm ort or long as you please; or, he can be silenced by the mere f a button. Eight days with one winding. Graceful hands clear figures tell time quickly. Set it once and it will ring d automatically every day at the time set. The dial is and the height 6 inches. Solid brass and polished nickel ughout. Practically rustproof. Seamless. Dustless. A stanch that will give long and excellent service. Shipping weight,

2—Price..... $2.75

Our New Improved Automatic LUMINOUS EIGHT-DAY NATIONAL CALL ALARM CLOCK.

Though dark be the night, the luminous Automatic National Call stands with lighted hands pointing clearly to the luminous figures. Set it once and it will ring at the time set automatically and shut off automatically every day without additional attention, except winding once every eight days. The alarm can be short or long, as you please; or, by a touch of the finger on the button at the top of the clock, it can be shut off instantly. If you wish, this new improved National Call can be set to silence and it will not alarm at all. Dial, 4¼ inches. Height, 6 inches. Solid brass and polished nickel parts. Seamless. Shipping weight, 4 pounds.

5H8514—Price..... $3.75

Alarm Clocks

y Nickel Plated nt Alarm Clock. ¼ inches; 4½-inch nch bell. Alarms inutes. Shipping ut 3¼ pounds.

Renewal Batteries for Any Plant.

Batteries Guaranteed for a Definite Number of Years

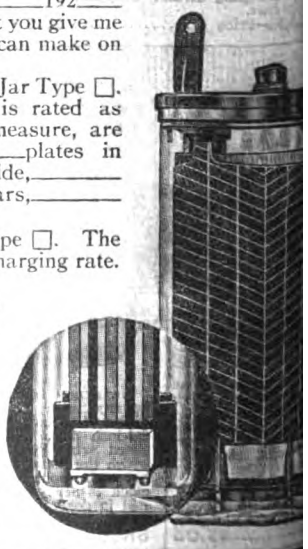
Liberal Allowance for Your Old Battery

Give full information asked on form below and mail to us at Chicago, Ill.

Sears, Roebuck and Co., Chicago, Ill. Date_____ 192____

I am interested in a new battery for my Electric Plant and ask that you give me a quotation on a new battery and tell me what allowance, if any, you can make on my old battery, described below:

My battery is made up of_____cells. It is a SEALED Glass Jar Type ☐. Open Glass Jar Type ☐. SEALED Rubber Jar Type ☐. It is rated as _____ampere hour capacity. The plates, as near as I can measure, are _____inches wide and_____inches long. There are_____plates in each jar. The jars are_____inches high,_____inches wide,_____ inches thick. The battery has been in service about_____years,_____ months.



The plant is a unit or direct connected type ☐, or it is a belted type ☐. The generator has a capacity of_____amperes,_____volts,_____watts. I (can or cannot) control the charging rate. I can reduce the charging rate to_____amperes, and have been charging my present battery at_____ amperes. I have been charging my battery about_____hours each week. I charge the batteries as follows: Daily ☐. Twice per week ☐. Once per week ☐. I am interested in a battery of (the same or larger) capacity.

It is my understanding that in giving this information and asking for a quotation I am not under any obligation to buy your battery. Yours truly,

Now as Never Before

You Need The

NCYCLOPÆDIA BRITANNICA

t has been the lasting heritage of the war? In brief, a nation of keener thinking, knowledge-demanding people. r has had a profound effect on the 100,000,000 inhabitants of this country. It has carried their interests from the city in which they live across the water into foreign countries, to every part of the world. They have become er content to know only their neighbor across the street, but they want to learn of their neighbors in all nations arth. The war created in the people a thirst for knowledge, world wide in compass. The war instilled in the he habit of thinking broadly in world wide terms, of wanting information on subjects they never dreamed of of thinking more deeply on the problems of the day. Over the two and one-half years since the war, during the l social, economic adjustment in this country, this habit of the people has grown stronger and stronger until as never been manifest such eagerness for knowledge as there is today.

e can people find the means to satisfy this demand for knowledge? The greatest reservoir of knowledge in existence, authori- d comprehensive, is the Encyclopaedia Britannica, the most widely known, the most esteemed—the resource of thousands of women, seekers of knowledge in every generation for a century and a half. It is the book of the hour.

How shall America readjust her industrial conditions? Is the present League of Nations likely to succeed? Is the fall of the Bolshevist regime in Russia imminent? Will Germany fulfill its treaty obligations?

ans of the exhaustive articles in the Encyclopaedia Britannica on industries, politics, government, labor and capital you will be able to ear insight into the problems of today. The Britannica will enlighten h timely topics as prohibition, suffrage, tariffs, currency, waterways, ion and government ownership.

Treasure Chest of Knowledge

itannica is a complete library of knowledge on every subject. It discusses that you can understand every branch of science, industry, literature, , inventions and engineering; history and race development; war and itecture, astronomy, chemistry, sociology, education, steam, electricity, d geography, biography, law and physics. You and your family will Britannica a liberal education. In answer to the hundred questions y day come to your mind and to your wife's and children's minds, you more precise information than you can get from any other source.

The Britannica in Women's Affairs

The Encyclopaedia Britannica gives to the woman fundamental information on politics, on economics, child welfare, domestic science, on foods and their relative values, on hygiene, sanitation, home decorations, furniture, rugs and furnishings. As an educational influence the Encyclopaedia Britannica is supreme. As an aid to children in school it is indispensable to supplement, interpret and broaden their knowledge on the subjects which they are studying.

Printed on the Famous India Paper

These sets are printed on the genuine India paper—the beautiful, light, strong, thin but opaque sheet which has proved an ideal medium on which to print the Encyclopaedia Britannica, because it makes this great work more compact, much more convenient to handle and more inviting to read.

Mail Coupon Today

Mail to Sears, Roebuck and Co. today the attached coupon with your name and address and we will send you, without charge, postpaid, our 128-page illustrated booklet, which will give you full information about the Britannica and what it will mean to you and yours to have such a great work in your home; also, how we are able to sell it to you at so low a price on such liberal terms of payment. Orders accepted from any point within the United States.

Sears, Roebuck and Co.

Gentlemen:—Please send me, postpaid, your illustrated book 2C, giving full information about the Encyclopaedia Britannica. Also tell me what I will have to pay for a set of the Handy Volume issue of the Britannica printed on genuine India paper.

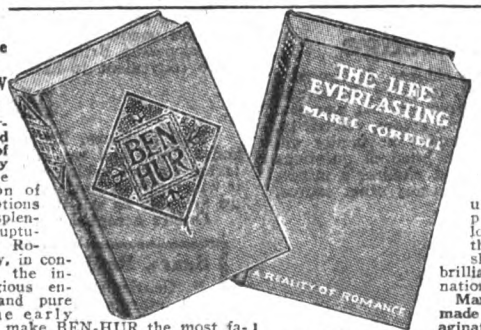
FOUR GREAT BOOKS



CORPORAL CAMERON
Of the Northwest Mounted Police. A Tale of the Macleod Trail.
By RALPH CONNOR.

Out of a misty Scotch glen came Allan Cameron, the young laird. He was strong as a claymore and bonny as the dawn, but he could not abide to drudge in the dusty offices of Edinburgh. So he came out to Canada and enlisted in the Northwest Mounted Police.

He could go without flinching into the midst of a bunch of Indians on the warpath and yank out their leader. He could ride the long lost trail two hundred miles through 3-foot snow and bring back a vicious whisky runner. Hunger and ruffians and 40 degrees below were less to him than the Honor of the Service, and he fought his way up to a corporal's chevrons and the dear love of a girl of the open. Cloth. 454 pages. Size, 5¼x7¾ inches. Shipping weight, 1¼ pounds.

3H642—Price **55c**

BEN-HUR.
A Tale of the Christ.
By GEN. LEW WALLACE.

The sincerity and beauty of this mighty story, the fascination of the descriptions of opulent splendor and voluptuousness of Roman society, in contrast with the intense religious enthusiasm and pure life of the early Christians, make BEN-HUR the most famous novel of the present day.

The clashing of rivalry and the deepest human passions, the perfect reproduction of brilliant Roman life and the tense, fierce atmosphere of the arena have kept their deep fascination.

Each book covered with a jacket showing a gorgeous reproduction in colors and gilt of the Chariot Race from BEN-HUR.

Cloth. Size, 5x7¼ inches. 560 pages. Shipping weight, 1 pound.

3H101—Price **55c**

THE LIFE EVERLASTING.
A Reality of Romance.
By MARIE CORELLI.

Through the barriers of material life burst a woman, urged by the power of her love, and found the man whom she had loved in brilliant past incarnations.

Marie Corelli has made a uniquely imaginative romance of love and the occult. It swings with passion, "The Life Everlasting" is the story of an overpowering and occult love, where the woman dares all and is rewarded. With startling audacity of imagination, Marie Corelli recalls the love story of a mortal and immortal passion by which this mortal world is environed. It is a fascinating story.

Contains 439 pages. Bound in cloth. Size, 5⅛x7½ inches. Shipping weight, 1¼ lbs.

3H653—Price **55c**

THE ROSARY.
By FLORENCE L. BARCLAY.

Once in a generation there appears a story like "The Rosary," in which there is but one adventure—the great passion of two real persons superbly capable of love, the sacrifices they make for it, the sorrow brings them and the exceeding re With rare skill the gifted author of wonderful book depicts the story of a tiful soul masked by plain features the love of a young artist who is r to love beauty more than all else i world. It is one of those unusual that appeals to all classes of rea fiction. It is an ideal love story th freshes the heart, strengthens faith i outcome of the great experiment of humanity on earth. 370 pages. with colored pictorial jacket. Size, inches. MAKE YOUR HOME ENTERTAINMENTS SUCCESSFUL

The Key to Health, Wealth and Love.
Have Health, Gain Wealth, Learn to Love.
By Dr. Julia Seton. The world is full of love, money and health—brim full. But you must know where to look for it. Dr. Seton shows you that loneliness and heart hunger are not necessary any more than are poverty and sickness. This book shows you the causes of these things and points the way to the remedies. Make your life full of happiness. Cloth. 183 pages. Size, 5¼x7½ inches. Shipping weight, 1 pound.

Tricks and Magic Made Easy.
By Edward Summers Squier, M. A. Magic is the very oldest form of entertainment in the world. All of us, humblest and highest alike, are still held by the charm of a magic that we enjoy for its power to entertain, mystify and delight us. There is no other variety of entertainment that gives pleasure so persistently to both young and old, to both wise and foolish. The illusions of such magic are harmless trickery. Careful practice is the sole requirement for proficiency in the art of magic. This book gives instructions so simple and complete as to make success assured. 188 pages. Bound in cloth. Size, 5⅛x7½ inches. Shipping wt., 1 pound.
3H3830
Price **98c**

Love Letters Made Easy.
By Gabrielle Rosiere. A helpful, practical book on the all absorbing topic—love letters and how to write them. The descriptions of the silent messages of love conveyed by stamps on envelopes, flowers and gifts, are followed by letters between a man and a girl, commencing with early acquaintance, ripening into friendship and love and culminating in an offer of marriage and acceptance. The letters are carried on through a lovers' quarrel and subsequent "making up." Suggestions are also included regarding subject matter, use of quotations and the niceties of correspondence and letter paper. 185 pages. Bound in cloth. Size, 5¼x7½ inches. Shipping weight, 1 pound.
3H4019—Price **98c**

Successful Farming Secrets Disclose

How the World's Greatest Farming Authorities Got Their Sensational Results—Told in Simple Language So Anyone Can Understand and Apply Their Plans and Methods

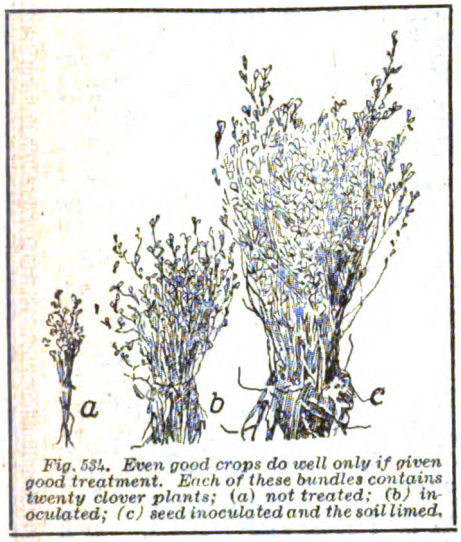

Fig. 554. Even good crops do well only if given good treatment. Each of these bundles contains twenty clover plants; (a) not treated; (b) inoculated; (c) seed inoculated and the soil limed.

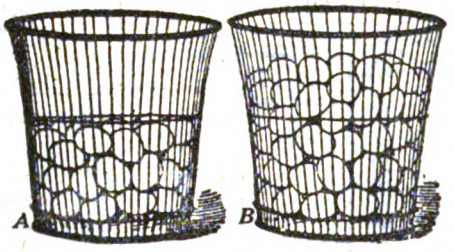
IF EVERYBODY did things in the same way year after year there would be no progress except through accident. Fortunately for the world, there are people who try new things, and even if only one new thing out of a thousand succeeds we have progressed to an extent which more than justifies the 999 experiments that failed.

This is particularly true on matters of farming. Take corn production, for example. There are 3,556 hills of corn on an acre planted 3 feet 6 inches apart. If you could increase your corn production by an average of two ears to every hill you would get 90 bushels of corn per acre. Many men are doing it by following the methods used by the country's leading farming authorities described in FARM KNOWLEDGE.

And not only is this true of corn, but it is equally true of every other farming operation. Here are some examples of what happens when farmers apply the result of successful experiments:

Down in Tennessee a former storekeeper purchased some land which had been "cottoned to death." He secured the help of the leading authorities in his state and in one year increased the yield from one-fifth of a bale to a full bale per acre.

In Indiana there is a farm where the land was so poor that much of it had been abandoned. Clover had not been grown on it for twenty-five years; wheat never yielded more than 12 bushels per acre and sometimes as little as 4 bushels per acre. All other crops were just about as bad in proportion. Along came a man who decided to farm with his brains as well as with his hands, and in a remarkably short time increased the yield of wheat to 47 bushels per acre, getting 83 bushels of oats per acre, as high as 250 bushels of potatoes per acre, and there are nearly 300 acres of alfalfa on land that formerly only grew sheep sorrel.



In Missouri there is a man who nets $2,000 a year from 800 hens in addition to his regular products. In Illinois there is a man who brought the butter fat production of his herd from 112 pounds up to an average of 315 pounds for each cow yearly and has kept this record up for twelve years.

These are but a few examples of what can be done and is being done throughout the country by farmers who are taking advantage of what specialists have learned about various farming operations.

A $50,000 Work

At an expense of over $50,000 for the editorial material alone, the successful farming experiences of recognized authorities in all parts of the country have been collected and placed within the covers of FARM KNOWLEDGE—a complete manual of successful farming, written by recognized authorities in all parts of the country; based on sound principles and the actual experiences of real farmers—the farmers' own cyclopedia. Never before has a work of this scope and value been produced. There is nothing else like it. It is by far the most complete and the most practical work ever prepared for the farmer. It helps to eliminate the costly personal experimenting. It is a clearing house of answers to the problems you must solve every year.

Above all, FARM KNOWLEDGE is practical. It is not a collection of theories; it is not an idle treatise on "why you should farm better;" it is not technical; it is not made up of extracts; it does not present plans and methods which are out of reach of the average farmer. Instead, FARM KNOWLEDGE contains the result of actual experience in improving methods and increasing profits; it was specially written in interesting and easy to understand language. It is up to the minute in every way, yet it upholds every old time method that has proved its merit; it was written for farmers and their families; it contains the help you want, instantly available when you want it.

The average hen in the United States lays 60 to 70 eggs a year. A fairly good hen will lay 120. They cost about the same to keep. What is the answer?

100 Experts on Your Farm

Just think of having at your finger tips the help of Hugh G. Van Pelt, one of the foremost authorities in the country on dairy matters; just think of having the help of Prof. F. C. Minkler on hog raising—Minkler, who is Live Stock Commissioner of New Jersey; think of having the advice of Prof. C. B. Hutchison on corn, the man who organized the Corn Growers' Association of Missouri and was head of the department of farm crops at Missouri College of Agriculture; think of having, in your own home, the boiled down knowledge of men like Dr. A. S. Alexander on the diseases of live stock, of Prof. Eckles on the handling of milk, of Alva Agee on soil fertilization, of J. K. Wright on the silo, of J. C. Hackleman on small grains, of Raymond Olney on the farm tractor, of H. H. Neimann on barn construction, of over a hundred others of equal prominence on subjects they have specialized on.

These men have won their places as great farmers. They not only know how to secure unusual results, but they are gifted with the ability to tell YOU how to do it. Surely, help like this must be of benefit to every farmer, no matter how long he has been farming or how much money he is making, or how extensively he has studied.

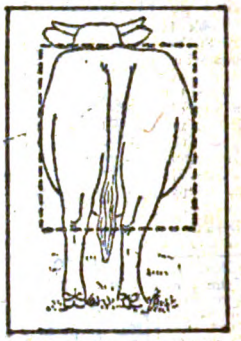


Fig. 74—The beef type is smooth, massive and nearly fills the square when seen from front or rear.

Fig. 75—The dai spare, angular, only a part of s similar proportio

What Farmers Say

Although FARM KNOWLEDGE is an entirely new has but recently been offered to the farmers, hundreds have come back from every part of the country testify most glowing terms as to the value of the books. Fo Charles Nusko of Donaldson, Ark., found immediate the set, using Volume I to guide him in treating two Volume II in planting his crops and Volume III in wheat thresher. Mr. Nusko says that each volume the price of the entire set. Henry Werner, Sturg says that FARM KNOWLEDGE explains just the a farmer ought to know in a simple way, and that e date farmer ought to have this set. Merton W. Pratt Me., says that FARM KNOWLEDGE is the most co to date set of books, and that no farmer today ca be without it. Jesse Bufkins says that FARM KN is just the thing that Southern farmers have bee Nelson Natter, Somerville, N. J., says that each tim at the volumes he finds something more valuable an volume is easily worth $10.00. Paul Hardman, Hallbe says that FARM KNOWLEDGE is the most com work on farming he has ever seen, and that he ha to find no agricultural subject which is not thoroug tically and concisely treated in it. He also state county agent examined this set recently and was its exhaustive treatment of the various farming t the wide array of the world's greatest authorities authors. Morrison Vandegrift of Keystone, W. Va with a diploma in a soil improvement course, says nothing to compare with FARM KNOWLEDGE.

Booklet Explains All

FARM KNOWLEDGE contains over 2,000 pages in all, 128 full page photographic reproductions, frontispiece in each volume in colors and over 3,000 other illustrations scattered throughout. The volumes are 9¾ inches high by 7¾ inches wide and each book is nearly 2 inches thick. The green buckram binding is both handsome and durable.

It is impossible to describe so important a work in the space of one page, but we have prepared a special booklet which shows the complete list of contents, names of authors, with brief descriptions of each and shows sample pages to give you an idea of how the subjects are treated, size of type and the kind of illustrations. In addition, we have prepared a large folder illustrating the in actual colors, so you can see how beautiful

We want every farmer who is interested in production and profits to send for a copy of this free folder. Read what FARM KNOWLEDGE must m Read about the new farming secrets which have re old results, doubling and trebling profits. Let us gi low price for this wonderful work. Write NOW "Send me your FARM KNOWLEDGE Booklet coupon below to left, or write a post card or letter.

Figure 523. How corn ears vary. The yield possible from (8,000 stalks) bearing each of these types are: (a) 40; (b) 40; (c) 62; (d) 80, and (e) 108. Careful selection in nature. (Va. Bulletin 165.)

A Complete and Authoritative Library on Sex Knowledge.

By Dr. William Lee Howard. Sex Knowledge judiciously imparted is the greatest insurance toward the development of sterling manhood and womanhood. It is the duty of every man and woman to be informed upon the subject of sex and the care of the body. It is a subject vitally important to every individual. Dr. Howard presents facts as they are, and speaks from a knowledge gained through years of study and experience in the great hospitals of the world.

Dr. Howard says, "I want to make clear to the world through these books that right sex living is of as much, if not more, importance than right physical living; that sex laws must be as well known and observed as those of eating, sleeping and the general rules for bodily health."

By special arrangement with the publishers, we are able to offer these three important books, when purchased as a set, for only $2.50. The three volumes of this set are bound in brown cloth with the title stamped on the side and back. Each book measures 5x7⅝ inches. 535 pages. Weight of set, packed, 2½ pounds.

Facts for the Married.
This book is written in the form of consultations, which contain the answers to the questions that husbands and wives want to ask.

Plain Facts on Sex Hygiene.
A plain unvarnished statement of the possible menace of the mental, physical and moral health of those ignorant of sex hygiene.

Sex Problems Solved.
Shows necessity of knowledge of sex activity and its relation to brain, morals and intellect. A book that will remove some of your own perplexities.

BOOKS FOR THE AUTOMOBILIST

The New Dyke Course of Automobile and Gasoline Engine Self Instruction

$10.98

Endorsed by Barney Oldfield, Chas. E. Duryea, Splitdorf Co., Etc.

The Dyke course not only teaches you the principle and construction of the automobile, it teaches you the gasoline engine as well, and when you consider the automobile and gasoline engine with the Dyke course you will understand all automobiles and all gasoline engines, whether for automobile, marine or stationary work. If you are really ambitious, there is no quicker, cheaper or better way than this Dyke course. It will surely teach you. The encyclopedia is simple, diagrams and charts are large and clear, and above all, the demonstrating models will give you practical work. If you are an owner of an automobile, if you are a chauffeur, or desire to become one, if you are desirous of obtaining a position in an automobile factory, garage or repair shop, you will find this course invaluable. Then there is the field of opening a repair shop of your own in which the opportunity for making a livelihood is offered. With the Dyke course you learn the principle and construction of not only one car, but you learn the principle and construction of all cars. At the same time you learn how to adjust all the principal parts right on the demonstrating models and with large clear charts to explain. You learn how to remedy all troubles and how to make repairs. The absolute necessity of demonstrating models when studying the automobile and the superiority they give the Dyke course is now universally recognized.

What Dyke's New Course of Automobile and Gasoline Engine Self Instruction Contains.

Dyke's Automobile and Gasoline Engine Encyclopedia.

Latest Edition. Thoroughly practical. Written in simple language so as to be easily understood. Contains 522 pages of charts. Over 2,370 illustrations. It progresses in easy stages from one part to another until finally you are taught the operation of this wonderful power plant as a whole, then how to locate, remedy and repair trouble, etc. Each part is carefully explained by specially prepared charts. A dictionary giving the meaning of all words and terms used will be found in the back. Explains everything you can possibly think of. Tells how to build a repair shop for the home or business; how to make repairs; how to increase the power of your engine; how to overhaul engines; how to overcome the different makes of cars; how to figure horse-power; how to start in the automobile business, etc. Contains hundreds of questions and answers on the automobile and its operation. To this latest edition have been added simplified setting of valves and timing gasoline engines, all new and up to date electric starters, generators and lighting systems, operation, care and repair of trucks and tractors, airplanes, airplane engines and motor-boats. Also complete instructions for the Ford. 942 pages. Bound in cloth. Size, 7x10 in.

3H4885—Complete Course of Automobile and Gasoline Engine Self Instruction with Dyke's Automobile and Gasoline Engine Encyclopedia. Shpg. wt., 9 lbs. Price..**$10.98**

3H4868—Dyke's Automobile and Gasoline Engine Encyclopedia only. Shipping weight, 4 pounds. Price..... **5.65**

Dyke's Four and Six-Cylinder Demonstrating Models.

Demonstrating models made of stout cardboard with all moving parts made of real metal. These demonstrating models represent the connecting-link between study and practice. **Simple—Thorough—Practical.** Not a model to be taken apart and put together again, but by turning crank action of all the moving parts is demonstrated.

Dyke's Four-Cylinder Engine Demonstrating Model. Size, 9½x11 inches. With this demonstrating model you can see each valve, piston, etc. It is easy to learn valve timing, firing order, etc., with this demonstrating model. Also makes clear the eight-cylinder engine principle.

Dyke's Six-Cylinder Engine Demonstrating Model. Size, 11⅜x10⅞ inches. Shows crankshaft, piston and connecting rod side of the six-cylinder engine model. (The opposite side is shown on the four-cylinder model.) Also makes clear the twelve-cylinder engine principle.

Charts. Size, 17½x10 inches. With the demonstrating models we also send charts showing the different parts, such as the clutch, gear box, drive shaft, rear axle, electric starting motor, electric generator, a modern ignition system, inlet and exhaust manifold. With these charts you can see just how they are applied to the regular engine.

How to Take Care of an Automobile at Small Expense.

Repairs and How to Make Them.

By A. Frederick Collins. Here is just the book every person who owns a car or who may own one should have. Many times cars are sent to the repair shop that have some slight repair to make and often as a result is a big bill for the owner's time. Explains how you how to buy a car, how to drive a car, how to take care of your car, what you can fix on your car, how the engine works, how the carburetor works, how the magneto, ignition, starting, lighting and oiling systems work, all about timing, valve setting, valve grinding, etc., and how to run your car at the least cost. 206 pages. Illustrated. Cloth. Size, 5¼x7⅝ in. Shipping weight, 1½ lbs.

3H4846—Price **$1.18**

First Aid to the Car.

A systematic method of diagnosing trouble and removing it. By Harold W. Slauson. New and completely revised edition. So arranged that if the motor will not start, if it misses, or lacks power, if it knocks, if it heats, or if ignition is faulty, the starter out of order, the carburetor out of adjustment, all these troubles and many others can easily be located. An invaluable aid to every car owner, especially for finding out what ails the car when it balks on the road. Full dictionary of auto terms. 224 pages. Cloth bound. Size, 3¾x6¼ inches. Shipping weight, 1 lb.

3H4853—Price **$1.35**

The Model T Ford Car, Including Fordson Farm Tractor and F. A. Lighting and Starting System.

By Victor W. Page, M. E. 1920 edition. BIBLE LOVERS' GUIDE AND COMPANION

An Illustrated Treasury of the Bible for the Home

2555 Pages - 1001 Pictures

There is one book that never grows old—a book that brings sweet solace and strength to the heavy laden; clear understanding to the seeker after Truth; inspiration, courage and faith to all who read it. This book—the greatest of all books ever written, or that ever can be written—is, as you know, the Holy Bible. It should be made the foundation of the daily life of every true right doing man, woman and child.

Now the Bible Lovers' Guide and Companion brings to you this sacred book, in a rich and beautiful binding; together with all of that biblical literature which has been the foundation of your religious learning, consolation and enjoyment; and which should be the guiding influence in your children's lives. This wonderful set brings right in your home all that the whole world knows about the Bible, about Christ. His teachings and the entire Christian religion.

In this set has been put 1,001 illustrations. Here you will find your favorite pictures, reproductions of the greatest religious paintings of all the ages. Never before has there been gathered together in one set so many religious pictures, and never before has the Bible, or its helps, and the other religious works which make up this set been so profusely or elaborately illustrated.

This magnificent Treasury contains the entire Bible, both the Old and the New Testaments. It is printed throughout in beautiful, large, easy to read self-pronouncing type—the largest ever used in any but a pulpit Bible.

Then there is the Fireside Sunday School and Weekly Bible Readings. This enables the father or the mother living in the country to give their children, right at home, the same religious instruction usually given only in notable churches in the big cities. There is also the New Testament story in verse for the little ones and the Lord's Prayer and Parables fully illustrated.

Partial List of Contents.

Beautiful color frontispiece of famous religious pictures by the world's greatest artists.

Complete teachers' helps to the study of the Bible. 5,000 questions and answers on the Old and New Testaments. Smith's Complete and Practical Illustrated Household Dictionary of the Bible. Illustrated favorite Bible quotations and familiar verses. Valuable helps for Sunday School scholars. Illustrated historical museum of the Bible. Indexed atlas to the Holy Bible and colored maps and many other intensely interesting features.

Complete concordance, or cross reference, to the entire Bible. This makes it easy for you to instantly find the subject.

This library in four volumes contains 2,555 pages and is printed throughout in beautiful large type on fine white paper. Each page measures 7¼x9½ inches and the books are strongly bound in black buckram or in full limp Bible leather, with red burnished edges. The cover design is stamped in gold leaf and a rich ecclesiastical red.

Sent for Only $1.00 Down.

IMPROVE YOUR EDUCATION BY HOME STUDY

Penmanship Made Easy.

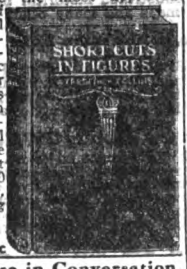
By Edward Summers Squier, M. A. A clear and handsome handwriting is a very valuable possession for anyone. It is an asset in the business world. It is appreciated by friends and strangers alike to whom our letters go. But most persons think of practicing penmanship as a task both trivial and dull. That it is neither the one nor the other is demonstrated by this volume. The way is made plain for a progress at once easy, pleasant and profitable. How often are we judged by our handwriting when a personal interview is impossible. Put your best foot forward. 175 pages. Bound in cloth. Size, 5⅛x7½ inches. Shipping weight, 1 pound.

3H7093—Price **98c**

The Arithmetic Help.

The aim of this book is to cover all regular textbook work in arithmetic, with special reference to those parts with which students have most trouble and to the parts most likely to be of practical value in after life. Begins with the kindergarten and includes every branch of arithmetic up to algebra. Each problem is worked out with its solution. 627 pages. Cloth. Size, 6¼x9 inches. Shipping weight, 2¾ pounds.

3H6981—Price **$1.98**



Practical Mathematics.

Covers the fundamental processes of arithmetic, algebra and geometry. How to solve the problems are shown, together with the answers. 172 pages. Cloth. Size, 5¼x8⅛ inches. Shipping weight, 1¼ pounds.

LEARN THE "EASY STUDY" WAY.

Practical Handbooks for Self Instruction.
By Edouard Dunois, M. A.

FRENCH.

This method of self instruction is of a very notable simplicity. Yet the teaching is comprehensive to such an extent that the student may easily derive from it a satisfactory knowledge of French for speaking, reading and writing. Especial care has been given to the matter of pronunciation. The words and phrases contained in the text of the volume have been chosen with particular attention to the requirements of everyday life. The student on completing his study will find himself possessed of a vocabulary sufficient for all ordinary needs and an effective familiarity with the common idioms. Cloth. 196 pages. Size, 5⅛x7½ in. Shpg. wt., 1 lb.

3H7213—Price **98c**

SPANISH.

This method of instruction has sought to combine clearness and directness with completeness. The result is that the student is able to acquire a correct pronunciation without wasting time over trifles. Similarly, the words, phrases and idioms given in the text have been most carefully selected with a view to practical mastery of Spanish for speaking, reading and writing. The student on completing his study of this manual will have a satisfactory practical knowledge of the language and a sufficient vocabulary which will meet all ordinary requirements. Cloth. 208 pages. Size, 5⅛x7½ inches. Shipping weight, 1 pound.

3H7214—Price **98c**

English Grammar.

By William Cobbett. A standard manual for the purpose of self education. 254 pages, cloth. Size, 5x7¼ inches. Shpg. wt., 1¼ lbs.

NEW REVISED EDITIONS WITH QUESTIONS AND ANSWERS ADDED

The author of these four books, when making the revision for this new edition, compiled a complete catechism of questions and answers for each chapter.

Arithmetic Made Easy.

By Marvin Dana, M.A., LL.B. A complete, up to the minute manual of arithmetic, containing improved methods for working out the simplest as well as the most complex problems. This book is so thorough, so simple and so complete that teachers and parents will find it almost indispensable for the children in their study of arithmetic. Give your child this book so as to make arithmetic easy for him, and use it yourself so as to increase your earning power by knowing how to figure accurately and quickly. 209 pages. Cloth. Size, 5⅛x7½ inches. Shipping weight, 1 pound.

3H7106—Price **98c**

Spelling Made Easy.

By Marvin Dana, M.A., LL.B. A book that helps you to solve all the problems of spelling and sets forth the principles so plainly and simply that they are easy both to understand and to remember. No more uncertainties about just how that elusive word is spelled. Almost a necessity for the student, young or old. An invaluable aid to the stenographer and business man or woman, and a decided boon to any lady's writing desk. The rules are easy to remember and mastery of them gives a satisfying sense of accuracy. Contains a very complete list of hard words to spell and words commonly misspelled, arranged alphabetically. 225 pages. Cloth. 5⅛x7½ in. Shipping wt., 1 lb.

3H7094—Price **98c**

Grammar Made Easy.

By Marvin Dana, M.A., LL.B. The correct use of language in speaking and writing is of the highest importance to every one. The natural tendency is to repeat the word or phrase oftenest heard which, in a great number of cases, is likely to be wrong. The faults thus thrust upon us by everyday associations must be corrected out of a superior knowledge. Such knowledge is offered in this volume. The instructions are plain, concise and comprehensive. Study of them will equip you with that exact information required for correct and graceful expression of your thought, either written or spoken. 215 pages. Bound in cloth. Size, 5⅛x7½ in. Shipping weight, 1 pound.

3H7143—Price **98c**

Shorthand Made Easy.

By Marvin Dana, M.A., LL.B. Be an expert—not just the ordinary plodder. Presents, clearly and exactly, all needed knowledge concerning shorthand methods that have been thoroughly tested and proved most efficient. This book has been planned to afford the fullest instruction to those who have not the advantage of a teacher. Carefully study and ... the rules, which are set down in a ... easy to understand way, and there ... reason why you should not make ... self a proficient and expert steno... and that will mean a worth while ... tion. 184 pages. Home Study in Arithmetic, Spelling and Writing, Made Easy.

Arithmetic Made Easy. With Questions and Answers. By Marvin Dana, M.A. 209 Pages.

Spelling Made Easy. With Questions and Answers. By Marvin Dana, M.A. 255 Pages.

Penmanship Made Easy. By Edward Summers Squier, M. A. 175 Pages.

The three splendid, practical volumes in this set form a complete self educational library on these subjects. They are written in such a clear, simple and understandable way that even the very young student can soon become quick and expert in figures, a neat penman and a sure and accurate speller. You will find, with these books at hand, that your advancement in school, office and workshop will be easier.

The Arithmetic shows you how to work out, by the most improved method, the simplest as well as the most complex problems. In the Penmanship book the way is made plain for a progress at once easy, pleasant and profitable. You Can Now Make Prettier Clothes

This Simple Practical Method of Dressmaking and Sewing Tells How

The love of pretty things has been ever inherent in all women. Our girls and women of today strive to make themselves look their best for two reasons—first, because instinctively they love beauty; second, because a well and becomingly dressed woman has a distinct advantage over her less fortunate sister.

All women love to sew and fashion their own garments. Every woman is proud of the things she makes, no matter if it is only a bit of an undergarment or a simple blouse. She loves to express her own individuality with her needle. There is nothing more satisfying to a woman than to feel that the things she makes will be pretty, becoming and stylish. But alas! Many women who make their own clothes struggle on and on, never seeming to turn out anything that looks really well. They lack the knowledge that would make their sewing a success. But here is some real help in solving this perplexing problem in making your own clothes.

Clear-Easy-Fascinating

You can now make pretty blouses, stylish frocks and dainty underthings deftly and skillfully—clothes that you will be proud of and eager to show to your women friends as the fruits of your needle.

Miss Isabel Conover, one of the leading dressmaking authorities in this country, has perfected a very practical way of teaching clothes-making by which women can make pretty things to wear. It is a simple, plain, straightforward method and you can follow it with ease. This new way of teaching the accepted and approved methods of dressmaking and sewing is so carefully prepared that every woman can easily understand them.

You are shown clearly and simply just what to do. Each step is made as easy as A B C. **A Complete Course in Dressmaking** tells you how to adapt it to your own figure and how to trim and drape the goods. The art of draping, particularly, which has been ever a closed book to all except the professional modiste, and which gives the artistic, chic and finished touch to a gown or other garments, is set forth here so simply that anyone may understand. This is the first time that draping, which is the secret of artistic dressmaking, has been made clear to the woman who makes her own clothes.

A Complete Course in Dressmaking by Miss Conover doesn't mean wading through endless pages of printed matter. Five hundred and sixty-five illustrations bring an up to date dressmaking establishment and tailor shop into your own home.

Every step of the sewing is visualized by an illustration and is quicker than having someone tell you how to do it.

Be efficient! Have the right tools to work with! **A Complete Course in Dressmaking** tells you the minimum you need. Learn how to use a block pattern to copy any style you fancy. Acquire the art of draping the goods and cutting without any pattern at all. Cut to save goods. Stop ripping. It wastes your time and spoils the garment. Do your work the professional way with a muslin test. It gives a nicety of finish and assures the fit. Turn the leftover scraps from cutting into trimmings that gives a chic touch.

Clothes for the Entire Family

Think of being able to make dresses for afternoon or evening, shirt waists, suits, cloaks, house dresses, dainty underclothes; pretty school frocks for the young miss in the family; suits, rompers, baby things for the younger kiddies; dresses and underthings for the children; shirts, bath robes, pajamas for the men in the family. Every one of your folks will profit by your ability to make clothes in this practical way.

This complete illustrated course comprises twelve comprehensive and interesting lessons, which cover every detail in clothes making. There are 565 illustrations, which interpret and visualize the text and make it easy for you to follow the directions. This course sells for $3.50—an extraordinarily low price when you consider that its teachings will be the means of saving you this sum on even the first dress or gown you make.

The pretty things are now possible which before you never thought you could make. You now can make the becoming clothes actually as you have dreamed of them. Here's a method that will open up a treasure chest of clothes for all the family. Here's a pleasant and easy way to make some money if you like sewing. Your neighbors will be glad to pay you to make their own and their children's clothes, on account of the greater knowledge and better style this course has taught you. A complete course in dressmaking will give your clothes a professional look.

Truly it is a wonderful opportunity to have the practical knowledge contained in **A Complete Course in Dressmaking** to guide you through every step of your home dressmaking. Miss Conover has the remarkable knack of making smart looking things in such a simple way that anyone can follow her methods. And her methods are so economical. You would scarcely believe that you could have such a complete wardrobe of practical and beautiful things at so little expense—for Miss Conover shows you just how to add that deft touch of smartness to the plainest and simplest articles of your apparel.

Harris Typewriters — New Low Prices

NOW ONLY $62.75

10 DAYS TRIAL

We Use About 1,500 Harris Typewriters in Our Offices.

The Harris Typewriter is a modern front strike visible writer of standard size and shape, beautifully finished and equipped with every needed convenience. It is a splendid machine for private use or for any business or profession.

Lawyers, bankers, business men, teachers, ministers, students, stock raisers and, in fact, everyone who writes letters or does written work will find a great saving in time and labor by using the Harris, and many advantages in the plain, easily read typewriter printing over longhand.

Try the Harris for Ten Days.

Let us send you a Harris for ten days' trial in your office or home without risk to you. When you receive it, give it a thorough test. Compare its light, speedy action, beautiful clean cut printing, soft lively touch, perfect visibility of all that is printed down to the last letter, and other valuable features, with any standard $100.00 typewriter and decide for yourself which is best.

If this test does not satisfy you that you prefer the Harris above all others, just send it back to us and we will at once return your money and pay all express charges both ways.

rt now. Conduct your business or profession in the modern way. Substitute the iful, clean cut typewriter printing, which is easy to write and easy to read, aborious longhand writing, which is hard to write, harder to read and consid- old style and out of date by progressive business people. This is a specimen of he Harris prints.

Used in Our Offices.

e and recommend the Harris. We adopted it for our nine years ago after two years of careful testing by our ing Department. Under the heavy strain of constant use rning until night, every working day in the year, it has o successful that, as our business has grown from year to e Harris Typewriters have been added to our equipment, w totals about 1,500 in daily use.

It Is Easy to Typewrite.

arris Typewriter makes writing a pleasure. A single light the key takes the place of two to five or six carefully trokes necessary to form each letter in writing longhand. wastes the time of both writer and reader and is fre- isread or misunderstood.

businesslike use the Harris. It enables you to make one arbon copies when writing letters, making bids, proposals, rices, etc., that are exact duplicates of the original. By hese for reference you can frequently prevent disputes uits which may easily arise through misunderstanding, mory, etc., if you have no accurate record of what has ten.

find it very simple and easy to handle, requiring no previous experience Our complete instruction booklet, sent with each machine, not only directions but also includes a short course in modern touch typewriting, ble almost anyone to become reasonably expert in a short time. Even without any instructions at all, no one to our knowledge has ever had any trouble in writing at satisfactory speed after a little practice.

Description of the Harris.

The Harris is a front strike visible writer of standard size and shape, beautifully finished in bright nickel and polished black enamel, and will ornament the finest office or study.

It is an always visible writer. Every character is in plain sight from the moment it is printed. Errors are instantly seen and easily corrected. It has 28 keys, writing 84 letters, figures and other characters. The type is regular pica size, as illustrated above, and as used in about 95 per cent of all business typewriters; universal keyboard with arrangement of letters the same as on other standard machines. Light, lively touch and speedy action. Has tabulator, back spacer, shift lock and release, shift keys at both ends of keyboard and marginal release. Nine-inch writing line with extra wide carriage, taking in paper up to 11 inches wide, and other valuable features. Comes to you complete with black record ribbon, rubber cover, cleaning outfit and complete instructions.

Regular Keyboard.

Money Saving Prices.

58H195—Harris Typewriter with regular keyboard. Price..... **$62.75**

Satisfactory Merchandise at Right Prices

Arch Supports and Foot Needs

How to Wear an Arch Support.

The wearing of arch supports at first may cause you some discomfort. Do not attempt to wear them for more than an hour or so each day for the first few days, gradually increasing the period as the soreness leaves the feet, which will occur as the feet gradually conform to the shape of the supports.

Treatment of the Feet.

Arch supports serve a special purpose. Many people, especially those walking or standing a greater part of the day, suffer with broken down or weakened arches. A good arch support will hold up this weak or broken arch, help to bring it back to its normal condition and relieve the trouble.

Especially beneficial for persons of heavy weight, for policemen, motormen, workmen and all who are obliged to stand for several hours per day.

Consult your physician before ordering to see that you order the proper support. They are all of first class material, the principal difference being in the shape, curvature, springs or special form for certain foot troubles.

How to Order an Arch Support.

In ordering arch supports follow these directions carefully unless you are sure of your size and the style you want.

Place your foot on a piece of blank and with a pencil held perfectly draw the outline of each foot, press weight of your body on the feet. outlines will enable us to select t rect size. Mail us the pencil drawi your order and, if possible, state shoe worn.

8H3562	8H3563
Price $3.59	Price $6.79

How to Measure

Consult a physician in every case before ordering, to get correct truss. If possible have your physician measure you around body on a line with the rupture over underwear, as shown in illustration, drawing in abdomen, as truss must fit tightly in order to be effective. Any sizes smaller or larger than sizes stated we will have to order specially from factory and will require from ten days to two weeks' time.

Elastic Trusses

Can Be Used for Right or Left Side. Adjustable at both ends, 1¾-inch elastic webbing. Soft composition pad. It pays to buy the best. **State measurements.** Single or Double. Average shipping weight, 15 ounces.

Homan Internal Bath Syringe.

A 3-in-1 Syringe.
Fountain Syringe.
Hot Water Bottle.
Internal Bath Syringe.

An Internal Bath Syringe is a help in cases of constipation. It assists nature in removing material which tends to make the bowels inactive. Used as internal bath it is only necessary for the person to sit upon bag, thus creating pressure necessary to perform required flushing. May be used as fountain syringe in cases where patient is too ill to be removed from bed. By using stopper, bag becomes a water bottle.

Outfit consists of 3-quart red rubber, cloth inserted bottle with combination fittings and internal bath attachment, as illustrated. Packed complete in box. Shipping wt., 1¾ pounds.

High Grade Soft Rubber Urinal Bags.

For Men, Women and Boys.

Valves arranged to prevent return of urine from lower bag. With exception of 8H2532, which must be held in place with a belt, these bags have waist straps which are easily adjusted. All bags have leg straps to hold them in place. Can be cleaned and sterilized in hot water. These bags cannot be returned after being used. Consult your physician before ordering to be sure you purchase the right article. For general incontinence of urine. Shipping weight of urinals, about 1 pound.

Male Day and Night Style.

8H2533—Price ...$5.98

Male Day or Night Style.
Top so patterned as to prevent any overflow when reclining.
8H2535—Price....$4.67

Portable Folding Bathtub. $7.69

Don't be satisfied with the old method of taking baths in a washtub when you can get a real bathtub for only $7.69. This tub is strong and well made. The frame is braced with steel at the corners and the tub material is a heavy rubber covered drill, very tough and durable, but smooth to the touch and pleasant to use. The bottom of the tub rests on the floor, taking most of the weight off the frame, and there is no danger of it tipping over. When through with your bath (the tub dries very quickly) roll it up and stand it behind a door or in a closet; it takes very little room. At times a fire is not needed in the furnace and the bathroom is too cold for comfort. These are the days when your folding bathtub can be set up in front of the kitchen range and a bath taken in comfort. Size of the tub itself: Length, 5 feet; width, 23½ inches; depth, 15½ inches, inside measurements. Shipping weight, carefully crated, 21½ pounds.

Genuine Utility Straw Hat Dye.

You have an old last year's hat. The material is good, the shape is good, but last season faded the color out dreadfully. Renew or change the color with this Hat Dye. Utility Hat Dyes can also be used on wickerware, baskets, willow furniture, etc., and dye almost anything that will absorb the stain. One bottle sufficient to color a large size hat.

Eight attractive colors: Navy blue, cadet blue, green, red, brown, burnt, purple or black. Gives a color that is waterproof, and the darker shades are practically fadeless. **State color wanted.** Shipping weight, per bottle, 1¼ pounds.

BUG KILLERS

Paris Green is used either as a spray or as dusting powder against most chewing insects, such as potato beetle and cabbage worm. In powder form it adheres well to the foliage, but if mixed with rye flour or similar powder this property is much improved. General dilutions are about 1 pound to 100 gallons of water for liquid spraying, or 1 pound to 20 pounds of land plaster for dusting. It should not be mixed with lime-sulphur solutions. Directions on package. Unmailable. Shipped from CHICAGO, ILL., or PHILADELPHIA, PENNA.

8H502 — 1 pound. (Shpg. wt., 1¾ lbs.) Price..$ 0.36

8H506½—100 pounds. (Shpg. wt., 105 lbs.) Price .. 29.95

Arsenate of Lead is one of the best known and most extensively used of arsenical insecticides least likely to burn the foliage, to which it adheres very strongly. Because of its fineness it remains in suspension well in water. Do not use stronger than 1 to 1½ pounds powder to 50 gallons of water. Can be used in the powder form for dry dusting. Spraying instructions on every package. Unmailable. Shipped from CHICAGO, ILL., or PHILADELPHIA, PENNA.

Powder Form.

Solution or Powder Lime-Sulphur

We list below a solution of full 33 degrees Baume strength, also the dry powder which can be diluted with water to make the solution. Two pounds of the powder are equivalent to approximately 1 gallon of solution. The Lime Sulphur for spraying is effective against many fungus growths, and can be mixed with Arsenate of Lead to make a combined fungicide and insecticide. Our powdered Lime Sulphur can be used to make a dip for controlling sheep scab. Shipping weight of solution, about 12 pounds per gallon. Unmailable.

Acid Phosphate. Mixed Fertilizers.

Prices and information on 16 per cent Acid Phosphate as well as Mixed Fertilizers may be obtained by addressing the Fertilizer Department, Sears, Roebuck and Co.

Raw Phosphate Rock

It has been proved conclusively that the majority of Corn Belt soils need phosphorus. For this reason maximum crops are not possible without the application of this element. Ground Raw Rock Phosphate is the cheapest and most natural form in which phosphorus may be supplied. Experimental Stations endorse its use. It is easily applied, and the results obtained convince one of its economy and value.

Reputation Raw Rock Phosphate is guaranteed to contain the equivalent of 14 per cent phosphorus, ground to such fineness that 95 per cent will pass through a 100-mesh screen. It is shipped in carload lots only, either in bulk or bags, direct from the rich Tennessee phosphate mines. We can make immediate shipment or on specified future dates. For years Reputation Raw Rock Phosphate has proved to be a profitable investment. Write for prices and information, addressing the Fertilizer Department, Sears, Roebuck and Co.

STOCK SUPPLIES

ock Feeding Molasses.

Each Barrel, About 54 Gallons.

An appetizing and energy producing food. Whether it is used with roughages like straw, hay or corn fodder or in a slop, these feeds are made more palatable and digestible through its use and are turned into weight and energy. Increases the milk flow in cows. Horses do more work. Hogs gain weight more rapidly and are often ready for market earlier.

It has been found that when replacing not more than half the corn in a ration, molasses has slightly more feeding value, pound for pound, than this grain. A trial will convince you of its value and economy. Shipped from the following distributing stations:

	Per Bbl.
8H838½—Chicago, Ill.	$8.98
8H836½—Cedar Rapids, Iowa	9.73

In 5-barrel lots, 25c per barrel less. Carloads, 50c per barrel less. Shipping weight, about 700 pounds to the barrel. Carload, 60 barrels.

Dried Powdered Buttermilk.

No Waste. No Hauling From Creamery.

Dried Buttermilk is regarded by feeders and many state experimental stations as a very valuable product in the successful feeding of calves, hogs and poultry. From 5 to 8 per cent by weight of the regular ration is sufficient.

Hogs take on smooth, even weight and are often marketed earlier.

Calves develop rapidly, mature early and digest their food more completely. In poultry feeding it increases egg production, aids rapid growth and often aids in eliminating common poultry diseases.

We are equipped to ship in 100-pound bags F. O. B. any of the following points: **Chicago, Ill., Philadelphia, Penna., Mason City, Iowa, Detroit, Mich., Springfield, Mo., Omaha, Neb., Topeka, Kan., Denver, Colo., Colorado Springs, Colo., Ft. Santonin Worm Tablets For Hogs

Santonin has been recommended for years by state and government authorities as the best product to rid hogs of worms. The formulas listed below have been approved by prominent state experiment stations. In the past we have listed various tablets made for hogs of different ages. However, for your convenience and economy we have adopted a new tablet which may be used for hogs of any age. These tablets are creased in the center so that the dosage for each age may easily be regulated. Break tablet along the crease in center, giving one-half tablet for little pigs, one full tablet for shoats and from one and one-half to two tablets for hogs, depending upon the age and condition. By this method these tablets are suitable for hogs of all ages. Average shipping weight, about 10 ounces. We recommend that the worm treatment be followed by our Hog Conditioning Powder listed below. Full directions as to dosage and feeding on each package.

Without Areca Nut or Oil of Wormseed.
Each tablet contains 3½ grains santonin, 3½ grains calomel and 7 grains soda bicarbonate.

PRINCESS COCOANUT OIL SHAMPOO 34c

You can have beautiful hair if you care for it properly. Shampooing plays a very important part in keeping the hair beautiful. It brings out the real life and luster and natural color.

A soap which contains free alkali dries the scalp and tends to make the hair brittle.

Princess Cocoanut Oil Shampoo makes a plentiful lather which can easily be rinsed out, bringing with it dust, dirt and loose dandruff.

After using Princess Shampoo the hair dries quickly and evenly, leaving it soft, fine and silky and fresh looking. A 5-ounce bottle, each in carton, with directions. Shipping weight, about 1⅛ lbs.

8H3248—Price.....**34c**

Princess Hair Tonic.

Princess Hair Tonic is a delightfuly preparation for helping to make the hair grow.

Unless the hair follicles are absolutely dead, it is possible to greatly stimulate the scalp and help nature to produce a growth of hair.

For falling of the hair, dandruff, scalp irregularities, a reliable tonic should be used once a day, rubbed into the scalp with the finger tips at least five minutes. Use it a directions and we believe that you will good results.

Princess Hair Tonic is not an untried p but an honest hair tonic, used for stim scalp generally. Shipping weight, per pounds; three bottles, 6¾ pounds.

8H3200—12-ounce bottle.....

8H3207—3 12-ounce bottles.....

WILDROOT

Wildroot Hair Tonic and Dandruff Remedy.

POPULAR Tooth Pastes

Good teeth mean better work and better play. If you value your health you will clean your teeth at least once a day.

In order to get the best results wet your brush in lukewarm water, squeeze half an inch of Denta-Mint or Peptomint on it, then brush your teeth up and down. Daily application will help to keep the gums firm and healthy and the teeth white and clean. Large size tubes. Shipping weight, each, about 6 ounces.

PEPTOMINT.

An exceptionally fine quality snow white dental cream. Manufactured exclusively for us under a modern formula, containing many of the fine qualities of the best tooth pastes on the market today. Pure white color, peppermint flavor, pleasant to the taste. Large size tube. Try this new paste on our recommendation.

Lady Janis Complexion Soap.

Begin now and have a beautiful skin. Handsome features, bright eyes, luxuriant hair, count for little if your face is covered with blemishes.

Everyone admires a beautiful complexion; a clear, fresh youthful skin is the greatest of all charms. We owe it to ourselves to improve our appearance as much as possible and the skin can be materially improved by a little care and attention. The skin is changing constantly. As the old skin dies, new skin is forming to take its place and this new skin can be kept clear and soft if we will only do our part.

Begin now to cleanse your skin with a soap suited to its special needs. Use it daily, follow the simple directions and massage, and you will be pleased with the improvement. Enlarged pores, blackheads, etc., can be eliminated by following the simple directions wrapped around each cake. Shipping weight, one cake, about 8 ounces; **3** cakes, about 1 pound.

Balloons, All Kinds.

The coloring in our balloons is right in the rubber and **will not come off.** Made especially for us—heavier rubber than ordinary balloons. Each assortment packed in fancy gift box. Tested by machinery. No lips but yours touch them. Shipping weight, 2 ounces.

Popular Four. Illustrated Above.

The big balloon alone commonly sells for 25 cents. There is also a green watermelon balloon, an airship balloon with a slow leak valve; when blown up and thrown in the air it sails around propelled by the escaping air. Also a sausage shaped squawker balloon. If blown up slowly, the big balloon sometimes inflates to 26 inches in length. We guarantee it for 15x22 inches.

18H3147	14 inches	1½ pounds	**2.98**

This is our wonderful line of fine dressed dolls, and we wish all our friends might see them, for they are very lovely, indeed. First of all, the dolls have exceptionally well formed, strong cloth covered bodies, stuffed plump, and jointed at hips and shoulders. The heads are beautifully modeled of light weight composition, almost unbreakable, and have pretty, low necks. Fitted with eyes which open and shut. The lovely wig is of real hair which can easily be recurled, and has a wide ribbon bow. Then there is the lovely dress, made of fine quality voile and trimmed with dainty lace. It is a charming style and nicely finished throughout. Excellent underwear, socks and shoes. Each of the five sizes is like the picture, and is a remarkable value at our price.

98c

Strong Composition Head. Moving Eyes.

18H3053—This doll has prettily tinted strong composition head with sleeping eyes. Bobbed style wig of soft mohair. Strong cloth covered stuffed body and legs. How to Order and Other Information

Order under one name

If possible, have all the members of the family order under one name—**the name of the head of the family.** This name should always be written plainly and always the same way. For example: If the name of the head of the family is J. P. Thompson, sign the two initials and the name every time. Don't sign the order simply J. Thompson. If you have no middle name please write the first name in full. For example: John Thompson, not merely J. Thompson. When we receive all orders from the same family under one and the same name, the keeping of our records is simpler and prevents mistakes and delays.

Order blanks

Order blanks are enclosed in this catalog. Additional blanks, if wanted, will be sent upon request. If at any time you have no order blanks write your order on any paper.

Write in any language

We can read it. We receive orders **in all languages; all** are handled with the same promptness.

Necessary information

Give name and number of article in catalog, also size and color where necessary. It is also advisable to check your order carefully to see that the necessary information is correctly stated before enclosing your order in the envelope.

How to send money

We require cash with order. You are perfectly safe in sending cash with order, for our guarantee protects you. If you are not satisfied with the goods you receive we will exchange them for other goods you want, or return your money, together with all transportation charges you paid. You can send the money to us in any of the following ways:

1—Postoffice money order. *4—Cash by registered mail.*
2—Express money order. *5—Your personal check.*
3—Bank draft.

When goods are to be shipped by parcel post be sure to include **additional** money to pay for postage.

If you live on a rural route you can give the letter containing your order and money to your carrier and he will buy a money order for you at the postoffice and enclose it in the envelope with your order and mail it to us.

Change of address

If you change your postoffice address, street address, R. F. D. or box number, please let us know at once. In notifying us be sure to give your old address as well as your new one. This will enable us to send catalogs or letters to the correct address and thus avoid inconvenience to you.

Transportation charges

All transportation charges are to be paid by t tomer.

When goods are to be shipped by parcel post to include **additional** money to pay for postage.

When goods are to be shipped by freight or and there is no freight or express agent at your s point, you must send additional money to pre freight or express charges. If there is an agent pay the charges when shipment reaches you. It necessary to prepay freight or express charges whe is no agent at your station. See pages 484 and express and freight rates.

Freight is the cheapest

Parcel post and express rates are low, but the c way of shipping is by freight. The biggest savi made by our customers who plan their purchases vance. Instead of having small orders shipped to t express or parcel post they figure out all the suppli will need for two or three months and order then once, shipped by freight. In this way they make siderable additional saving on the larger order.

If you order goods sent by freight or express be sure to give your shipping point if it is different from your postoffice.

Factory shipments

In order to make our prices as low as we do we necessary to ship many of the heavy, bulky arti sell direct from the various factories where they ar or from a warehouse, thus saving our customers and cartage to our store, double handling and o penses. The descriptions tell you when goods are from factory or warehouse. By far the greater our merchandise is shipped direct from our store.

When you don't tell us how to ship

In this case we will consider that you have left i judgment and we will ship your goods the way it you the least.

Before returning goods

Before returning goods shipped from a factor us. We ask this so we can tell you whether we w goods sent to our store or back to the factory.

A Word About Prices

Whenever market values decline, we immediately reduce our prices and return the difference to our customers on all merchandise purchased from this catalog after the decline. In extreme cases we may be compelled to advance our prices when market conditions make such advances necessary, but only extreme conditions could force us to take such action. It may also become necessary, in exceptional cases, to limit the amount of any commodity that is ordered to such quantity as would ordinarily be purchased by the consumer.

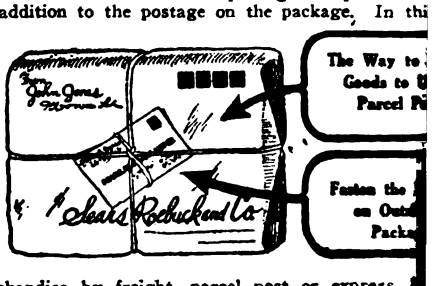
To find what you want refer to the index, pages 486 to 497. For Parcel Post, Express and Freight Rates see pages 483, 484 and 485.

Come and Visit Us



Whenever you come to our city we invite you to visit us. We'll show you through our great buildings. You will not be asked to purchase anything, but if you wish to make out an order while you are here you may do so, just as you would at home, and the goods will be shipped in the usual way.

How to Return Goods

by Parcel Post, Freight or Expre

If you ever have occasion to return any merchandise give you **better service** if you follow these instructions

If you return goods by parcel post, paste or tie an envelope your letter and the bills to the outside of the package and put a 2-c on the envelope in addition to the postage on the package. In thi will receive your letter and the package at the same time and can attend to your wishes promptly.

If you return merchandise to us by freight or express, mail your letter and the receipt the agent gives you as soon as you have shipped the goods.

In any case, whether you return merchandise by freight, parcel post or express, write your name on the package, so that we may know who sent word "From" in front of your name.

We are anxious to improve our merchandise and our serv possible way, and will appreciate any suggestions from our custom help us very much if you will tell us just **WHY** goods are unsati

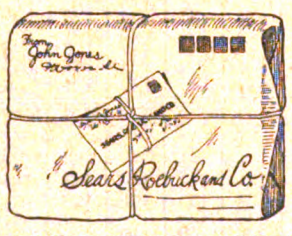
Rates for Parcel Post Shipments

Your postmaster will tell you the parcel post zone in which your postoffice is located, measuring from our store.

ll merchandise shipped by mail takes parcel post rates. Packages up ounces in weight are carried at the rate of 1 cent an ounce, regardless istance. Packages over 4 ounces are charged for by the pound. The per pound varies according to the distance, which is measured by the rnment zone system, each zone covering a certain number of miles point of shipment. Distances and rates are shown in the table below. ges carried by parcel post are handled just like any other mail matter. They are delivered to your box by your rural mail carrier if you live on a rural route, or delivered to your door if you live in a city where there is carrier service, or delivered to your local postoffice if you live where there is no carrier service.

Loaded or primed cartridges or shells, other explosives, inflammable articles and poisons cannot be shipped by parcel post, nor articles measuring more than 7 feet in length and girth combined.

RATE TABLE FOR PARCEL POST SHIPMENTS



s table shows the charges when ng by parcel post, according e weight of the packages and ing to distance by zones.

Within Local Zone and Zones 1, 2 and 3, packages up to 70 pounds in weight are carried. The limit of weight for all other zones is 50 pounds. Articles measuring more than 7 feet in length and girth combined, explosives, inflammable articles and poisons cannot be shipped by parcel post.

Books Parcel post rates apply to books as follows: All books up to and including 8 ounces in weight will be carried at the rate of 1 cent for 2 ounces to any part of the United States, regardless of distance, and all books over 8 ounces in weight will take the regular parcel post rates according to weight and zone.

How to Return Goods to Us by Parcel Post.

THE WAY TO RETURN GOODS TO US BY PARCEL POST.

When you return goods by parcel post, put the letter you write and the bills for the goods in an envelope and paste or tie the envelope securely to the outside of the package. In addition to the postage you put on the package, put 2 cents postage on the envelope.

About Transportation Charges.

hen goods are to be shipped by parcel post, do not send to pay the postage for shipping package, but add the amount postage to the amount of the merchandise and include in the ittance you send us. This charge for mailing must be paid in ance, as no provision has been made for the collection of mailing ge on delivery.

hen goods are to be shipped by freight or express and e is no freight or express agent at your shipping point, you send money to prepay the transportation charges. If there is an agent you can pay the transportation charges when shipment reaches you. It is only necessary to prepay freight or express charges when there is no agent at your station. Read pages 484 and 485 for complete information about freight and express rates and charges.

Throughout our catalogs you will find the shipping weight is given in the description of merchandise. Occasionally, according to the nature of the merchandise, we are obliged to give the actual weight. In such cases a few ounces extra in weight must be allowed for wrapping and packing, according to the nature of the goods.

Express Rates

Tables showing the Express Rates per 100 pounds on goods shipped from Chicago to a number of cities in each state, these cities being used as a basis for figuring rates for all the towns in the immediate vicinity of each city.

Your express agent will tell you the exact rates from Chicago to your home town and give you full information in reference to their delivery service. If there is no express agent at your nearest railroad station and you desire your order sent by express, it is necessary that you show the nearest town at which there is an express agent.

HOW TO FIGURE EXPRESS CHARGES. First estimate the weight of goods you are ordering; then find the rate per 100 pounds by express to your nearest city, in the Table of Rates below; then consult the Scale of Express Charges, following t the weight of your goods to the column headed by your express rate per 100 p the amount shown will be the express charges.

If the exact rate per 100 pounds to your town is not shown in any of th of this scale, take the rate shown for the town nearest you and the express char about the same as to your town.

The table of Express Rates also shows the parcel post zone of the various ci below, enabling you to make an approximate comparison between the express c the parcel post charges to the zone in which you live. For Parcel Post Rates se

FREIGHT RATES

Table showing the freight rates per 100 pounds on goods shipped from Chicago to a number of cities in each state, these cities being used as a basis for figuring rates for other cities located in the same part of the state.
Please consult the following Table of Rates, considering it in connection with the classification of merchandise, and you will be able to determine easily, almost exactly, what the freight will amount to on any goods. If your station is not named in this table, the rate to your station will be the same or a few cents per 100 pounds more or less than the rate to the nearest city named, or you may ask your freight agent.

HOW TO SAVE ON FREIGHT CHARGES.

In having goods shipped by freight, it pays you to make up an order of 100 pounds or more, because railroad companies charge as much for a shipment weighing less than 100 pounds as they do for one weighing 100 pounds.

If there is no freight agent at your shipping point you must include sufficient money to prepay freight charges. If there is an agent you pay the freight charges when shipment reaches you. When you leave the method of shipment to us we always choose the cheapest method.

CLASSIFICATION OF MERCHANDISE FOR FREIGHT SHIPMENTS.

You will notice in the Freight Table below there are four different rates quoted to each city, **first class, second class, third class and fourth class.** This is because the railroad companies base their rates on the kind of merchandise to be carried. In order, therefore, to give you an idea as to the rates which any kind of merchandise will take to your nearest station we tell you here the kind of merchandise which takes the different classes of rates.

EXPLANATION.

means 1st class rates.
means 2d class rates.
means 3d class rates.
means 4th class rates.
means 1 and ½ times 1st class rates.
means 2 times 1st class rates.
means 3 times 1st class rates.
means 4 times 1st class rates.
means 15 per cent lower than 2d class rates.
means 20 per cent lower than 3d class rates.
means East of Chicago and North of Ohio River.
means West, Northwest and Southwest of Chicago.
means South of Ohio River and East of Mississippi River.

pecial Catalogs, Sample Books and Circulars

Before writing for any special catalog, sample book or circular be sure to refer to the index on preceding pages to see whether or not the goods you want are shown in this big General Catalog. If they are shown you can order direct from this Big Catalog and avoid the delay of waiting for a special catalog. If you can order without seeing samples you can avoid the delay of waiting for them. Remember, you run no risk whatever. We guarantee to please you in every respect or return your money if you are not entirely satisfied.

You do not need to send for a special catalog, sample book or circular unless the goods you want are not shown in this Big Catalog, but we want you to send for a special catalog if you feel that you need it. In writing, just tell us the kind of goods you want to buy and we will send you the catalog that shows the goods in which you are interested. Send us a postal card or a letter asking for the special catalog, circular or sample book you want.

PLAYER WORD ROLLS

SUPERTONE (Our Own Trade Mark, Reg. U. S. Patent Office) ROLLS are mechanically perfect and musically correct. They embody all the good features which enter into the making of rolls of the highest quality.

SUPERTONE
Trade Mark, Reg. U. S. Patent Office.
PLAYER WORD ROLLS
CARRY ME BACK TO OLD VIRGINNY
No. 103
GET THE UTMOST ENJOYMENT FROM YOUR PLAYER SING AS YOU PLAY

Our Music Rolls are put up in neat and serviceable strawboard boxes covered with paper in imitation of leather.

Often when you play a song with a catchy melody in it, don't you have an inspiration to sing, and isn't it provoking that you are unable to do so because you do not know the words? Then, again, would it not be a pleasure at your parties and gatherings to be able to group around the player and all join in singing the best and the latest songs from words plainly printed at the right hand side of the roll?

Supertone Player Word Rolls afford these enjoyments, and we feel sure that you will derive great pleasure from them.

It is just as natural to sing to these rolls as it is to play them on your player piano.

However, if you do not care to sing, t rolls are arranged so they may be playe piano solos, and many of them can be for dancing.

NOTE—All Supertone Player Word R are hand played reproductions by fam pianists. They come in three classes, pr according to the royalty paid the publis for the use of the words and music; for ample, on standard and old time songs t is no royalty. On the second class (regular popular song hits) there is a sm royalty charge, and on the third class (n bers from musical plays and extremely hits) there is a double royalty charge.

Most of these rolls are also arranged for dancing.
Those marked with an asterisk (*) are for waltzes.

Those marked with a single dagger (†) are for one-steps.
Those marked with a double dagger (‡) are for fox trots.

Order by catalog number and roll number. Average shipping weight, 12 ounces.

12H5901—STANDARD AND OLD TIME SONG ROLLS (NON-ROYALTY)

INSTRUMENTAL ROLLS

SUPERTONE (Our Own Trade Mark, Reg. in U. S. Patent Office) ROLLS are mechanically perfect and musically correct. They embody all the good features which enter into the making of the highest quality.

Regardless of whether or not any of the numbers below are known to you, we feel that you will be satisfied with any of them you may order. The numbers appearing in heavy type are, in our opinion, the best of their respective classes.

WEIGHTS—Our music rolls, packed, will average about 1½ pounds each. Order as many rolls as possible, thereby making the utmost saving in transportation charges. For example: One roll shipped 600 miles by parcel post will cost 11 cents for mailing charges; a dozen rolls shipped the same distance will cost only 75 cents for mailing charges, or a little over 6 cents each.

Price..... **$7.45**

This splendid outfit is fully equipped to take care of the average player. Stradivarius model violin. Fully lined and blocked. Flamed maple back and sides and spruce top. The tailpiece, fingerboard and pegs are of ebonized hardwood. The finish is a rather dark brown color, covered with fine varnish. Compare this with violins sold by others at $20.00 to $25.00.

Outfit consists of: One violin, as described. One composition case, flannelette lined. One bow, fully lined with nickel silver. One piece rosin. One extra set gut strings. One four-pipe tuner. One fingerboard chart. One Guckert's Instruction Book. One Drawing Room Collection for Violin and Piano. Shipping weight, 12 pounds.

12H115¼—Price..... **$14.95**

Price considered this is a dandy outfit. This violin is a copy of the celebrated Maggini, having the characteristic double purfling and scroll. The back is made of two pieces of maple, with sides of the same material. The top is made of seasoned spruce, and the tailpiece, fingerboard and pegs are made of wood in imitation of ebony. Finished in a brilliant red color, shaded to amber. Outfit consists of:

One violin, as described.
One canvas covered case, flannelette lined.
One bow, with mother of pearl eye in frog.
One piece book form rosin.
One extra set of Bell Brand steel strings.
One fingerboard chart.
One four-pipe tuner.
One book Guckert's Self Instructor.
Shipping weight, 12 lbs.

12H125¼ Price..... **$9.95**

Stradivarius model with two-piece back of seasoned maple, nicely flamed. The sides are maple and the top is made of selected spruce. Maple neck and scroll. Nicely inlaid purfling around the edges. Well constructed and finished in a rich color and covered with transparent varnish. The tailpiece, fingerboard and pegs are of imitation ebony. Outfit consists of:

One violin, as described.
One black varnished wooden case, half lined with flannelette.
One full nickel silver lined bow.
One set Bell Brand strings.
One piece rosin
One fingerboard chart.
One four-pipe tuner.
One Guckert's Instruction Book.
One book Young Violinist's Favorite. Shpg. wt., 12 lbs.

12H106¼ Price..... **$12.45**

Fine Guarnerius model with two-piece back, made of seasoned maple, nicely flamed. Top of selected spruce. Fully lined and blocked. The tailpiece, fingerboard and pegs are ebonized hardwood. Finish is a rich dark red color. Outfit consists of:

One violin, as described.
One case, keratol (artificial leather) covered, flannelette lined, nickel plated lock and clasps.
One fine model bow, ebony frog.
One chin rest.
One cake Bernadel rosin.
One set Acme professional strings.
One fingerboard chart.
One metal mute.
One four-pipe tuner.
One Wichtl's Instruction Book.
One Drawing Room Collection.
High grade in every respect.
Shipping weight, 12 pounds.

12H127¼ **$19.95**

Stradivarius model of accurate proportions. Back and sides of selected flamed maple and top of even grained spruce. Figured neck and scroll. Ebony fingerboard, tailpiece and pegs. Beautiful amber red color. The tone is mellow and even on all strings.

Outfit consists of:
One violin, as described.
One Pernambuco wood bow, full nickel silver trimmed.
One case, covered with keratol (artificial leather). Velveteen lined and nickel trimmed.
One piece Bernadel rosin.
One chin rest.
One fingerboard chart.
One Wichtl's Instructor.
One Drawing Room Collection.
One extra set of Acme professional gut strings.
One five-prong metal mute.
One four-pipe tuner.
Shipping weight, 12 pounds.

VIOLINS

...olins at a Price You ...an Afford to Pay

A Variety to Choose From

The violin is unquestionably the "king" of all musical instruments. Its beautiful tones can be made to express almost any emotion, or imitate any sound.

While it takes a little time and patience to learn to play, it is well worth the effort to be able to give expression to your varied moods through the medium of this beautiful instrument.

12H140¼ $6.45

Plain but Good Quality.

Here is a violin, good model, correctly proportioned and having two-piece maple back and maple sides, spruce top and maple neck. Ebonized hardwood fingerboard, tailpiece and pegs. Inlaid purfling around edges. It is fully lined and blocked and is finished in a brownish color, semi-dull polish. Very good tone for a violin at this price. Shipping weight, 7 pounds.

12H140¼ Price.....**$6.45**

Mother of Pearl Inlaid Trimmings.

Broad Stradivarius model of selected maple back, nicely flamed, and spruce top. Fully lined and blocked. Inlaid purfling around edges. Scroll, carved with a floral design. Ebony finished fingerboard highly polished. Bone nut. Pegs and tailpiece inlaid with large mother of pearl ornament. Varnish is a rich dark red, shading into a yellowish tint. Fitted with fancy carved ebony finished chin rest. Shipping weight, 7 pounds.

12H142¼—Price.....**$9.95**

12H142¼ $9.95

Although our line of violin outfits is quite complete and of varied prices, a good many of our customers either only need a new violin or prefer to pick their own case, bow, etc. To accommodate them we quote on this page a few violins which do not include at the price any extras except where it is mentioned in the respective description of the violin.

For cases, bows and supplies see pages 504 and 505.

12H150¼ $11.25

Nicely Figured Wood.

Stradivarius model. The two-piece back is of handsomely figured maple and top of straight close grained spruce. Neck and scroll of maple to match the back. The purfling is perfectly inlaid. Hardwood ebony finished fingerboard, tailpiece and pegs, ...of a rich brownish color, shaded to the natural ...the wood, making a very pleasing contrast. ...carefully rubbed finish. The tone is of a most ...quality. Shipping weight, 10 lbs.

...150¼—Price.....**$11.25**

12H152¼ $14.95

Gold Plated Ornaments.

The model is an accurate copy of a Stradivarius violin. It has a two-piece back and sides of seasoned maple, highly figured and flamed. Spruce top of a fine and even grain. It is inlaid with genuine purfling. Ebonized hardwood pegs, fingerboard and tailpiece. Gold plated knobs on pegs and gold plated lyr... on tailpiece. Perfect scroll. The violin is finished in ... shaded brown color, which together with the gold plate... ornaments make a fine appearance. Graded and blocked. **Chin rest included.** A violin that would be hard t... duplicate for $20.00. Shpg. wt., 10 lbs.

12H152¼—Price.....**$14.95**

12H154¼ $19.95

...earance and Tone Will Please.

...exceptionally well constructed Strad... model violin with a two-piece back ... nicely flamed maple and even grained ...pruce top. The wood used has been well seasoned and is of selected quality. The fingerboard, tailpiece and pegs are made of excellent quality ebony wood, dull finished. It is finished in a reddish color and nicely varnished, bringing out the flaming in the wood. The tone is full and fine on all strings. It is superior to instruments sold by many other dealers at as high as $30.00, so don't judge it by our low price. Shpg. wt., 10 lbs.

12H154¼ Price...**$19.95**

12H146¼ $24.95

Carved Tailpiece and Pegs.

This is a copy of a celebrated Stradivarius violin, beautiful in appearance, rich in tone and skillfully made. It has a two-piece back of carefully selected well seasoned maple, beautifully figured and flamed. The sides are of maple and the top is made of even grain thoroughly seasoned spruce. The neck is of fine curly maple and the scroll is very carefully cut. The measurements are correct and such as will give excellent tone result. The edges are very carefully worked out and the corners shaped, and the purfling inlaid with great care. The body of the violin is finished in a brownish red color, covered with a varnish which brings out the high lights in the wood. All trimmings are of the best quality jet black ebony wood. The tailpiece and pegs are handsomely carved in fancy design. The tone is powerful and sweet and even on all strings. Shipping weight, 10 lbs.

12H146¼ Price.....**$24.95**

12H170¼ $49.9...

Imitation of Old Stradivarius.

A copy of the famous Stradivarius violin of 1715, correctly executed by a violin maker who reproduces the violins of old masters, even to the marks of age.

Back and sides made of highly flamed maple. Top of fine quality selected silver spruce. Neck of maple, finely figured with scroll beautifully cut in elegant outlines. Trimmings o first quality ebony, plain but rich in finish. Materials thoroughly seasoned and selected with the greatest of care for their musical properties, which naturally produces a tone that will improve with age and playing. Workmanship high class, every particle of the work being done by a master. Edges evenly worked out, the purfling set in with extreme care, the sound bar of the right thickness and size and carefully graduated. Color, rich golden amber, slightly shaded with red, except where marks of age appear. Fine transparent varnish is used, giving it a rich antique appearance. Tone loud and even on all four strings, and at the same time of a pleasing, round quality, suitable for solo or orchestra work. Shipping weight, 10 pounds.

12H147¼ Price.....**$29.95**

A Master's Best Effort.

This violin is made by one of the foremost makers of the present time and is a copy of the best violin that Stradivarius ever made. It has a two-piece back, made of beautifully flamed maple; sides of the same material. Top is made of the very best spruce obtainable. The purfling is carefully inlaid and sharply brought to a point at the corners. The neck is of fine curly maple and the scroll purely Stradivarius in style. The finish is a rich golden amber, with the edges brought to a natural color and the back shaded toward the center to its natural color. The varnish used is of the finest quality, glossy and transparent. It is fitted with an ebony tailpiece and chin rest carved in a beautiful and elaborate design. The pegs are also of carved ebony and have solid gold tips. The fingerboard is of first quality ebony, dull in finish. Mellow tone of great volume and carrying power. Dealers that carry as high a grade violin generally ask $75.00 or more. Shipping weight, 10 pounds.

Violin Cases

Keratol Covered Violin Case.

Our Leader

12H1010

$4.75

The bodies of our leather and keratol (artificial leather) covered cases are made of three-ply veneers, glued across the grain and firmly pressed into shape. We guarantee them not to split or warp. We do not handle the cheap covered cases which are made of one thickness of wood pressed into shape by steam and are easily affected by moisture or heat.

We cover our cases with KERATOL, which is a very durable artificial leather. There are many grades of keratol. We use an extra high grade which is almost as durable as leather.

LEATHER, which is a superior covering for violin cases. We use selected leather, handsome in appearance and of good weight, which will give years of service.

Rubberized Cloth Violin Bag.

12H1000—Made of a lined rubberized cloth. Metal fasteners. Pocket for bow. Well sewed and snug fitting. Violin shaped. For full sized violin only. Shipping weight, 9 ounces.
Price..... **89c**

Concert	18¾	37	9⅞	13¼	3¼	3¼
Grand Concert	19	38	10	14	3⅜	3⅜

Total length of instrument may vary up to ¼ inch on account of neck.

COMPLETE GUITAR OUTFIT.

This outfit includes everything that is needed to start you on your studies. The guitar itself is a handsome instrument, well made of seasoned materials. The body is an exact reproduction of grained mahogany. Top of white spruce with an artistic ornament on lower bout. Mahogany finish neck with a mandolin style head. Imitation ebony fingerboard bound with white celluloid and inlaid with three position dots. The top edge and soundhole are inlaid with a beautiful colored block design. Ebony finish adjustable metal bridge as described above. Brass screw pattern patent heads. Rubberized cloth bag, one instruction book, one fingerboard chart, one tuner with pipe for each string and one thumb pick included. Standard size. Shipping weight, about 15 pounds. **$9.95**

12H245¼—Price **$9.95**

Birchwood, Brown Finish.

Birchwood top, back and sides. Hardwood fingerboard inlaid with three celluloid position dots. Screw patent heads with steel plates. Ebony finish bridge with metal fret and nickel plated tailpiece. Entire instrument finished in a brownish color, slightly shaded at center of top and back. Standard size. A well made guitar for the money. Shipping weight, 12 pounds. **$3.45**

12H203¼—Price **$3.45**

Pearletta (Imitation Pearl) Inlaid.

Imitation rosewood body. Spruce top. Poplar neck, mahogany finish. Top of head is ebony finish and inlaid with imitation pearl ornaments. Ebony finish fingerboard, bound with white celluloid and inlaid with four pearletta ornaments. Brass screw patent heads. The edge of top and soundhole is inlaid with pearletta between strips of red, black and white purfling. Edge of top and back is bound with white celluloid. Fancy inlaid stripe through middle of back. Fitted with a metal adjustable bridge, as described and illustrated above. Standard size. Shipping weight, 12 pounds. **$7.45**

12H254¼—Price **$7.45**

Figured Rosewood—Pearl Inlaid.

Back and sides of beautifully figured rosewood. Spruce top. Mahogany neck. Head veneered and inlaid with mother of pearl ornament. Ebony finish fingerboard inlaid with mother of pearl ornaments and bound with white celluloid. Ebonized hardwood bridge. Bridge pins inlaid with mother of pearl. Edge of top and soundhole is inlaid with purfling and mother of pearl ornaments of different designs set in a black background. The back is inlaid with a wide stripe of fancy woods. Nickel plated patent heads. Shipping weight, 18 pounds.

12H260¼—Standard size. Price **$14.95**

12H261¼—Concert size. Price **16.25**

Rosewood Finish.

Imitation rosewood body. Spruce top. Mahogany finish neck. Ebonized fingerboard with celluloid position dots. The edges of the top and soundhole are inlaid with strips of colored wood. The top edge is bound with white celluloid. Decalcomania stripe in back. Ebonized bridge and nickel plated tailpiece. Standard size. Shipping weight, 12 pounds. **$4.95**

12H205¼—Price **$4.95**

12H206¼—Same as above, but in three-quarter or women's size. Price **$4.95**

Genuine Mahogany.

Back and sides made of selected mahogany. Spruce top. Mahogany neck. Ebony finished fingerboard with three mother of pearl position dots and bound with white celluloid. Rosewood veneered head, inlaid with mother of pearl star. Edge of top is inlaid with strip of fancy colored wood blocks and bound with white celluloid. Soundhole inlaid and bound to match edge of top. Back is inlaid with a fancy stripe down the middle. Adjustable metal bridge (see above). Shpg. wt., 18 lbs. **$9.95**

12H255¼—Price **$9.95**

Our Finest—A Beauty.

One of the most pleasing designs we have yet seen. The body is made of beautifully figured rosewood with top of white spruce. Mahogany neck with veneered head inlaid with pearl. Ebony finished fingerboard, bound with strips of brown and white celluloid and inlaid with pearl. The edges of the top and soundhole are inlaid with Japanese green pearl and bound with a strip of brown celluloid, below which is inlaid black and white purfling, making a very beautiful color effect. Brown and white celluloid stripe inlaid down the middle of the back. Rosewood bridge. This instrument is not only constructed for beauty, but for tonal qualities as well. Shipping weight, 18 pounds.

12H265¼—Standard size. Price **$19.95**

12H266¼—Concert size. Price **21.25**

12H267¼—Grand Concert size. Price **22.45**

Columbia Records

Hawaiian Selection

Aloha Oe. Instrumental. With tenor solo and chorus. — A 1616, 10-in., 75c
Hawaiian Medley. Instrumental. Both by Toots Paka Hawaiian Co.

Aloha Oe. Prince's Orchestra, with trio of women's voices. — A 1667, 10-in., 75c
The Golden Ring. Columbia Ladies' Quartet.

BEAUTIFUL OHIO. Waltz. — A 2743, 10-in., 75c
TILL WE MEET AGAIN Waltz.
Both by Kalaluki Hawaiian Orchestra.

The Kalaluki Hawaiian Orchestra is unquestionably a perfect Hawaiian ensemble. While keeping all the sweetness of the singing strings in their music, they give also a volume rarely equaled in Hawaiian records. These two waltz selections are sure to meet your favor—the singing melodies, the throbbing, rippling accompaniments and the splendid tone volume combine to make them of commanding interest.

Hawaiian Dreams. (Marple.) — A 2311, 10-in., 75c
Lelia, Pasillo Waltzes. (Gallmany.)
Louise and Ferera. Hawaiian guitar duets.

Hawaiian Echoes. Intro. "Ka Mala O Ka Maoli," "Pua He-i," "Kuu Pua Rose Lani," "Aloha Oe," "Ua Like No a Like," "Kuu Ipo." One-Step. — A 2368, 10-in., 75c
Smiles, Then Kisses. (Ancliffe.) Waltz.
Both by Louise, Ferera and Greenus. Hawaiian guitars and ukulele trio.

Hawaiian Medley. Intro. "Moanalua Hula," "Maunawili," "Meleana." Louise and Ferera. — A 1993, 10-in., 75c
Pua Mohala. H. N. Clark, tenor, and Hawaiian Octet. Guitar and ukulele accompaniment.

Hawaiian Melodies, Medley of. "One-Two-Three," "Halona," "Sweet Lee Mamo." Waltz. — A 2200, 10-in., 75c
Kaui Kahio Medley. "Ainahau," "Kuwiliwili Iho au," "Ua Hiki No Mean." Fox Trot.
Both by Biltmore Kalaluki Hawaiian Orchestra.

HONOLULU BAY. — A 3316, 10-in., 75c
ROMOLA.
Hawaiian guitar duets by Frank Ferera and Anthony Franchini.

Sometimes on one of your quiet evenings at home, you have probably felt you would like something musically different. You can have it in the drowsy, voluptuous music of Hawaii, with its subtle appeal. The lure of Hawaiian music is well nigh irresistible. Ferera and Franchini are masters of the Hawaiian guitar. They draw from the strings all the humor and pathos, all the laughter and tears that lie in every Hawaiian melody.

Hawaiian Waltzes, Medley of. — A 1814, 10-in., 75c
My Old Kentucky Home. (Foster.)
Louise and Ferera. Guitar duets.

Hilo. Hawaiian March. Irene West Royal Hawaiian Troupe. — A 1812, 10-in., 75c
Kahala March. Palie K. Lua and David K. Kaili. Hawaiian guitar duet.

We Pay all Postage or Express Charges on Columbia Records

Honolulu Rag. — A 1861, 10-in., 75c
Kaiwi Waltz. (Kaiwi.)
Guitar duets by Lua and Kaili.

Kilima Waltz. — A 1874, 10-in., 75c
Hawaiian Hotel. (Nainas.)
Lua and Kaili. Hawaiian guitar duets.

Long Ago. Ferera and Franchini — A 2950, 10-in., 75c
Hunika. Ferera and Franchini.
Hawaiian guitar duets.

Missouri Waltz, The. — A 2450, 10-in., 75c
Little Alabama Coon. Intro. "Old Black Joe."
Both by Louise, Ferera and Greenus. Hawaiian guitars and ukulele.

My Hawaii, You're Calling Me. (Lewis.) — A 2509, 10-in., 75c
Oh, Sole Mio! (My Sun.) (Di Capua.)
Both by Louise, Ferera and Greenus. Hawaiian guitar, banjo nd ukulele trio.

My Rose of Waikiki. Campbell and Burr.
Hello, Aloha, Hello! Campbell and Burr.
Both with orchestra and Hawaiian guitars.

One, Two, Three, Four. (Alau.) Vocal.
Ua Like No a Like. (Constancy.) Vocal.
Both by Toots Paka Hawaiian Company.

On the Beach at Waikiki. (Kailimai.)
Hapa Haole Hula Girl.
Louise and Ferera. Guitar duets.

Palakiki Blues.
Pua Carnation. (Carnation Flower.) Intro. "Wili-wili Wai." (Surging Waters.)
Guitar duets. Louise and Ferera.

Somewhere in Hawaii.
Arabian Dreams. Both guitar, banjo and ukulele trios. Louise, Ferera and Greenus.

Songs From Hawaii. Intro. "Maui Girl." Waltz Medley. Guitar duet. Louise and Ferera.
Hawaiian-Portuguese Tango. Louise, Ferera and Kainoa. Guitar and ukulele trio.

THAT NAUGHTY WALTZ.
PENSACOLA WALTZ.
Hawaiian guitar duets by Frank Ferera and Anthony Franchini.

The music of Hawaii has a lasting hold up musical affections of America. The melancholy of the small guitar has a sweetness all its own. and Franchini are probably the two best kno ponents of the music of the Pacific isle, an rendering of these beautiful and extremely waltz melodies makes this record an instrumen that is a worthy addition to any record collecti

Sweet Hawaiian Moonlight. Waltz. Intro. "Ha ona."
Hawaiian Nights. Waltz.
Both by Kalaluki Hawaiian Orchestra.

Waikana Waltz. (Drowsy Waters.)
Hawaiian Medley. Two-Step.
Louise and Ferera. Hawaiian guitar duets.

Wailu Lulilui. Louise, Ferera and Kainoa. Gui and ukulele trio.
Kalaluhi's Hawaiian Medley of Hulas. Int "My Honolulu Tom Boy," "My Honolulu Hu Girl," "On the Beach at Waikiki," "Waiki Biltmore Kalaluki Hawaiian Orchestra.

The Famous Hickman Dance Records

At an expense perhaps never before paid for such a feat, Hickman's entire orchestra was brought across the continent from San Francisco to New York to make Columbia Records. New York's reception to Hickman and his wizards of jazz was so instant and so enthusiastic that Hickman's Orchestra is now known as one of the country's best dispensers of syncopated melody. There is nothing just like their records. The jazz is there, and there is music, too. They are delightful to listen to, and there is a sort of refined riotousness in them that gets under your skin and runs clear down into your feet. When Hickman and his boys take hold of a tune, it's all over with you—you simply *have* to dance!

We list some of their exclusive Columbia records below; others will be found throughout our dance list.

June. Fox Trot. Intro. "Look What You've Done With Your Dog-gone Dangerous Eyes." Art Hickman's Orchestra. **Honolulu Eyes.** Medley Waltz. Intro. "The Rose I Call Sweetheart." Prince's Dance Orchestra.	A 3343 10-in. 75c	**Japanese Sandman.** Fox Trot. Intro. "Avalon." **Avalon.** Fox Trot. Intro. "Japanese Sandman." Both by Art Hickman's Orchestra.	A 3322 10-in. 75c

reatly Reduced Prices for xford Indestructible Cylinder Records

Four-Minute Cylinder Records **12 for $2.28** (Only 19c Each)

Two-Minute Cylinder Records **12 for $1.92** (Only 16c Each)

In addition to the big selection of cylinder records in our regular stock, we have purchased the manufacturer's entire surplus. Space does not permit us to list these records by titles, but by putting them up in special assortments of twelve records, we are able to offer them at these amazingly low prices. Each outfit contains a well chosen assortment of titles from our big stock of vocal, instrumental, dance, humorous, sacred, Hawaiian and other selections.

All New, Perfect Records—Worth More Than Twice Our Price

These records are all new and in perfect condition. They are the same high grade records that we have been selling at 42c each for the Four-Minute Records and 36c each for the Two-Minute Records.

Order as Many Collections as You Like—No Titles Will Be Duplicated in Your Order

Four-Minute Cylinder Records

e Four-Minute Oxford Indestructible Cylinder Records fit any Columbia r Graphophone, any Edison Cylinder Phonograph or any cylinder talking that Sears, Roebuck and Co. have ever sold, provided the machine is equip- a special Four-Minute Attachment. Most of the Columbia and Edison machines sold in recent years are equipped with the Four-Minute Attach- If your machine is not provided with this attachment, you cannot use Four- Records.

5088—Special Collection, Twelve Oxford FOUR-MIN- Cylinder Records. Shipping weight, 2¾ pounds. Price... **$2.28**

Two-Minute Cylinder Records

Two-Minute Oxford Indestructible Cylinder Records are exactly the same size as the Four-Minute Oxford Records but they play only half as long, from two to two and one-half minutes. They fit any Columbia Cylinder Graphophone, any Edison Cylinder Phonograph made previous to 1914, or any cylinder talking machine that Sears, Roebuck and Co. have ever sold. No special attachment is necessary. **They do not fit the "Busy Bee" machine.**

20H5089—Special Collection, Twelve Oxford TWO-MINUTE Cylinder Records. Shipping weight, 2¾ pounds. Price..... **$1.92**

Records cannot be played on any Silvertone Phonograph, nor on any other phonograph that uses the flat or disc records.

PHONOGRAPH NEEDLES

Silvertone Standard Steel Needles

Sold Only by Sears, Roebuck and Co.

Perfect Points—Uniform Lengths—Non-Rust Finish

Good Needles Mean Better Music From Your Phonograph and Longer Life for Your Records.

For use with all Columbia, Silvertone, Victor, Okeh, Emerson, Aeolian, Brunswick or any other lateral cut disc records.

Silvertone Standard Steel Needles are extra fine quality. The points of these needles are all smooth and perfect and of just the right shape to fit the groove, insuring the most perfect reproduction and reducing wear on the record to the minimum. The needles run uniform—all just alike in point, in diameter and in length, and they are made with a special bright non-rust finish so they stay good. **They are quality goods.**

Poor needles cannot possibly give you the best there is in your records. Don't wear out your expensive records and put up with poor music because of poor needles. Make your phonograph give you the best it has in it by using the very best needles the market affords. There is no economy in buying poor needles.

20H5386—Soft Tone. Price, per 500 needles.....2
20H5387—Medium Tone. Price, per 500 needles.....2

SPECIAL COLLECTION OF SILVERTONE NEEDLES.
5 Grades—1,000 Needles for 65c.

A collection of 1,000 Silvertone Needles of five different grades. Each k packed in separate containers and the containers packed in neat box. Contains:
200 Soft Tone Needles, noted for their soft, sweet, natural tone and absence scratch; particularly suitable for use in the home.
200 Medium Tone Needles, distinguished for their full, rich, mellow tone medium volume.
200 Opera Tone Needles, similar to Medium Tone, but somewhat loud especially suited to operatic selections.
200 Loud Tone Needles, shorter and thicker than the Opera Needles, and th fore louder.
200 Extra Loud Tone Needles, short and thick, especially suitable for open concerts, large rooms and for dance music.
20H5391—Complete collection, five grades, Silvertone Needles. Ship weight, 6 ounces. Price

SILVERTONE CACTUS NEEDLES

Sold Only by Sears, Roebuck and Co.

Soft, Melodious Natural Tone. **Smooth as Velvet.** **No Scratching Noise. Easy on the Records.**

40 Needles With Resharpening Outfit, 95 Cents.

Good for Thousands of Records.

Exact Size.

Silvertone Cactus Needles are made from a natural product, the thorns of a South American cactus plant. These thorns are from 4 to 5 inches in length, of fairly uniform diameter and of a most unusual and exceedingly close grained texture, which makes them peculiarly adapted to use as phonograph needles. The thorns are first subjected to a special tempering or hardening process, then cut to uniform lengths of about ¼ inch and carefully pointed.

Each Silvertone Cactus Needle will play, on the average, about ten records before it requires resharpening, and each needle will stand resharpening at least a dozen times. So we may figure that each needle will play more than one hundred records, and the complete package of forty needles should play more than four thousand records. With each package we furnish a resharpening outfit by means of which the needles may be quickly and easily sharpened. The outfit consists of an emery disc, which fits on the turntable, and a special needle holder. The needle is placed in the holder and held against the emery disc as the turntable revolves. Thus the entire package of forty needles may be resharpened with just a few minutes' work.

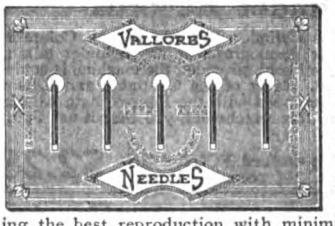
The tone of the Silvertone Cactus Needle is particularly pleasing and agreeable, not quite so loud as the steel needle, yet amply loud enough for home use. There is almost a total lack of the familiar scratching noise so noticeable with other needles. Nothing is heard but the music. **The entire freedom** from harsh, metallic sounds makes them especially desirable for vocal selections and violin solos, instrumental trios or Hawaiian music.

There is a naturalness of tone with these needles that, in our opinion, is unequaled by any other type of needle.

For use with all Silvertone, Columbia, Victor, Okeh, Emerson, Aeolian, Brunswick or any other lateral cut disc records.

20H5315—Silvertone Cactus Spine Needles. Shipping weight, 6 ounces.
Price, per package, forty needles with resharpening outfit.....95c

VALLORBS SEMI-PERMANENT NEEDL



Play Several Records Without Changing Needles!

Loud Tone Needle. Exact size.

Five Needles for 18c.

Good for Hundreds of Records.

Three Kinds: Loud Tone—Medium Tone—Soft Tone.

Vallorbs Semi-Permanent Need possess all the advantages of the dinary steel needle with the big a tional advantages of convenience economy. They give musical result good as, if not better than, the needles and, with proper use, are e on the records. The needle point not tapered, but has parallel sides that the point does not increase in ameter with use. Thus, even a playing dozens of records, the n point still fits the record groove, in ing the best reproduction with minimum wear on the record. With pr care in using, a card of Vallorbs Semi-Permanent Needles should play h dreds of records. These needles will play more records than the same v in steel needles.

Vallorbs Semi-Permanent Needles can be used with Silvertone, Colu Victor, Okeh, Emerson, Aeolian, Brunswick or any other lateral cut disc re

Come in Loud, Medium and Soft Tone. Try a Card of Each.

20H5382—Soft Tone. Per card of five needles.....
20H5383—Medium Tone. Per card of five needles.....
20H5384—Loud Tone. Per card of five needles.....
Shipping weight, per card, 1 ounce.

The Famous Tusko Needle.

Exact Size.

For use with all Silvertone, Columbia, Victor, Okeh, Emerson, Aeolian, Brunswick or any other lateral cut disc records.

Each of these wonderfully fine phonograph needles is made from a thorn of the cactus plant, which has been especially treated and shaped by hand. They are very hard and sharpened to a needle point. They are very easy on records, wearing them much less than steel needles do. The point of a Tusko needle wears away in use, just the same as a steel needle, but a few strokes on the fine emery paper accompanying the package will restore a perfect playing point. Thus these needles may be used over and over again indefinitely. They will last for years. Their purchase is a distinct economy. They never become noisy or scratchy. They are ideal for home use when soft tones are desired rather than great volume, although, when cut very short, they will produce almost as great volume as a steel needle. They are put up in cards of 1 dozen. Shipping weight, 2 ounces.

20H5330—Price, per card.....75c

Fibre Needles Save Your Records.

Exact Size.

For use with all Silvertone, Columbia, Victor, Okeh, Emerson, Aeolian, Brunswick or any other lateral cut disc records.

The use of B. & H. Fibre Needles will add greatly to the enjoyment to be derived from a phonograph. The tone is soft and sweet, just the proper volume for the home.

The reproduction is remarkably free from scratch, and records played only with fibre needles will last indefinitely. The very material from which they are made precludes all possibility of injury to the record. The entire substance of the needle is impregnated with an oily material which acts as a perpetual lubricant, and the needle thus polishes and smoothes the grooves of the record each time it is played.

These needles may be used repeatedly. Often as many as a dozen records may be played before the reproduction becomes unsatisfactory, and then the needle may be repointed by means of the cutter listed at right.

B. & H. Fibre Needles may be used with any Silvertone, Victor, Columbia, Oxford or other machines of this type, provided the reproducer is made with a triangular needle hole. Look at your needle holder before ordering and make sure that it is provided with a triangular hole. Shipping weight, 2 ounces.

20H5365—Package of 100 needles.....35c

Diamond Pointed Needle for Edison Records.

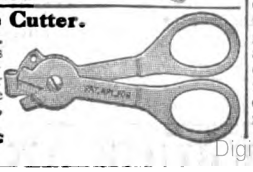
Exactly the same as 20H5334, but with genuine diamond point instead of sapphire. The advantage of a diamond point over a sapphire point lies in the fact that it wears longer. With ordinary care in using, the diamond pointed needle should last indefinitely. Shipping weight, 1 ounce.

20H5335—Price, each.....$3.40

Little Wonder Record Album.

Contains ten numbered pockets, each pocket having a hole in the center so the title of the record may be read without removing it. Each pocket holds two 5½-inch records, back to back, making the total capacity of the album twenty records. A blank index is provided on the inside front cover, so selections may be indexed and thus quickly found. Shipping weight, 12 ounces.

20H5134—Price..17c



Disc Record Case.

Covered with black imitation leather. Provided with numbered separators and numbered blank inside of cover for list of selections, so any desired record may be instantly found. Holds fifty 10-inch records. Size, 11 inches wide, 9¼ inches deep, 11¼ inches high. Shipping weight, 8½ pounds.

20H5205—Price..$1.98

Fibre Needle Cutter.

For repointing B. & H. Fibre Needles. Saves its cost many times by lengthening the life of your needles. A very durable cutter. Shipping weight, 8 ounces.

20H5367—Price..69c

Sapphire Pointed Needle for Edison Records.

Exact size.

This Sapphire Pointed Needle is especially for playing Edison rec on machines designed primarily play records of the Columbia and Victor (lateral cut records), but on which the sound can be turned to position for playing Edison ords. The point is made of fine quality extra Ceylon sapphire, the best and hardest sapphire can obtain. It is accurately ground to a smooth, slightly rounded point, exactly fitting grooves of the Edison record and wears for y Shipping weight, 1 ounce.

20H5334—Price, each.....

This needle is made especially playing Pathe records on machines signed primarily to play records o Columbia and Victor type (lateral cut records) ha which the sound box can be turned to position for ing Pathe records. It is not suitable for any other of record. The point is made of extra hard C sapphire, the best and hardest sapphire we can ob carefully and accurately ground to a ball shape t the grooves of the Pathe record. Shipping weight,

20H5336—Price, each.....

Haile's Modulator.

Exact Size.

Haile's Modulator is an attachment for disc phonographs by means of which soft tones are reproduced with any ordinary standard or loud tone needle. The of this modulator also adds greatly to the lif the record, as the needle is supported between t tic surfaces which permit it to "give" slightly every curve in the record groove, thus lessen the shock to the delicate walls of the groove greatly decreasing wear. Haile's Modulator may attached to any disc talking machine and is pu or taken off just as easily as a needle is inserted removed. By slightly turning the screw in the of the Modulator it may be regulated to give the range of tones. Shipping weight,

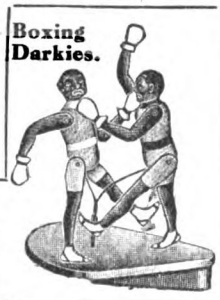
Phonograph Supplies and Accessories

You'll Have a Lot of Fun With These Dancing Figures

Here are some comedy artists worth watching—Ragtime Rastus and the Boxing Darkies—some of the jolliest little fun makers you ever saw. Fun for grown folks as well as for the children. Slip on a lively record, set one of them in place and you'll laugh whether you want to or not. They're such ridiculous little chaps. They make your funny records ten times funnier.

These dancing figures fit any SILVERTONE, Victor, Columbia or any other talking machine, **provided** the turntable shaft, which comes up through the hole in the center of the record, is **¼ inch diameter and extends at least ¼ inch above the record** when in place for playing.

Ragtime Rastus.



One of the funniest dancing figures ever made. Rastus is the original ragtime coon, doing buck and wing and double shuffles in perfect time to the music. He has a lot of steps all his own which always get him a laugh and a "hand." Height of figure, 5½ inches. Shipping weight, 14 ounces.

20H5397—Price..... **$1.25**

Combination Rastus and Boxing Darkies.

Both sets at little more than the price of one. They use the same dancing platform. One figure can be quickly changed for the other at will, without removing the platform. Shipping weight, 1 pound.

20H5400—Price..... **$1.55**

Boxing Darkies.

The little fellows thump each other merrily and gaily as the music plays. Uppercut, overhead flurry, fancy footwork; all are very funny. There is a dull minute after the record starts. Height of figures, 4 inches. Shipping weight, 14 ounces.

20H5398..... **$1.35**

Reproducers and Parts.

20H5260—SILVERTONE Reproducer, nickel plated, latest improved type, with special mica diaphragm, complete, ready to use. Fits any SILVERTONE Phonograph or Victor talking machine. Shipping weight, 1 pound. Price..... $3.50

20H5261—SILVERTONE Reproducer, same as 20H5260, but gold plated. Shipping weight, 1 pound. Price..... $4.50

20H5227—Diaphragm, mica, fits SILVERTONE reproducers taking diaphragm 2⅛ in diameter. See also 20H5229. Shipping weight, 1 ounce. Price..... 40c

20H5229—Diaphragm, mica. For SILVERTONE reproducers taking diaphragm 2⅛ inches in diameter and Victrola No. 2 reproducer. Shipping weight, 1 ounce. 35c

20H5268—Rubber Hose Diaphragm Gasket for all SILVERTONE and Home Reproducers, used with SILVERTONE Phonographs. Shipping weight, 1 ounce. Per set of two gaskets..... 10c

Mainsprings.

Marine End. Loop End. Rectangular End.

Mainsprings connect with the spring barrels in different ways. Most have Marine ends; some have "Rectangular" ends; some have "Loop" ends; some have two different type ends on the same spring. The illustrations show these various ends. In ordering read closely the descriptions and then consult these drawings. Use Lubricant when you order the spring. See Silvertone Mainspring Lubricant below.

	Length, Feet	Width, Inches	Thickness, In.	Ends	Shipping Weight	Price
20H5284	11	45/64	.022	Both ends Marine	10 oz.	56c
20H5286	9	25/32	.026	Both ends Marine	12 oz.	42c
20H5287	12	1	.025	Both ends Marine	1⅜ lbs.	62c

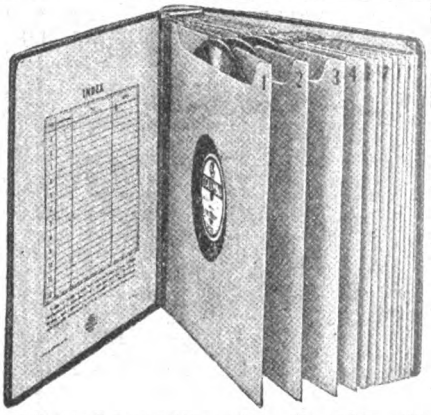
20H5297	12	1	.017	Both ends Marine	1 lb.	50c
20H5299	13	1	.027	These three springs have rectangular hole, outer end;	2 lbs.	70c
20H5301	16	1	.027		2½ lbs.	88c
20H5302	10	1	.027	Marine, inner end	1¼ lbs.	58c
20H5304	13	1	.025	Both ends Marine	2 lbs.	67c

Lubricate a New Mainspring.

When you have occasion to order a mainspring to replace a broken one, be sure to order with it a can of lubricant that you may lubricate it thoroughly and properly before placing it in the spring barrel. Ordinary machine oil should not be used for this purpose. Something more substantial and lasting is needed. For this purpose Silvertone Mainspring Lubricant has been specially prepared. If properly applied when the spring is placed in the barrel the lubricant will work between the coils, giving a free, smooth running motor and preventing the "slipping" or "jumping" or "knocking" of the spring. One lubrication will last a long time.

Silvertone Mainspring Lubricant.



Specially prepared graphite paste for mainspring lubrication. One can will lubricate any one or two-spring motor. For a three-spring motor two cans are needed. See note about lubricating a new mainspring. Shipping weight, 1 pound.

20H5310—Price..... **20c**

Silvertone Record Albums Protect Your Records

For 10-Inch Records, 67c and 79c **For 12-Inch Records, 76c and 94c**

These albums are absolutely high grade in material and workmanship. Each album contains twelve numbered pockets, made of fine grade tough fibered paper. Each pocket has hole in center so that title of record can be read without removing it. Each inside cover has blank index, so that selections may be indexed and thus quickly found. Each record thus has its own place in the album, where it is protected from dust and injury.

Silvertone Albums are strongly made. 20H5210 and 20H5214 have a firm binder board back for holding the pockets; 20H5212 and 20H5216 are fitted with wood reinforced back with special loose leaf arrangement, so that pockets may be removed or inserted at will. Albums 20H5210 and 20H5214 are not loose leaf and pockets in these albums are not removable.

Both styles are bound in dark red cloth. Sizes: 10-inch album, 10x11½ inches; 12-inch, 12½x13¾ inches. Provided with leather covered ring in back for withdrawing from cabinet. Shipping weights: 10-inch album, 3½ lbs.; 12-inch, 4½ lbs.

20H5210—10-Inch Album with binder board back..... **67c**
20H5212—10-Inch Album with wood reinforced back..... **79c**
20H5214—12-Inch Album with binder board back..... **76c**
20H5216—12-Inch Album with wood reinforced back..... **94c**

"Everlasting" Dustless Record Cleaner.

A pad of carefully selected sheepskin with fleece. Removes dust from record grooves, thus enabling you to get the best tone quality from your records. Can be used with all makes of records. Pad can be cleaned and used indefinitely. Shipping weight, 1 ounce.

20H5377—Price... **34c**

Lightning Furniture Polish.

One of the highest grade furniture polishes on the market. Cleans and polishes, imparting a beautiful luster to old, dingy furniture. Excellent for keeping new furniture in good condition, especially pianos, phonographs, table tops, etc., where special care is necessary to preserve the beauty of the finish. Positively will not injure the finest finish.

Price	19c	29c	47c

Governor Springs.

Governor Spring (With Weight).

In replacing a broken governor spring it is necessary that the new spring be exactly like the old one. It must not only be of the same length and thickness, but the weight or ball attached must be of the same weight as the other. If this is not the case the motor will not run quietly and true. When only one or two springs of the set are replaced, there may be a difference between the new and the old. Therefore we list governor springs only in sets of three. 20H5276, 20H5277, 20H5281 and 20H5283 have the weights attached. The others are springs only. The weights must be unscrewed from the old springs and attached to the new.

20H5275—Governor Springs, 2 inches long, ⅛ inch wide, flat. Shipping weight, 1 ounce.
Price, set of three..... **15c**

Price, set of three..... **42c**

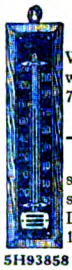
Motor Bearing Oil.

This is a light bodied mineral oil entirely free from animal or vegetable oils. It is designed for the lubrication of parts where the pressure is comparatively light and the speed relatively high, thus making it especially adapted to the close fitted bearings of phonograph motors.

The ends of all spindles and shafts, the sleeve which slides on the governor shaft and the felt friction disc on the governor should all be oiled occasionally with this Motor Bearing Oil—just a drop or two on each bearing is enough, and it may be applied conveniently with a match or toothpick. Shipping weight, 6 ounces.

20H5311—Price..... **15c**

Gear Lubricant.



This is a semi-viscous lubricant, consisting of a heavy mineral oil and a fine grade of petrolatum designed especially for the worm and spur gears of phonograph motors.

All gears, and especially the worm gear of the governor should be thoroughly coated with this lubricant every three or four months. Shipping wt., 12 ounces.

20H5312—Price..... **15c**

For the proper lubrication of a phonograph motor, three lubricants are necessary. 20H5311 for the bearings, 20H5312 for the worm gears and 20H5310 for the mainspring. Proper attention to the lubrication will insure a smooth running motor for many years.

House Thermometers.

Cabinet Thermometer. Red spirit. Wood back, birch finish. Black scale with white figures and lines. Length, 7 inches. Shipping weight, 13 ounces.

Distance Reading Thermometer. Spirit. Metal scale mounted on varnished wood back. Large dark figures on light scale, easily read at a distance of several feet. Scale range, 50 degrees below zero to 120 above. Length, 8 inches. Shipping weight, 12 ounces.

5H93838—Price.....**33c**

Metal Window Thermometer. Spirit tube. Black figures on scale of rough finished zinc which will resist the action of the weather. This thermometer is intended to be mounted on the window frame outside so that it can be read from within the house. Two metal brackets are furnished for attaching. Length, 8 inches. Shipping weight, 15 ounces.

5H93840—Price.....**85c**

Extra High Grade White Enameled Thermometer

Most thermometers when hung out of doors exposed to the weather rust and corrode. **The figures and lines soon become indistinct and difficult to read.** They are not made to resist the effects of heat, cold, moisture and dirt.

Take the regular Japanned Metal case thermometers with mercury tubes, which are standard goods in this line—every dealer sells them, nearly everybody buys them. They look good when they are new, and in the better grades they are accurate, **but they do not stand up.** After a little exposure to the weather, the figures and lines are so indistinct it is almost impossible to read them and it is always hard to see the small mercury column.

This fine enameled thermometer will stand up indefinitely. The large black figures on a pure white ground stand out plain and clear, and they stay that way because they are protected by an absolutely weather-proof transparent glaze. The surface is just like a piece of porcelain and the figures are under the glaze. It cannot rust. It cannot corrode or fade nor deteriorate in any way. The large column of red spirit is easy to see. It can be read quickly and easily, even in poor light. **It can hang on your front porch exposed to heat and cold, wind and rain, for years and still be just as good as new.**

This thermometer is accurate. We believe most people like to feel sure their thermometer is right. They don't like to find it reading 17 degrees below zero some frosty morning and realize that perhaps the actual temperature is 20 below or perhaps only 12 below, and many thermometers do come that far from the truth. **There is a satisfaction in having a thermometer you can believe.**

The back of this instrument is made of metal. It is 10¼ inches long and 2¼ inches wide.

5H93825—Extra High Grade Enameled Thermometer. As illustrated, with scale reading to 60 degrees below zero. Shipping weight, 2⅛ pounds.

Price.....**$2.65**

5H93826—Extra High Grade Enameled Thermometer. Same as illustrated, but with scale reading not lower than 40 degrees below zero. Shipping weight, 2⅛ pounds.

Price.....**$2.45**

Storm Glass Thermometers.

Storm Glass and Thermometer. Thoroughly reliable, yet sold at a very low price. Has white figures and lines on black scale, set in a wooden frame. Red spirit. Length, 8¼ inches. Shipping weight, 1 pound.

Developing, rinting and Enlarging

How to Send Us Films or Negatives

ilms sent to be developed should have your name and address written on the n be packed in a pasteboard box, and the box securely wrapped with paper with string. Do not send rolls of film in an envelope, as the sharp edges ool are almost sure to cut the envelope open in the mail.

negatives sent for prints or enlargements should be packed **flat** between two stiff pasteboard, wrapped with paper and tied with string.

negatives sent for prints or enlargements should be packed face to face in the box in which they came. The box of plates should be completely surrounded d packing material, such as excelsior, and enclosed in a larger box to insure ment.

of film or film negatives may be safely and economically sent by parcel post. se that glass negatives be sent by express, although small sizes can be sent ly by parcel post, if they are carefully packed.

n your letter how many films or negatives you are sending, with full instruc- o the work you wish us to do. On the outside of the package and also on the which contains your instructions write "From," followed by your name ress.

the package as follows: SEARS, ROEBUCK AND CO., Photo Finishing Department.

tter and money apart from package. Be sure to put name and address on the pack- rite them also in pencil on the black or red paper of each roll of film.

How to Figure the Price

ecessary that money to cover l cost of doing the work be he time the negatives or films . Sending us work without a e means only delay. We must your work aside until we have r and received a remittance.

your letter of instructions m your package.

ith your letter of instructions sufficient the entire cost of developing the films ntire cost of printing from every ring that all will be good. If you send es include, in addition, a sufficient y the postage. It sometimes happens the negatives are not good enough to print and in such cases we make prints only from the good negatives and return whatever balance is due. For example: Suppose you send us two rolls of ten exposure 3¼x5½ film and three rolls of six-exposure film of the same size with instructions to develop the film and make one unmounted Velvet print from each good negative. The total amount you should send with your order would be as follows:

5 rolls developed	$0.45
38 unmounted Velvet prints, 3¼x5½, at 5 cents each	1.90
Total	$2.35

If we find that part of the negatives are not good enough to print, we will send you prints from the good negatives only and return the balance of your money.

Price for Developing Roll Films.

We pay return postage on all film negatives.

Price, per roll, regardless of size or number of exposures. **9c**

NOTE—Prices quoted for developing include no prints from the negatives. If prints are desired they must be ordered extra and money allowed for them in accordance with prices for printing shown in list below.

Price for Developing Film Packs.

Price, per pack, regardless of size..... **25c**
See note above.

Prices for Prints and Post Cards.

We pay postage or express charges on all prints.

We print from original negatives only. Do not send us prints of any kind for this purpose.

We make all prints on developing (gaslight) paper and finish them in black and white, either glossy or velvet surface. Velvet prints have a very fine grained matte surface, rich in detail and pleasing in appearance. Glossy prints have a brilliant, highly polished surface. Unmounted prints are made with accurately trimmed white borders. Mounted prints are put on cards with handsomely embossed borders and mounted with dry mounting tissue so they lie perfectly flat.

Size	Velvet Prints		Glossy Prints

Prices for Enlargements—We pay postage or express charges on all enlargements.

We make enlargements from original negatives only. Do not send us prints of any kind for this purpose.

spend a great deal of money in a great many ways making your home more nd more beautiful. But there are few things which give so great artistic little money as well made enlarged prints from photographic negatives. em have almost as high artistic merit as etchings—at a small fraction of

ives are not sharp enough to make good enlargements of the size ordered, them as large as the quality of the negative permits, charging only for the The average negative, provided it is reasonably sharp, gives good results rgement of four times; that is, for example, an enlargement 16x20 from a 4x5 negative. Most negatives will stand even greater enlargement than four times if the pictures are to be hung on a wall where they will be viewed from a short distance.

Black and white enlargements are very popular and cost considerably less than the sepia.

Sepia enlargements have a warm brown or chocolate tone, very pleasing for a great many subjects. Good sepia enlargements, however, can only be made from good strong negatives, and when sepias are ordered from negatives which we find will not give good sepias, we reserve the privilege of sending black and white enlargements instead, charging only the black and white price.

enlargements on gaslight papers only, because these papers yield snappier prints, with greater brilliancy and better detail than can be secured with per. Unmounted enlargements are made with accurately trimmed white borders. Others are dry mounted on good grade and suitable mounts, with gins. Both are shipped flat.

	Black and White		Sepia		Size of Enlargement	Black and White		Sepia	
	Unmounted, Each	Mounted, Each	Unmounted, Each	Mounted, Each		Unmounted, Each	Mounted, Each	Unmounted, Each	Mounted, Each
	27c	35c	36c	44c	10x12	$0.71	$0.95	$0.84	$1.05
	39c	49c	49c	58c	11x14	.88	1.17	1.04	1.33
	44c	55c	54c	65c	10x17	1.27	1.68	1.48	1.93
	48c	61c	58c	71c	14x17	1.33	1.79	1.54	1.99
	53c	67c	63c	77c	12x20	1.49	1.99	1.79	2.29
	57c	79c	71c	83c	16x20	1.58	2.10	1.88	2.39

12, 8x14, 10x17 and 12x20 are good sizes to make from 3¼x5½ negatives.

Kewpie Enlarging Kameras

With this simple piece of apparatus, it is no trouble at all to make first class enlargements from small negatives. The process is simplicity itself and no more trouble than making a contact print from the negative. The negative is placed in the small end of the box and Argo Enlarging Paper in the other. The exposure is made by pointing the instrument toward the sky for a short time, depending upon the density of the negative. The paper is developed in the same way as a contact print. Either plates or films may be used, and they may be of the size listed or smaller.

20H543—Kewpie Enlarging Kamera making 5x7 enlargements from 2¼x3¼ negatives. Requires 5x7 Argo Enlarging Paper. Shipping weight, 3 pounds. Price..... **$2.75**

20H544—Kewpie Enlarging Kamera, making 6½x8½ enlargements from 3¼x4¼ negatives and 5x8½ enlargements from 2½x4¼ negatives. Requires 6½x8½ Argo Enlarging Paper. Shipping weight, 4 pounds. Price..... **$3.65**

—Kewpie Enlarging Kamera, making 8x10 enlargements from 4x5 negax10 enlargements from 3¼x5½ negatives. Cuts off a little from negatives ng, but this is in most cases an advantage. Requires 8x10 Argo EnlargShipping weight, 5 pounds. Price..... **$4.10**

Argo Enlarging Paper

This is just the paper to use with the Kewpie Enlarging Kameras. It is a chloride paper of the same general class as Darko and other developing papers, but much faster. On account of its speed it must be handled in a deep orange or ruby light to prevent fogging.

Prints made on this paper look entirely different from the ordinary bromide enlargements. They possess a snap and brilliancy which is usually found only in contact prints.

Argo Enlarging Paper is made in one degree of contrast, suitable for normal negatives. We furnish it in Semi-Matte surface, single and double weight, and in a Rough Matte surface, buff, for sepia prints.

REAL CAMERAS—Reliable, Simple in Construction and Surprisingly Low in Price. That's what those who have bought and used them think of KEWPIE KAMERAS.

That a camera be reliable is perhaps the most important consideration—and you can always depend on a KEWPIE to get the picture. That is why it has been such a favorite with amateurs and the surprisingly large number of owners of high priced cameras who have also bought them.

It would be hard to find a camera more simple in construction. Everything essential to the making of good pictures is built right into the KEWPIE, and everything which is not absolutely essential has been left out. The shutter is automatic and always ready for use. It requires no "setting." KEWPIES need not be focused. They are "fixed focus" cameras. No adjustments whatever need be made. Just push the lever and the picture is taken. Each lens is carefully fitted and adjusted to the camera in which it will be used. That accounts for the sharpness of detail in KEWPIE pictures.

All KEWPIE KAMERAS are identical in general design and quality. They differ in size only.

Fixed Foc

KEWPIE KAMERAS with fine single ac lenses, designed espec them. They are provided v diaphragm openings, or s means of which the depth may be regulated or exp adapted to varying degrees They are equipped with a rotary shutters, making b and instantaneous exposur simple in construction, po action and easy to operate.

KEWPIE KAMERAS rugged construction, bein throughout of kiln dried prevent warping. They are with good grade keratol, wh and wears like leather. T trimmings are finished in nic or fine black enamel.

KEWPIE KAMERAS the No. 2, are equipped v brilliant finders, one for h pictures and one for ver tures. The No. 2 also finders, but they are of th glass and mirror style.

KEWPIE KAMERA and No. 3A are each provi two tripod sockets, one zontal pictures and one fo pictures. The No. 2, No No. 2C Kewpies have n sockets, but time exposu be made by resting the ca any steady support.

Conley Junior Film Cameras

Sold Only by Sears, Roebuck and Co.

Four Sizes—$9.85 to $13.75

CONLEY Junior Roll Film Cameras—there are four of them, made in the sizes that are most popular with amateur photographers—are daylight loading, moderately priced, beautiful in finish and design and thoroughly practical and efficient. They are marvels of compactness, the smaller sizes slipping easily into one's coat pocket. Yet they are all so complete in their equipment as to meet every essential requirement.

No. 3 Conley Junior Camera.

An exclusive feature of these cameras is our depth of field focus scale, which shows at a glance both the maximum and minimum distances at which objects are in focus. The ordinary focus scale shows definitely only one distance at which objects are in focus, and the user must guess as to whether objects at greater or less distances will also be sharp, often resulting in pictures which are wholly or in part out of focus, or "blurred." This difficulty is overcome when you use a Conley Junior.

Modern in Every Detail. Conley Junior Cameras are made chiefly from aluminum, the sides being reinforced with ebony finish hardwood. Covering is genuine seal grain leather. All wearing parts of hard brass or steel. Bellows of "Insted" Leather, a wonderfully durable substitute for genuine leather, lined with lightproof gossamer cloth. Provided with brilliant reversible view finders, two tripod sockets, rigid all metal lens standard and folding leg.

Extra Rapid Rectilinear Lenses. Conley Junior Cameras are all equipped with Extra Rapid Rectilinear Lenses, designed expressly for these cameras. They work at F:8 (U. S. 4), which makes them just four times as fast as single achromatic lenses, and twice the speed of the F:11 rapid rectilinear lenses, usually furnished with moderate priced cameras. Each has the Victo Shutter, making time and bulb exposures of any desired length and automatically controlled exposures of 1/10, 1/25, 1/50 and 1/100 of a second; it is provided with wire push release and may also be operated by finger release and is equipped with iris diaphragm.

os. 2A and 3A Conley Junior Cameras are identical in ith the No. 3 Conley Junior illustrated. The manner of ed the lens standard and folding leg of the No. 2 are In these details the No. 2 Junior is like the No. 2 Fixed mera illustrated below.

Film for Conley Junior and Conley Fixed Focus Cameras may be bought anywhere. They use any kind—Vulcan, Eastman, Rexo, Ansco, Ensign and others. Both Vulcan and Eastman films are listed on page 563.

PRICES

All Conley Junior Cameras Furnished With F:8 Rapid Rectilinear Lens in Victo Shutter.

Conley Fixed Focus Folding Cameras

Sold Only by Sears, Roebuck and Co.

ocusing—No Guessing at Distances—Snapshots Always Sharp

URE TAKING with the Conley Fixed Focus Folding Cameras is simity itself. Snapshots made with these wonderful little cameras are always rp. No focusing is required, no guessing at distances—whether the sub- feet or a hundred feet away, it makes no difference; your entire picture harp. All there is to taking snapshots is to open the camera, pull out the il it automatically stops in focus, point the camera at the subject and snap e. These cameras possess all the desirable features of box cameras with dditional advantage of compactness, the No. 2 size readily slipping into ocket.

ed Focus Folding Cameras are made aluminum, the sides reinforced with hardwood, and covered with imitation eather. Wearing parts are of hard Leather, a wonderful r leather. Provided with brilliant ew finder, two tripod sockets, rigid ens standard and folding leg. The is illustrated. The No. 2A is idenign with the exception of the lens standard, the folding leg and the manner of closing the camera. In these details the No. 2A Fixed Focus Camera is like the No. 3 Conley Junior Camera illustrated above.

Conley Fixed Focus Folding Cameras are equipped with fine single achromatic lenses, designed especially for them, and Ultex shutters, making time and bulb exposures of any desired length and automatically controlled exposures of 1/25, 1/50 and 1/100 second. They are provided with iris diaphragms and with wire push release and may also be operated by finger release.

No. 2 Conley Fixed Focus Folding Camera.

Digitized by Google

No. 3 Conley De Luxe.

Conley De Luxe Roll Film Cameras

Sold Only by Sears, Roebuck and Co.

CONLEY De Luxe Roll Film Cameras are beautifully made in every detail, handsomely finished in black enamel, with nickel plated trimmings. They are graceful in appearance, compact and handy, and wonderfully simple in operation. There are no complicated parts to confuse the owner. And simplicity in operation always means a greater percentage of good pictures, especially for the amateur.

The focusing device of these cameras is unusually convenient in operation. When the front is drawn out it automatically stops and locks in focus for a distant view. If nearer objects are to be photographed, a slight pressure of the release spring permits the front to be further extended and again automatically locked for any desired distance.

The No. 2A camera is furnished with extra long bellows extension, thus being especially suitable for making portraits of satisfactory size without employing any auxiliary or supplementary lens, a feature not to be found in many film cameras. The special focus scale on the No. 2A camera has graduations marked for 2½, 3, 4, 5, 6, 8, 10, 15, 25 and 100 feet.

The film holding device of the Conley De Luxe makes these cameras easy to load or unload, and the absence of any catches, pins or other parts on the outside of these cameras prevents mischief by meddlers. Ingeniously designed pressure springs in the film chambers and in the camera back keep the film under a slight tension, perfectly flat and exactly in the focal plane. This insures perfect focus and sharp detail.

The unusually rigid and accurate construction of the lens standard insures perfect alignment of the lens and film. This is very essential in order to utilize to the fullest extent special advantages of fast anastigmat lenses.

The rapid rectilinear lenses furnished with these cameras are the equal of any rapid rectilinear lens sold. While not so fast nor of such great covering power as the anastigmat lenses, they will be found very satisfactory for landscapes and other views where an extra fast lens is not required.

The Luxar and Citar anastigmat lenses furnished with these cameras are not surpassed in optical quality by any anastigmat lens on the market. The increased speed and greater covering power of anastigmat lenses has long been appreciated by camera users. Our unusually low prices for Conley De Luxe Cameras with these fine lenses enable practically everyone to take advantage of their superiority.

The Acme shutter is a high grade shutter of great efficiency. Sixteen leaves form star shaped opening, admitting greatest volume of light in least possible time. Shutter must be set before each exposure. Makes time and bulb exposures of any desired length and automatically controlled exposures of 1/300, 1/200, 1/100, 1/50, 1/25, 1/10, ½ and 1 second. Victo shutter has star shaped opening and makes time and bulb exposures of any desired length and automatically controlled exposures of 1/10, 1/25, 1/50 and 1/100 second. Both shutters equipped with iris diaphragm and provided with wire release and finger release.

Details—Conley De Luxe Cameras

Combination aluminum and ebony finished wood body, covered with genuine leather. Very rigid U shape metal standard. Rising and falling front. Reversible brilliant finder. Fine black enamel finish throughout with nickel plated trimmings. Automatic focus stop at infinity. Very accurate focus scale, locking automatically at each graduation. Black "Insted" Leather (a wonderfully durable substitute for genuine leather) bellows with lightproof gossamer lining. Two tripod sockets. Improved film holding device, very easy to load or unload.

Ray Filters.

A Ray Filter absorbs the violet and ultra-violet rays of light and produces a picture in which the color values are correct. Landscapes photographed with the ray filter possess a brilliancy and contrast which it is impossible to obtain otherwise. In the photographing of clouds, flowers, paintings or any brightly colored subjects, the ray filter is practically indispensable. When used with orthochromatic plates these filters increase exposure three times.

20H1141—Suitable for use with small cameras having lenses ⅞ inch or less in diameter. Black enameled mounting. Shipping weight, 3 ounces. Price **42c**

20H1142—Adjustable for any ordinary lens with an outside diameter of 1 inch to 1¼ inches. Mounted in brass, with black enameled finish. Shipping wt., 3 ounces. Price **42c**

Kensington Film Negative Books.

A very convenient means for filing film negatives. Keeps them clean, flat and readily accessible. Each book contains 50 numbered envelopes, made of tough, translucent paper, and an index with corresponding numbers. Shipping weight, 4 ounces.

20H758—For negatives 2½x4¼ or smaller. Price, each.....**35c**
20H759—For negatives 4x5 or 3¼x5½. Price, each.....**45c**

Telescopic Metal Tripod.

This is a very light and compact three-section telescopic metal tripod, adapted to any 3¼x5½-inch or smaller camera. It is very convenient under all conditions, but especially desirable when traveling, owing to its exceedingly compact form and light weight. Very carefully made and finely finished throughout. Length, extended, 38¾ inches; closed, 15½ inches. Shipping wt., 1¼ pounds.

20H735—Price..**$1.75**

Light Sliding Tripod.

This is a Two-Section Sliding Tripod, suitable for 3¼ x 5½, 4x5 or smaller cameras. Made of ash, black finish. Metal parts nickel finish. Lgth., extended, 56 inches; closed, 30 in. Shipping wt., 2 pounds.

20H700
Price.**85c**

American Photography Exposure Tables.

A vest pocket book of tables giving the correct exposure at any hour of the day and any day of the year, with any brand of plates or any speed of lens. Simple and absolutely correct. Shipping weight, 1 oz.

20H775—Price **25c**

Auxiliary Lens Sets. $2.

Six Lenses in Case.

This set of Auxiliary Lenses consists of one copying lens, one portrait lens, one telephoto lens, one wide angle lens, one ray filter and one duplicator, put up in a handsome case. The lenses are adjustable to fit any ordinary folding camera with outside diameter of lens ¾ inch to 1¼ inches. Shipping wt., 15 oz.

20H1163—Per set, complete with case..$2.

Stop Guessing Exposure!

Use the MILNER LIGHT GAUGE!

One movement sets it. Nothing to look through. No factors or calculation. No sensitized paper or renewals. Has but one moving dial. Very compact, only 1¾ inches high over all. Gauge is simply held toward light as directed on it and density of light immediately shows in window on gauge. Dial is then revolved until light scale on it matches density of light in window, when scale instantly shows required exposure with any shutter speed. Shows both U. S. and F stop markings. In our opinion the most satisfactory indicator so far produced for quick and accurate timing of photographic exposures. Shipping weight, 23 ounces.

20H784—Price .....

Eastman and Vulcan Roll Film

When ordering film, look carefully for the name of your camera. If in doubt as to which style you require, measure the length of the empty spool in your camera. Spool lengths are stated for each style. As a further guide to the style you require, note the makers' number, as stated under the description of each kind. You will find this numbering both on the roll itself and on the carton in which it comes.

Vulcan and Eastman N. C. Film
Are Both Made by the Eastman Kodak Co.

Both brands are non-curling. Both are orthochromatic. Both are free from halation. Both are extremely rapid. We have made repeated tests of the two and can see no difference in the speed of the film or in the quality of the negatives.

Vulcan Film is spooled in black paper. Eastman N. C. Film is spooled in paper which is red on the outside and black on the inside.

Both Vulcan and Eastman N. C. Film may be used in autographic Kodaks and Brownies, but no record or title can be made on the film at the time of exposure.

FOR 1⅝x2½ PICTURES.

Length of spool, 1⅝ inches. Makers' numbers: Vulcan, 254; Eastman, 127. Fits the following cameras:

No. 1 Pocket Kodak	No. 0 Ansco Vest Pocket
No. 1 Pocket Rexo	
No. 1 Brownie	

20H2708—Vulcan. 8-exp. roll..21c
20H2709—Eastman. 8-exp. roll..22c
Shipping weight, 1⅛ ounces.

FOR 2¼x2¼ PICTURES.

Length of spool, 2⅝ inches. Makers' numbers: Vulcan, 234; Eastman, 117. Fits the following cameras:

No. 1 Brownie	No. 1 Buster Brown
No. 1 A Icarette	

20H2712—Vulcan. 6-exp. roll..17c
20H2713—Eastman. 6-exp. roll..18c
Shipping weight, 2 ounces.

FOR 2¼x3¼ PICTURES.

Length of spool, 2⅞ inches. Makers' numbers: Vulcan, 240; Eastman, 120. Fits the following cameras:

20H2787—Eastman. 10-exp. roll..81c
Shipping weights, 6-exposure roll, 4 ounces; 10-exposure roll, 4½ ounces.
*When used in these panoramic cameras, the "6-exposure" roll makes two and the "10-exposure" roll four 3½x12 exposures.

Eastman Autographic Film

This film is designed for use in Autographic Kodaks and Autographic Brownies. The film itself is just the same as the regular Eastman N. C. Film, but there is a difference in the way it is spooled. A thin red paper is used, and between it and the film proper is a strip of black displacing tissue which permits the recording of writing on the film (if an Autographic Camera is used) at the time the exposure is made. Bear in mind that the autographic feature can be made use of only when this film is used in an Autographic Camera. The record can be made on the film only when the two are used together—that is, Autographic Film in an Autographic Camera.

For 1⅝x2½ Pictures.

Fits No. 1 Vest Pocket Autographic Kodaks or Eastman's number A127.

20H2820—8-exp. roll.....23c
Shipping weight, 1½ ounces.

For 2¼x3¼ Pictures.

Fits No. 1 Autographic Kodaks or Folding Autographic Brownie. Eastman's number A130.

20H2823—6-exp. roll.....23c
Shipping weight, 2 ounces.

For 2½x4¼ Pictures.

Fits No. 1A Autographic Kodaks or No. 2A Folding Autographic Brownie. Eastman's number A116.

20H2826—6-exp. roll..27c
20H2827—12-exp. roll..54c
Shipping weights, 6-exposure roll, 2½ ounces; 12-exposure roll, 3 ounces.

For 2⅝x4⅛ Pictures.

Fits No. 1A Autographic Kodaks or No. 2A Folding Autographic Brownie. Eastman's number A116.

20H2830—6-exp. roll..41c
20H2831—10-exp. roll..68c
Shipping weights, 6-exposure roll, 3 ounces; 10-exposure roll, 3½ ounces.

For 3¼x4¼ Pictures.

Fits No. 3 Autographic Kodaks. Eastman's number A118.

20H2834—6-exp. roll..41c
20H2835—12-exp. roll..81c
Shipping weights, 6-exposure roll, 3½ ounces; 12-exposure roll, 4 ounces.

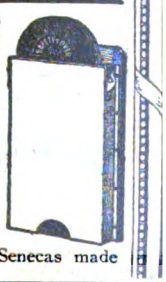
For 3¼x5½ Pictures.

Fits No. 3A Autographic Kodaks or No. 3A Folding Autographic Brownie. Eastman's number A122.

20H2838—6-exp. roll..50c
20H2839—10-exp. roll..81c
Shipping weights, 6-exposure roll, 4 ounces; 10-exposure roll, 4½ ounces.

Premo Film Packs. Use Films in Your Plate Camera

By the use of a film pack and film pack adapter you can instantly convert any plate camera, up to the 5x7 size, into a daylight loading film camera. Instead of two exposures with a plate holder, a film pack adapter occupying no more space gives you twelve exposures without reloading the camera. Each pack contains twelve films. Any number of the films may be exposed and removed without exposing the remainder.



Premo Film Packs also fit the Seneca Filmettes, Premo Juniors, Premoettes, Film Premos and other film pack cameras without an adapter.

Catalog No.	Size	Shipping Weight	Price, Each
20H1892	2¼x3¼	4 ounces	$0.45
20H1893	2½x4¼	5 ounces	.54
20H1894	3¼x4¼	6 ounces	.81
20H1895	4 x5	7 ounces	.99
20H1896	*3 x5¼	7 ounces	.90
20H1897	*3¼x5½	7 ounces	.99
20H1898	5 x7	12 ounces	1.71

*3x5¼ Film Pack fits all 3¼x5½ cameras except the Premo and Seneca models of 1913 and later. These take the full 3¼x5½ size.

Film Pack Adapters for Plate Cameras

The Film Pack Adapter is a device the same size and shape as a plate holder which enables one to use film with any ordinary glass plate camera. These adapters fit any style of Conley or Seroco cameras, also the Century, Premo, Seneca and Black Beauty cameras.

20H588

Size	Price	Shipping Weight
3¼x4¼	$1.25	5 ounces
4 x5	1.25	6 ounces
*3 x5¼	1.25	6 ounces
*3¼x5½	1.25	7 ounces
5 x7	2.05	10 ounces

*All 3¼x5½ cameras, except Premos and Senecas made since 1913, take the 3x5¼ adapter.

Improved Darko Papers and Post Cards

WE HAVE greatly improved Darko Developing Paper, something we have been trying to do for a long time. This IMPROVED DARKO is practically free from stain and fog, even with prolonged development. In addition, the prints are more brilliant and pleasing.

We have never seen a paper we liked any better than our IMPROVED DARKO. It is so good we are using it in our own Photo Finishing Department, where only a developing paper of the highest quality will work satisfactorily.

IMPROVED DARKO Papers and Post Cards are usually printed by artificial light and developed and fixed much as a negative is. There are three grades—**a grade for every negative.** They are known as Red Label, or Contrast Emulsion, for use with soft or flat negatives; Green Label, or Medium Emulsion, for use with average negatives, and Blue Label, or Soft Emulsion, for use with very hard or contrasty negatives.

Each grade of IMPROVED DARKO is furnished in three surfaces—Glossy, Velvet and Matte. The question of surface is entirely one of personal taste. We recommend the Velvet surface for most work.

The Glossy surface is very smooth and has a high polish. Prints on this paper should be squeegeed to bring out the full degree of glossiness. The Velvet surface is of a velvety texture, midway between the Glossy and the Matte surfaces, having a slight gloss. The Matte surface is slightly rough—a perfectly dead surface without gloss. The picture to a slight extent seems to sink into the paper.

All IMPROVED DARKO, except the India Tint Darko and Darko Post Cards, is furnished in regular weight stock. The India Tint Darko and Post Cards come in double weight.

Red Label Papers.

Contrast Emulsion for Soft Negatives.

Red Label Darko Papers are suited to soft or flat negatives. They will make good prints from negatives which are flat on account of overexposure and underdevelopment. They are suited to negatives in which there is a gradual and easy blending of lights and shadows, technically known as soft negatives. They will make extra strong and contrasty prints from normal or hard negatives.

Order by catalog number.

20H1601—Glossy surface.
20H1602—Velvet surface.
20H1604—Matte surface.
See price list at right.

Blue Label Papers.

Soft Emulsion for Contrasty Negatives.

Blue Label Darko Papers are suited to very hard or contrasty negatives. Underexposed plates which have been forced in development to bring out as much detail as possible are usually harsh and contrasty, and give the best results with this grade of paper. Cloud effects and landscape negatives made with ray filters usually require this grade, and it is especially suited to portraits.

Order by catalog number.

20H1623—Glossy surface.
20H1624—Velvet surface.
20H1626—Matte surface.
See price list at right above.

PRICE LIST FOR IMPROVED DARKO PAPERS.

(These prices do not cover Post Cards. See separate price list below for Post Cards.)

Order by catalog number and state size.

Shipping weights: Per dozen, 2 ounces to 10 ounces; per half gross, 6 ounces to 2⅛ pounds, according to size.

Price, any of above surfaces and emulsions, per **dozen, 17c;** per **half gross**.....**85c**

Green Label Papers.

Medium Emulsion for Normal Negatives.

Green Label Darko Papers are suited to negatives of medium average strength in which there is just the proper or normal degree of contrast between the lights and shadows. Negatives which have been correctly exposed and correctly developed usually yield the best prints when this grade is used.

Order by catalog number.

20H1612—Glossy surface.
20H1613—Velvet surface.
20H1615—Matte surface.
See price list at left.

India Tint Darko

India Tint Darko is coated on a special extra heavy velvet surface stock of soft India color, so that the lights in the picture are of a delicate sepia or cream color. The paper is handled just the same as the other grades of Darko, and the India tint of the paper in contrast with the rich blacks of the picture gives an effect that is unique and exceedingly artistic. Unusually pleasing effects are obtained by using the Darko Sepia Toner with this paper, as the delicate cream tint of the paper harmonizes beautifully with the warm sepia tones, imparting to the print the soft delicacy of an old etching. Furnished only in medium emulsion for normal negatives.

20H1617—India Tint Darko.
See price list at left above.

Photographic Plates

Hammer "Extra Fast" Orthochromatic Plates.

These plates are especially suitable for landscape views, portraits and all subjects in which color values are important, such as flowers and paintings. Landscapes made with them possess a brilliancy and contrast that cannot be obtained with ordinary plates. For full color correction, a ray filter should be used with these plates. See table at right below for net weights and shipping weights.

20H1764

Size	Price, per Dozen	Size	Price, per Dozen
3¼x4¼	58c	5 x 7	$1.30
4 x5	81c	6½x 8½	1.98
3¼x5½	81c	8 x10	2.88

Hammer "Extra Fast" Plates.

Probably the most popular of all the Hammer plates for general all around photography. Suitable for almost any purpose. See table at right for net weights and shipping weights.

20H1760

Stanley "Regular" Dry Plates

Stanley Dry Plates meet the requirements for general all around photography. They are extremely rapid, yielding crisp, clean, snappy negatives of excellent printing quality. We recommend them highly for landscapes, architectural subjects, general instantaneous work, portraits in the studio or in the home, groups and for general commercial work. See table at left for net weights and shipping weights.

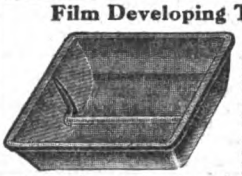
Conley Plate Holders

Fit all Seroco, Conley, Century, Premo, Black Beauty and Seneca Folding and View Cameras.

The Conley Plate Holders are made with Drake's Patent Lightproof Flexible Valve and Spring Bar Plate Locking Device.

The Drake Lightproof Flexible Valve is positive prevention against light struck plates, making it impossible for the holders to leak light, even if the slide is inserted cornerwise, as the valve automatically closes up around the edges of the slide.

The Spring Bar Plate Locking Device makes it possible to load or unload the Conley Holder in total darkness with ease and without danger of touching the surface of the plate.



The following holders fit all Conley or Seroco Folding Cameras, including the 5x7 and 8x10 Conley or Seroco View Cameras and Cameras of other makes as specified above.

All these holders are made with hand rubbed mahogany finish and furnished with pressed board slides.

Photographic Chemicals and Supplies

Red Seal Developing Powders for Plates or Films

We furnish, under the Red Seal brand, a line of developing powders for plates or films which is of exceptional quality. These powders are put up in tightly sealed tubes, six tubes to the package. Only the purest chemicals are used in compounding these powders, and we recommend them as very satisfactory in results, very simple and convenient to use, and economical.

Red Seal Pyro Developing Powders, 21 Cents.

For Developing Plates or Films.

Pyro is absolutely the best developer for plates or films. Each tube makes 18 ounces of solution for six-minute tray development, or 36 ounces for twenty-minute tank development at 65 degrees. Some workers object to pyro because of its tendency to stain the hands, but so far as results are concerned we believe pyro is the best developer that can be used. Shipping weight, 6 ounces.

20H1949—Price, per package of **6** tubes.....**21c**

Red Seal Hydro-Metol Developing Powders, 22 Cents.

Contrast Formula for Plates or Films.

Yields negatives of great brilliancy and a marked degree of contrast. Each tube makes 8 ounces of developer for tray development, the complete package of six tubes making 48 ounces. Shipping weight, 5 ounces.

20H1951—Price, per package of **6** tubes.....**22c**

NOTE—Metol sometimes has an irritating or poisonous effect on the skin of some individuals, and those who are susceptible to it should select a developer which does not contain metol.

Red Seal Hydro-Metol Developing Powders, 22 Cents.

Soft Formula for Plates or Films.

Yields soft negatives with abundant detail. Each tube makes 8 ounces of developer for tray development, the complete package of six tubes making 48 ounces. Shipping weight, 5 ounces.

20H1953—Price, per package of **6** tubes.....**22c**

Neg-Dry, 23 Cents.

A hardening solution for either plates or films. Negatives treated with Neg-Dry may be dried in less than five minutes after they have been washed by placing them in this preparation and drying them by artificial heat. Neg-Dry also eliminates all traces of hypo that may not have been washed out of the film. This preparation may be used over and over again. Shpg. wt., 13 oz.

20H1980—Price, per bottle...**23c**

Red Seal Developing Powders for Developing Papers

Red Seal Developing Powders for papers are very simple and easy to It is only necessary to dissolve the contents of one tube in 8 ounces of water the developer is ready for use. They are packed in boxes, as illustrated, six t to the box, so each box makes 48 ounces of developer ready for use.

Red Seal Hydro-Metol Powders, 22 Cents.

Regular. For Bluish Black Tones.

A combination of hydrochinon and metol which gives bluish black tones. We recommend this developer in preference to any other for velvet and matte surface papers. Shipping weight, 5 ounces.

20H1936—Price per box of **6** tubes.....**22c**

NOTE—Metol sometimes has an irritating or poisonous effect on the skin of some persons. Those who are susceptible should select a developer which does not contain metol.

Red Seal Hydro-Metol Powders, 22 Cents.

Anti-Friction. For Olive Black Tones.

A combination of hydrochinon and metol which gives olive black tones. T powders are put up under a special formula which prevents the dark lin irregular markings known as friction or abrasion marks, which often dis prints on glossy papers. Shipping weight, 5 ounces.

20H1937—Price, per box of **6** tubes.....

Red Seal Amidol Powders, 22 Cents.

For Developing Prints.

A developer which yields ver blue black tones and is suitable f with any standard developing pap post cards. A very satisfactory oper for prints. Shipping weight,

20H1938—Price, per packa **6** tubes.....

Red Seal Darko Sepia T 35 Cents.

Contains five tubes of bleachin der for bleaching solution and one t powder for redeveloping solution full directions. With this toner, on any of the various styles or gra Darko may be toned to a beautifu brown or sepia color. Especiall results are obtainable with Indi Darko. Prints to be toned are developed in the regular way, the constituting an additional ope Shipping weight, 5 ounces.

20H1948—Price.....

PHOTOGRAPHIC CHEMICALS

20H2008—Genuine Monomethyl Paramidophenol Sulphate (formerly known as METOL). Per ounce, **40c**; ¼ pound, **$1.34**; ½ pound, **$2.50**; 1 pound, **$4.67**

20H2002—Pyro (Pyrogallic Acid). Crystals. Just the same chemically as the resublimed and cleaner to handle. Does not blow about the workroom to cause spots on prints and negatives. We do not handle resublimed pyro. Per ounce, **23c**; ¼ pound, **59c**; ½ pound, **$1.10**; 1 pound.....**$2.07**

20H2005—Hydrochinon. The best grade pure white hydrochinon, put up in cartons. Per ounce, **15c**; ¼ pound, **50c**; ½ pound, **96c**; 1 pound.....**$1.82**

Tank Thermometer, designed specially for use with developing tanks. Has hook for fastening to edge of tank. Shipping weight, 6 ounces.

20H1400—Price....**23c**

20H1400

Blotter Book.

Perfection Blotter Book for drying prints flat. Has twelve sheets of lintless blotting paper, 9x12 inches, interleaved with a fine quality of wax paper, all bound in heavy manila covers. Shipping weight, 13 ounces.

20H1528—Price.....**23c**

Blotting Paper.

20H1526—Photographers' Blotting Paper for drying or mounting prints, free from lint. **State size.**

Size, 9x12 in. Shpg. wt., 10 oz. Per doz....**14c**
Size, 19x24 in. Shpg. wt., 2 lbs. 3 oz. Doz...**45c**

Reducing Powders, 27 Cents.

Negatives which from over development or other causes are too dense can be quickly reduced to the proper density for printing by the use of this preparation. The powders are put up in packages containing twelve powders and each powder makes 10 ounces of reducing solution. For use they are simply dissolved in water. Shipping weight, 3 ounces.

20H1972—Price, per box.....**27c**

Intensifying Powders, 27 Cents.

A weak, thin negative lacking in contrast may be greatly improved by intensification, and this powder is a very convenient means of preparing a good intensifier. It requires only to be dissolved in water to be made ready for use, forming a simple and easy method of intensification. Each package makes 24 ounces of solution. Shipping weight, 5 ounces.

20H1970—Price, per package.....**27c**

Red Seal Hypo.

(Hyposulphite of Sodium.)

We furnish hypo in two forms, pea crystal and granular. The pea crystals, as the name implies, are simply small crystals. The granular is made by crushing or grinding the crystal hypo until it is about like coarse granulated sugar. This form dissolves very readily and is convenient to use.

Pea Crystal Hypo.

20H2156—In 1-lb. carton. Shpg. wt., 1½ lbs. Per pound.....**9c**

20H2157—In 5-lb. friction top can. Shpg. wt., 7½ lbs. Per can....**40c**

20H2158—In 10-lb. screw top can. Shpg. wt., 13 lbs. Per can.....**75c**

Granular Hypo.

20H2160—In 1-pound carton. Shpg. wt., 1½ lbs. Per pound.....**10c**

20H2161—In 5-pound friction top can. Shpg. wt., 7½ lbs. Per can.....**42c**

20H2162—In 10-pound screw top can. Shpg. wt., 13 lbs. Per can.....**80c**

Acid Hypo, 22 Cents a Pound.

A special combination, put up under the most approved formula, of pure granular hypo and other ingredients which, when dissolved in water, makes a clean, clear fixing solution for either plates, films or papers. A very convenient means of preparing the acid fixing bath. It gives unusually good results, as it not only fixes to perfection but also acts as a clearing solution and a hardener. Put up only in 1-pound packages, sufficient to make 64 ounces acid fixing bath. Full instructions included. Shipping weight, 1½ pounds.

20H1985—Price, per pound.....**22c**

Squeegee Plates.

Good quality light weight ferrotype plates for squeegeeing glossy prints to produce a highly polished surface. Size, 10x14 in. Shpg. wt., per doz., 4½ lbs.; each, 12 oz.

20H1546—Price, per dozen, **$1.38**; each.....**18c**

Polish For Squeegee Plates.

A dry preparation for polishing ferrotype or squeegee plates to prevent the prints sticking to them. Shpg. wt., 2 oz.

20H1548—Price, per box.....**12c**

Electric Printer and Safelight.

Makes printing certain, as exposures are under accurate control. Made of wood with ventilated metal panels. Prints from films or glass negatives of any size up to and including 5x7. A hinged door operated from outside the box divides box into two compartments. Socket for electric lamp is in lower compartment. Exposure is made by raising and lowering the door. There is a safelight by which the operator can see to place the paper on the negative. A yellow window in the side forms a safelight by which to develop prints. Replacing this with a ruby glass, 3¾x5¾ inches, the printer becomes a darkroom lamp.

20H1423—Electric Printer and Safelight, co with 6 feet of cord, plug and socket, without lamp. ping weight, 5 pounds. Price.....

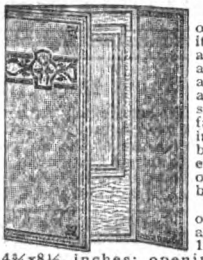
Peerless Japanese Transparent Water Colors.

All the enchantment of color photography is available to everyone by the use of these Water Colors. Charming color effects may be secured on your favorite landscape or portrait prints by this fascinating and simple method. These water colors may also be used for sketching on water color paper, coloring post cards or maps, and in an infinite number of other ways. Colors flow smoothly and evenly over any paper surface and, combined, will form an almost unlimited number of shades and tints. Their wonderful **blending qualities** have made them favorites everywhere.

The fifteen colors are in the form of color films, the most convenient form for keeping colors clean and instantly available. Films bound into booklet with interleaf of instructions preceding each color. Colors: Brilliant yellow, deep yellow, orange, flesh, geranium pink, scarlet, royal crimson, mahogany, sepia, light green, dark green, sky blue, dark blue, wistaria violet and pearl gray.

Outfit contains, in addition to booklet of colors, two brushes, bottle of eradicator, film of sizing and book of instructions for slide coloring. Shipping weight, 8 ounces.

20H1921—Price.....**$1.48**



Osaka Transparent Water Colors.

A box of twelve dry colors in pans. One each of blue, yellow, brown, pink, violet, magenta, orange, green, red, new rose, white and black. Two good brushes included for applying colors. Shipping weight, 4 ounces.

Keep Your Pictures Safely in Highest Quality Loose Leaf Photo Albums

Each Album Contains 100 Pages (50 Black Flexible Leaves).

We handle only the best grade photo albums. They are well bound and attractive in appearance. The leaves are of the Egyptian black tint, harmonizing with almost any kind of print, and are made of strong, tough paper, the best grade used for album leaves. This paper keeps its color indefinitely and will give years of service.

The leaves of these albums are removable, permitting the arrangement of the photographs to be changed at will; old leaves may be taken out, new ones put in or rearrangements made at any time. Both covers and leaves are flexible and the albums are bound in such a manner that they always lie perfectly flat whether open

Photograph the Baby!

Keep a Record of All the Little Incidents of Baby Days.

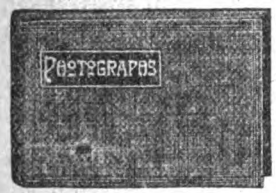
"Our Baby" Loose Leaf Album is an excellent place to keep Baby's pictures, with notes of incidents and dates pictures were taken. In it you can keep a lock of Baby's hair, little ribbons from Baby's first dress, a record of Baby's weight at different ages, the days Baby learned to crawl, to walk, to talk; pictures of Baby's first shoes and tiny mittens; pictures of Baby splashing in the bathtub and in all the winning Baby poses.

Album is nicely bound in linen finish black cloth or genuine seal grain leather, lettered in gilt. It has fifty alternate removable black and white leaves (25 black and 25 white), the black leaves for pictures, the white leaves for notes. Special title leaf with illustrations is provided for recording name and birthday of baby and where born. Size of leaves, 7x10 inches. Shipping weight, 1¼ pounds.

20H3065—Cloth Binding **$1.15**
20H3066—Genuine Seal Grain Leather Binding **2.80**

"My Memory Book" Loose Leaf A

An attractive loose leaf album containing forty black leaves for mounting photographs, clippings, wedding, birth and obituary notices, pressed flowers and leaves, programs, press notices, etc. Has two white leaves (four pages) in front of book, entitled in attractive lettering, "Friends o' Mine," with spaces for autographs, addresses and date.



The leaves are removable, so new leaves may be added, damaged ones replaced or the arrangement changed at will. Comes in two bindings, linen finish black cloth with gilt lettering, or imitation mission grain leather with embossed title and design.

China, Glass and Lamps

China, Glass and Lamps that we carry is shown on this pages.
these pages we believe you will find that our prices on lamps and allied lines are unusually low and that you will by sending us your order.
prompt delivery and will replace, without extra charge, all pieces aged in transit. We also guarantee to replace, without extra charge, at may prove defective in material or workmanship. We pay transportes on all replacements.
sizes (or capacity) in this catalog, we have endeavored, as nearly as approximate the actual size, but it must be borne in mind that in pottery and glass which is made by hand, through the agency of fire, there will always be a slight variation in exactly the same articles. No endeavor is made to carry the size or capacity closer than one-quarter inch and one-quarter pint. The article therefore may vary within these limits and be correspondingly slightly larger or slightly smaller than the size or capacity given. Our object in stating the size is to convey to the mind a general idea of size and appearance which would be conveyed through the eyes if the article itself was before you.

You take no risk in buying from us, because we guarantee that every article you purchase from us must satisfy you perfectly. If, for any reason, any article does not please you, you are at liberty to send it back to us, and we will, at once, return your money, together with any transportation charges you may have paid.

For Silver Plated Tableware see pages 424 and 425.

SNOWFLAKE WHITE DINNER SET

Made of fine quality of white semi-porcelain (semi-vitreous china). **The ware is pure** white in color with a glossy glaze, and great care has been used in selection. Every piece is carefully modeled with an attractive embossing around the edges. The ware is exceptionally light in weight for semi-porcelain, yet at the same time, on account of its quality it is strong and durable. Our Snowflake white dinnerware on account of its good quality and attractive shape with ornamental embossing is an especially desirable white semi-porcelain dinner set. We have just reduced the price very greatly, in fact, the present prices are below pre-war prices. At these new low prices the Snowflake white dinnerware is very much cheaper in price than any other high grade white dinnerware.

PINK MOSS ROSE AND GOLD BAND DINNER SET

This handsome style of decoration consists of large beautifully colored clusters of pink moss roses and rosebuds with their delicate green and Autumn colored foliage. A narrow gold band extending out of this rose cluster encircles the center of each piece and there is a bright gold band of medium width on the edge of every piece. The handles are o with gold tracing. This attractive decoration and dainty gold treatment upon a shape made of pure white semi-porcelain makes this a very pleasing dinnerwa

decoration represents a new and popular style in dinnerware. Each piece is around the edge with a narrow band of bright blue which resembles enamel. this narrow blue band are fancy blue medallions connected with a fine blue hair- handles are decorated with blue tracings. The contrast between the dainty blue decoration and the pure white china is such that it sets it off in the most attractive manner. While it is extensively used for cottage and bungalow, this dinner set makes a very handsome and attractive dinner set for the home. It is neat, dainty and pleasing. Made of pure white semi-porcelain in the plain edge Empress shape.

GOLD BAND DINNER SET

The decoration on this set consists of a wide band of bright gold around the edge of each piece with an additional gold band around the center of the covered dish, sugar bowl, cream pitcher, sauce boat and pitcher. The handles are also traced with bright gold. This set is made of pure white semi-porcelain, in a plain edge shape, which will appeal to people of refinement. The gold band is the full standard width, the same width and style as is used on the higher priced gold band sets. Our price for this set is very low, having been reduced again. This is an unusual bargain in high grade gold band dinnerware, which continues its steadily growing popularity each year and remains a criterion of good taste.

CARNATION BEAUTY GOLD ORNAMENTED DINNER SET

a dinner set which is very pleasing. The decoration is quite a striking one from what you usually see. It consists of large pink carnations entwined violets and green foliage forming large sprays, while between each spray large gold ornament of attractive design which adds much to the brightness of the decoration. The fancy ornamental handles and knobs are traced with bright gold. The shape is a reproduction of a popular French shape and is richly embossed around the edges and also around the center of the covered dish and the sauce boat and around bottom of pitchers and sugar bowl. The set is made of pure white semi-porcelain.

FLYING BLUEBIRD DINNER SET

This Bluebird Decoration is greatly admired and is unusually chic and pretty. This decoration consists of Flying Bluebirds, "the emblem of peace and happiness," with a background of apple blossoms and green foliage in natural colors. The edge of each piece is trimmed with a blue band which harmonizes with the bluebirds in color. The handles are traced in blue to match. This attractive dinner set is made of pure white semi-porcelain in a popular plain edge shape. Please note carefully the Bluebird decoration on this set. It is not the cheap, gaudily colored pattern often seen, but is a pattern of unusual daintiness and charm, with all its colors soft and pleasing.

Quality Ware

ROSE AND LATTICE BORDER DINNER SET

There is a great demand at present for dinner sets with rose borders in semi-conventional designs, a style of decoration made so popular by the Havilands. This very pretty pattern has a black and tan lattice border with panels of pink roses inserted here and there, which alternate with a large pink rose mounted in a medallion. Around the inside edge of the border is a narrow sepia colored band. On the outside of the border and around the edge of each piece there is a narrow bright gold band. The handles are also traced with gold. The set is made of pure white semi-porcelain in a good looking plain edge shape. This is our most popular high grade border pattern and the price is very low.

PINK ROSE AND DAISY BORDER DOUBLE GOLD TRIMMED DINNER SET

An exceptionally dainty and pleasing high grade border pattern. The decoration consists of a border of small pink roses alternating with delicate yellow daisies which are connected together by green leaves and stems on a soft toned latticework background. Around the outside edge of this border is a bright gold band and on the inside edge of the border there is a bright gold hairline. This double gold treatment sets off the most pleasingly. The handles are full gold traced. Made of fine quality pure porcelain, in the plain edge Empress shape. For those who want a set tha refinement and beauty in the decoration we recommend this pattern.

35H336—Pink Rose and Daisy Dinnerware. For list of pieces in these sets see page 569.

YELLOW MATTE GOLD DINNER SET

Very elaborately gold decorated dinnerware. The decoration consists of yellow matte gold (warranted 18-karat) which is applied around the edge of each piece and over the fancy embossing in such a manner as to make it a most attractive gold decorated set. The handles are heavily covered with yellow matte gold. In addition to being covered with gold, the handles of the covered dishes, sugar bowl and butter dish with gold in ribbon bowknot design on the cover. The fancy shape, which is is fast becoming one of the most popular shapes. It is a copy of one of the n dinner sets. The set is made of fine quality pure white semi-porcelain.

Price, each...$8.85

For metal water cooler see page 833.

Cooking and Baking Glassware.

Clear glass dishes of high thermal endurance, comprising great strength with low expansion. Bake an even crust top and bottom. Clean and economical in service. In baking, oven heat is transmitted to the food uniformly on all sides, top and bottom.

This glass is clean and clear and most appropriate for serving on the dining table because of its neat appearance and transparency. It does not chip, as all edges are round. It has twice the strength and more than twice the thermal endurance of common glass; and if handled with ordinary care it can be used continuously for years.

OUR IMPROVED HOME BUTTER MAKER.

Sanitary, Simple. **Practical, Durable.**

Economical Home Butter Maker, fitted with two special features, namely, a Screw Metal Top and a Heavy Steel Supporting Handle. These features have two advantages. (1) The metal screw top prevents the milk or cream from splashing or working out of the churn and makes it unnecessary to hold the top on when churning. (2) The heavy steel supporting handle on the cover enables you to hold the churn steady on the table with your left hand while churning with the right hand.

These two features make this a most practical and satisfactory churn.

Illustration Shows How the Churn Is Operated.

Simple, economical, sanitary and very easy running. The cover, wheel, stem, handle, paddle, in fact all of the metal working parts, are made of steel, nickel plated. The handle is fitted with a wooden grip which makes churning easy. The jar is made of heavy clear crystal glass measuring 6x8 inches with a capacity of one gallon. There are no wooden or other insanitary parts which will absorb the butter and become rancid.

This machine can also be used as a cake or batter mixer, cream and egg beater. Even if you do not make your own butter you should have one of these churns in your home, for it will combine 1 pound of common commercial butter with an equal weight of milk and make 2 pounds of fresh, healthful milk charged table butter. Full instructions accompany each churn. Weight, packed, 10 pounds.

35H529 Price **$2.50**

35H795—Price $1

Columbia Records Included With These Models No Extra Charge

WE BELIEVE that the two SILVERTONES shown on this page are the lowest priced cabinet style phonographs to be had anywhere in a standard recognized phonograph. And **not only are our prices half or less than half what you would pay elsewhere** for phonographs of equal quality, but we believe that our SILVERTONE Phonograph Offer, as explained for these models and the SILVERTONES on the following pages, is the **most sensational offer ever made in the history of the phonograph.** Not only are our prices LOW and our NO MONEY DOWN and EASY MONTHLY PAYMENT plan most liberal, but **we include with the LEADER and the STERLING ten 85-cent genuine Columbia Records—$8.50 worth—without any extra charge whatever.**

Nowhere else can you duplicate these values. We can save you so much money because we sell direct to you at manufacturer's price, plus only our one profit. We eliminate all intermediate expenses, such as showrooms, high salaried salesmen, etc., which add so much to the price without in any way improving quality. You may find free trial offers elsewhere, including records, but in one way or another you pay for the records if you keep the phonograph. Our prices are LOW and WE INCLUDE THE RECORDS WITHOUT ANY EXTRA CHARGE.

TWO WEEKS' TRIAL $4.00 A MONTH

You can see and hear either the LEADER or the STERLING in your own home before you decide to buy. You don't need to put up one penny in advance. Just fill out and mail us the order blank on page 555.

If we weren't sure that the SILVERTONE was musically perfect and that in workmanship and design it has left nothing to be desired, we wouldn't dare make such a liberal offer. But we're proud of the SILVERTONE. We want it played alongside instruments selling at double its cost. We have no fear of the result. That's why we make this liberal offer.

If at the end of **two weeks'** trial you are fully satisfied, pay us **$4.00** each month until the total price of the SILVERTONE is paid. And remember, the **price we quote is the total price for phonograph and records. There is no extra charge for the records, nor any interest or other charge of any kind to be added.**

If you are not entirely satisfied with the SILVERTONE just return the outfit to us at our expense at the end of two weeks' trial, and we will return any money you have paid, including transportation.

The ten 85-cent Columbia Records which we include with the LEADER and STERLING MODELS will give you twenty well chosen selections of fine instrumental, vocal, dance and other music, making it unnecessary for you to buy any records for a long time. **Five** records are sent with the SILVERTONE. When you send us the first monthly payment of **$4.00,** we will ship the other **five** records, POSTPAID, and WITHOUT ADDITIONAL CHARGE.

If you wish all ten records shipped *with* the SILVERTONE, send the first monthly payment of $4.00 *with* your order.

The Sterling

$4.00 A MONTH *Price, including ten 85-cent double disc Columbia Records,* $63.00

20H4720—**The STERLING MODEL SILVERTONE.** *Mahogany or Fumed Oak.* **State finish.**

ANOTHER striking example of the saving you can make in buying from us is this beautiful STERLING MODEL with the generous outfit of records we give with it. $100.00 to $110.00 is what you would pay elsewhere for a phonograph of corresponding size and high quality, *without any records.* **We save you around $40.00 on the phonograph itself and in addition we include $8.50 worth of records** (ten 85-cent Columbia Records) absolutely **without additional charge.**

The STERLING is rich, refined and tastefully simple in design. With its pleasing proportions and its excellent workmanship and finish, it makes an instant appeal to good taste. But, first of all, it is a **true musical instrument,** sharing the same improvements and refinements possessed by the best instruments in the SILVERTONE line. Its fine musical qualities are unsurpassed by any phonograph on the market, regardless of name, make or price. Like all SILVERTONES, it plays all makes of disc records, without exception.

We know you will be delighted with the STERLING when you see and hear it and realize what an extraordinary value it is.

42¾ inches high, 21⅝ inches deep, 18¼ inches wide. Silvertone Reproducer and Silvertone Convertible Tone Arm to play all disc records. FINEST MECHANICAL EQUIPMENT

All SILVERTONES are equipped with our **improved Silvertone Reproducer,** a marvelously sensitive mechanism for the reproduction of sound, and the **Silvertone Convertible Tone Arm,** of heavy massive construction, absolutely free from vibration and so constructed that it will play disc records of any make or size, without exception. The **Silvertone Amplifying Chamber** is a scientifically designed combination of wood and metal, permitting a remarkably true reproduction of the human voice and of all musical instruments. The **improved tone modulator** enables you to control the volume of sound, loud or soft, as desired. It may be set to remain constant at any desired point throughout the selection, or it may be manipulated while the instrument is playing, thus enabling you to give your own interpretation to the music. The **powerful, silent running Silvertone precision motors** are as near mechanical perfection as any phonograph motors we have ever seen.

Columbia Record

Hawaiian Selectio

Aloha Oe. Instrumental. With tenor solo and chorus.	A 1616	10-in. 75c
Hawaiian Medley. Instrumental. Both by Toots Paka Hawaiian Co.		
Aloha Oe. Prince's Orchestra, with trio of women's voices.	A 1667	10-in. 75c
The Golden Ring. Columbia Ladies' Quartet.		

BEAUTIFUL OHIO. Waltz.	A 2743	10-in. 75c
TILL WE MEET AGAIN Waltz. Both by Kalaluki Hawaiian Orchestra.		

The Kalaluki Hawaiian Orchestra is unquestionably a perfect Hawaiian ensemble. While keeping all the sweetness of the singing strings in their music, they give also a volume rarely equaled in Hawaiian records. These two waltz selections are sure to meet your favor—the singing melodies, the throbbing, rippling accompaniments and the splendid tone volume combine to make them of commanding interest.

Hawaiian Dreams. (Marple.) **Lelia, Pasillo Waltzes.** (Galimany.) Louise and Ferera. Hawaiian guitar duets.	A 2311	10-in. 75c
Hawaiian Echoes. Intro. "Ka Mala O Ka Maoli," "Pua He-i," "Kuu Pua Rose Lani," "Aloha Oe," "Ua Like No a Like," "Kuu Ipo." One-Step. **Smiles, Then Kisses.** (Ancliffe.) Waltz. Both by Louise, Ferera and Greenus. Hawaiian guitars and ukulele trio.	A 2368	10-in. 75c
Hawaiian Medley. Intro. "Moanalua Hula," "Maunawili," "Meleana." Louise and Ferera. **Pua Mohala.** H. N. Clark, tenor, and Hawaiian Octet. Guitar and ukulele accompaniment.	A 1993	10-in. 75c

Hawaiian Melodies, Medley of. "One-Two-Three," "Halona," "Sweet Lee Mamo." Waltz. **Kaui Kahio Medley.** "Ainahau," "Kuwiliwili Iho au," "Ua Hiki No Mean." Fox Trot. Both by Biltmore Kalaluki Hawaiian Orchestra.	A 2200	10-in. 75c

HONOLULU BAY. **ROMOLA.** Hawaiian guitar duets by Frank Ferera and Anthony Franchini.	A 3316	10-in. 75c

Sometimes on one of your quiet evenings at home, you have probably felt you would like something musically different. You can have it in the drowsy, voluptuous music of Hawaii, with its subtle appeal. The lure of Hawaiian music is well nigh irresistible. Ferera and Franchini are masters of the Hawaiian guitar. They draw from the strings all the humor and pathos, all the laughter and tears that lie in every Hawaiian melody.

Hawaiian Waltzes, Medley of. **My Old Kentucky Home.** (Foster.) Louise and Ferera. Guitar duets.	A 1814	10-in. 75c
Hilo. Hawaiian March. Irene West Royal Hawaiian Troupe.	A 1812	10-in. 75c
Kahala March. Palie K. Lua and David K. Kaili. Hawaiian guitar duet.		

We Pay all Postage or Express Charges on Columbia Records

Honolulu Rag. **Kaiwi Waltz.** (Kaiwi.) Guitar duets by Lua and Kaili.	A 1861	10-in. 75c
Kilima Waltz. **Hawaiian Hotel.** (Nainas.) Lua and Kaili. Hawaiian guitar duets.	A 1874	10-in. 75c
Long Ago. Ferera and Franchini **Hunika.** Ferera and Franchini. Hawaiian guitar duets.	A 2950	10-in. 75c
Missouri Waltz, The. **Little Alabama Coon.** Intro. "Old Black Joe." Both by Louise, Ferera and Greenus. Hawaiian guitars and ukulele.	A 2450	10-in. 75c
My Hawaii, You're Calling Me. (Lewis.) **Oh, Sole Mio!** (My Sun.) (Di Capua.) Both by Louise, Ferera and Greenus. Hawaiian guitar, banjo nd ukulele trio.	A 2509	10-in. 75c

My Rose of Waikiki. Campbell and Burr. **Hello, Aloha, Hello!** Campbell and Burr. Both with orchestra and Hawaiian guitars.		
One, Two, Three, Four. (Alau.) Vocal. **Ua Like No a Like.** (Constancy.) Vocal. Both by Toots Paka Hawaiian Company.		
On the Beach at Waikiki. (Kallimai.) **Hapa Haole Hula Girl.** Louise and Ferera. Guitar duets.		
Palakiki Blues. **Pua Carnation.** (Carnation Flower.) Intro. "W wili Wai." (Surging Waters.) Guitar duets. Louise and Ferera.		
Somewhere in Hawaii. **Arabian Dreams.** Both guitar, banjo and uku trios. Louise, Ferera and Greenus.		
Songs From Hawaii. Intro. "Maui Girl." W Medley. Guitar duet. Louise and Ferera. **Hawaiian-Portuguese Tango.** Louise, Ferera Kainoa. Guitar and ukulele trio.		

THAT NAUGHTY WALTZ. **PENSACOLA WALTZ.** Hawaiian guitar duets by Frank Ferera a Anthony Franchini.		

The music of Hawaii has a lasting hold musical affections of America. The melanch of the small guitar has a sweetness all its own and Franchini are probably the two best k ponents of the music of the Pacific isle, rendering of these beautiful and extremely waltz melodies makes this record an instrum that is a worthy addition to any record colle

Sweet Hawaiian Moonlight. Waltz. Intro. " ona."		
Hawaiian Nights. Waltz. Both by Kalaluki Hawaiian Orchestra.		
Wailana Waltz. (Drowsy Waters.) **Hawaiian Medley.** Two-Step. Louise and Ferera. Hawaiian guitar duets.		
Waiu Lulilui. Louise, Ferera and Kainoa. G and ukulele trio.		
Kalaluhi's Hawaiian Medley of Hulas. I "My Honolulu Tom Boy," "My Honolulu Girl," "On the Beach at Waikiki." "Waik Biltmore Kalaluki Hawaiian Orchestra.

Dance It With Me Again. One-Step.
Both by Art Hickman's Orchestra. — A 2899, 10-in., 75c

The Famous Hickman Dance Records

At an expense perhaps never before paid for such a feat, Hickman's entire orchestra was brought across the continent from San Francisco to New York to make Columbia Records. New York's reception to Hickman and his wizards of jazz was so instant and so enthusiastic that Hickman's Orchestra is now known as one of the country's best dispensers of syncopated melody. There is nothing just like their records. The jazz is there, and there is music, too. They are delightful to listen to, and there is a sort of refined riotousness in them that gets under your skin and runs clear down into your feet. When Hickman and his boys take hold of a tune, it's all over with you—you simply *have* to dance!

We list some of their exclusive Columbia records below; others will be found throughout our dance list.

June. Fox Trot. Intro. "Look What You've Done With Your Dog-gone Dangerous Eyes." Art Hickman's Orchestra.
Honolulu Eyes. Medley Waltz. Intro. "The Rose I Call Sweetheart." Prince's Dance Orchestra. — A 3343, 10-in., 75c

Darling. Fox Trot. Intro. "Love Flower."
Missy. Fox Trot. Intro. "Bamboola."
Both by Art Hickman's Orchestra. — A 3334, 10-in., 75c

Any Time, Any Day, Anywhere. Fox Trot.
You and I. Fox Trot.

reatly Reduced Prices for xford Indestructible Cylinder Records

Four-Minute inder Records 12 for $2.28 (Only 19c Each)

Two-Minute Cylinder Records 12 for $1.92 (Only 16c Each)

In addition to the big selection of cylinder records in our regular stock, we have purchased the manufacturer's entire surplus. Space does not permit us to list these records by titles, but by putting them up in special assortments of twelve records, we are able to offer them at these amazingly low prices. Each outfit contains a well chosen assortment of titles from our big stock of vocal, instrumental, dance, humorous, sacred, Hawaiian and other selections.

All New, Perfect Records—Worth More Than Twice Our Price

These records are all new and in perfect condition. They are the same high grade records that we have been selling at 42c each for the Four-Minute Records and 36c each for the Two-Minute Records.

Order as Many Collections as You Like—No Titles Will Be Duplicated in Your Order

Four-Minute Cylinder Records

e Four-Minute Oxford Indestructible Cylinder Records fit any Columbia r Graphophone, any Edison Cylinder Phonograph or any cylinder talking that Sears, Roebuck and Co. have ever sold, provided the machine is equip- h a special Four-Minute Attachment. Most of the Columbia and Edison machines sold in recent years are equipped with the Four-Minute Attach- If your machine is not provided with this attachment, you cannot use Four- Records.

5088—Special Collection, Twelve Oxford FOUR-MIN- ylinder Records. Shipping weight, 2¼ pounds. Price... **$2.28**

Two-Minute Cylinder Records

Two-Minute Oxford Indestructible Cylinder Records are exactly the same size as the Four-Minute Oxford Records but they play only half as long, from two to two and one-half minutes. They fit any Columbia Cylinder Graphophone, any Edison Cylinder Phonograph made previous to 1914, or any cylinder talking machine that Sears, Roebuck and Co. have ever sold. No special attachment is necessary. **They do not fit the "Busy Bee" machine.**

20H5089—Special Collection, Twelve Oxford TWO-MINUTE Cylinder Records. Shipping weight, 2¾ pounds. Price..... **$1.92**

Records cannot be played on any Silvertone Phonograph, nor on any other phonograph that uses the flat or disc records.

PHONOGRAPH NEEDLES

Silvertone Standard Steel Needles

Sold Only by Sears, Roebuck and Co.

Perfect Points—Uniform Lengths—Non-Rust Finish

Good Needles Mean Better Music From Your Phonograph and Longer Life for Your Records.

For use with all Columbia, Silvertone, Victor, Okeh, Emerson, Aeolian, Brunswick or any other lateral cut disc records.

Silvertone Standard Steel Needles are extra fine quality. The points of these needles are all smooth and perfect and of just the right shape to fit the groove, insuring the most perfect reproduction and reducing wear on the record to the minimum. The needles run uniform—all just alike in point, in diameter and in length, and they are made with a special bright non-rust finish so they stay good. **They are quality goods.**

Poor needles cannot possibly give you the best there is in your records. Don't wear out your expensive records and put up with poor music because of poor needles. Make your phonograph give you the best it has in it by using the very best needles the market affords. There is no economy in buying poor needles.

20H5386—Soft Tone. Price, per 500 needles.....29c
20H5387—Medium Tone. Price, per 500 needles.....29c
20H5388—Loud Tone. Price, per 500 needles.....29c
Shipping weight, 500 needles, 4 ounces.

SPECIAL COLLECTION OF SILVERTONE NEEDLES.
5 Grades—1,000 Needles for 65c.

A collection of 1,000 Silvertone Needles of five different grades. Each kind packed in separate containers and the containers packed in neat box. Contains:
200 Soft Tone Needles, noted for their soft, sweet, natural tone and absence of scratch; particularly suitable for use in the home.
200 Medium Tone Needles, distinguished for their full, rich, mellow tone of medium volume.
200 Opera Tone Needles, similar to Medium Tone, but somewhat louder, especially suited to operatic selections.
200 Loud Tone Needles, shorter and thicker than the Opera Needles, and therefore louder.
200 Extra Loud Tone Needles, short and thick, especially suitable for open air concerts, large rooms and for dance music.
20H5391—Complete collection, five grades, Silvertone Needles. Shipping weight, 6 ounces. Price 65c

SILVERTONE CACTUS NEEDLES

Sold Only by Sears, Roebuck and Co.

Soft, Melodious Natural Tone. **Smooth as Velvet.** **No Scratching Noise. Easy on the Records.**

40 Needles With Resharpening Outfit, 95 Cents.

Good for Thousands of Records.

Exact Size.

Silvertone Cactus Needles are made from a natural product, the thorns of a South American cactus plant. These thorns are from 4 to 5 inches in length, of fairly uniform diameter and of a most unusual and exceedingly close grained texture, which makes them peculiarly adapted to use as phonograph needles. The thorns are first subjected to a special tempering or hardening process, then cut to uniform lengths of about ⅝ inch and carefully pointed.

Each Silvertone Cactus Needle will play, on the average, about ten records before it requires resharpening, and each needle will stand resharpening at least a dozen times. So we may figure that each needle will play more than one hundred records, and the complete package of forty needles should play more than four thousand records. With each package we furnish a resharpening outfit by means of which the needles may be quickly and easily sharpened. The outfit consists of an emery disc, which fits on the turntable, and a special needle holder. The needle is placed in the holder and held against the emery disc as the turntable revolves. Thus the entire package of forty needles may be resharpened with just a few minutes' work.

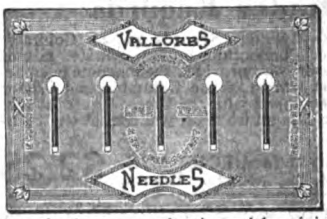
The tone of the Silvertone Cactus Needle is particularly pleasing and agreeable, not quite so loud as the steel needle, yet amply loud enough for home use. There is almost a total lack of the familiar scratching noise so noticeable with other needles. Nothing is heard but the music. The entire freedom from harsh, metallic sounds makes them especially desirable for vocal selections and violin solos, instrumental trios or Hawaiian music.

There is a naturalness of tone with these needles that, in our opinion, is unequaled by any other type of needle.

For use with all Silvertone, Columbia, Victor, Okeh, Emerson, Aeolian, Brunswick or any other lateral cut disc records.

20H5315—Silvertone Cactus Spine Needles. Shipping weight, 6 ounces. Price, per package, forty needles with resharpening outfit.....95c

VALLORBS SEMI-PERMANENT NEEDLES



Play Several Records Without Changing Needles!

Loud Tone Needle. Exact size.

Five Needles for 18c.

Good for Hundreds of Records.

Three Kinds: Loud Tone—Medium Tone—Soft Tone.

Vallorbs Semi-Permanent Needles possess all the advantages of the ordinary steel needle with the big additional advantages of convenience and economy. They give musical results as good as, if not better than, the steel needles and, with proper use, are easy on the records. The needle point is not tapered, but has parallel sides, so that the point does not increase in diameter with use. Thus, even after playing dozens of records, the needle point still fits the record groove, insuring the best reproduction with minimum wear on the record. With proper care in using, a card of Vallorbs Semi-Permanent Needles should play hundreds of records. These needles will play more records than the same value in steel needles.

Vallorbs Semi-Permanent Needles can be used with Silvertone, Columbia, Victor, Okeh, Emerson, Aeolian, Brunswick or any other lateral cut disc records.

Come in Loud, Medium and Soft Tone. Try a Card of Each.

20H5382—Soft Tone. Per card of five needles.....
20H5383—Medium Tone. Per card of five needles.....
20H5384—Loud Tone. Per card of five needles.....
Shipping weight, per card, 1 ounce.

The Famous Tusko Needle.

Exact Size.

For use with all Silvertone, Columbia, Victor, Okeh, Emerson, Aeolian, Brunswick or any other lateral cut disc records.

Each of these wonderfully fine phonograph needles is made from a thorn of the cactus plant, which has been especially treated and shaped by hand. They are very hard and sharpened to a needle point. They are very easy on records, wearing them much less than steel needles do. The point of a Tusko needle wears away in use, just the same as a steel needle, but a few strokes on the fine emery paper accompanying the package will restore a perfect playing point. Thus these needles may be used over and over again indefinitely. They will last for years. Their purchase is a distinct economy. They never become noisy or scratchy. They are ideal for home use when soft tones are desired rather than great volume, although, when cut very short, they will produce almost as great volume as a steel needle. They are put up in cards of 1 dozen. Shipping weight, 2 ounces.

20H5330—Price, per card.....75c

Fibre Needles Save Your Records.

Exact Size.

For use with all Silvertone, Columbia, Victor, Okeh, Emerson, Aeolian, Brunswick or any other lateral cut disc records.

The use of B. & H. Fibre Needles will add greatly to the enjoyment to be derived from a phonograph. The tone is soft and sweet, just the proper volume for the home.

The reproduction is remarkably free from scratch, and records played only with fibre needles will last indefinitely. The very material from which they are made precludes all possibility of injury to the record. The entire substance of the needle is impregnated with an oily material which acts as a perpetual lubricant, and the needle thus polishes and smoothes the grooves of the record each time it is played.

These needles may be used repeatedly. Often as many as a dozen records may be played before the reproduction becomes unsatisfactory, and then the needle may be repointed by means of the cutter listed at right.

B. & H. Fibre Needles may be used with any Silvertone, Victor, Columbia, Oxford or other machines of this type, provided the reproducer is made with a triangular needle hole. Look at your needle holder before ordering and make sure that it is provided with a triangular hole. Shipping weight, 2 ounces.

20H5365—Package of 100 needles.....35c

Diamond Pointed Needle for Edison Records.

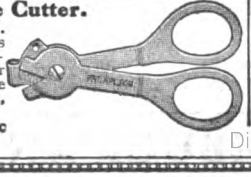
Exactly the same as 20H5334, but with genuine diamond point instead of sapphire. The advantage of a diamond point over a sapphire point lies in the fact that it wears longer. With ordinary care in using, the diamond pointed needle should last indefinitely. Shipping weight, 1 ounce.

20H5335—Price, each.....$3.40

Little Wonder Record Album.

Contains ten numbered pockets, each pocket having a hole in the center so the title of the record may be read without removing it. Each pocket holds two 5½-inch records, back to back, making the total capacity of the album twenty records. A blank index is provided on the inside front cover, so selections may be indexed and thus quickly found. Shipping weight, 12 ounces.

20H5134—Price 17c



Disc Record Case.

Covered with black imitation leather. Provided with numbered separators and numbered blank inside of cover for list of selections, so any desired record may be instantly found. Holds fifty 10-inch records. Size, 11 inches wide, 9¼ inches deep, 11¼ inches high. Shipping weight, 8½ pounds.

20H5205—Price..$1.98

Fibre Needle Cutter.

For repointing B. & H. Fibre Needles. Saves its cost many times by lengthening the life of your needles. A very durable cutter. Shipping weight, 8 ounces.

20H5367—Price..69c

Sapphire Pointed Needle for Edison Records.

Exact size.

This Sapphire Pointed Needle is especially for playing Edison records on machines designed primarily to play records of the Columbia and Victor type (lateral cut records), but on which the sound box can be turned to position for playing Edison records. The point is made of fine quality extra hard Ceylon sapphire, the best and hardest sapphire we can obtain. It is accurately ground to a fine smooth, slightly rounded point, exactly fitting the grooves of the Edison record and wears for years. Shipping weight, 1 ounce.

20H5334—Price, each.....65c

Sapphire Ball Needle for Pathe Records.

Exact Size.

This needle is made especially for playing Pathe records on machines designed primarily to play records of the Columbia and Victor type (lateral cut records), but on which the sound box can be turned to position for playing Pathe records. It is not suitable for any other kind of record. The point is made of extra hard Ceylon sapphire, the best and hardest sapphire we can obtain, carefully and accurately ground to a ball shape to fit the grooves of the Pathe record. Shipping weight, 1 ounce.

20H5336—Price, each.....65c

Haile's Modulator.

Exact Size.

Haile's Modulator is an attachment for disc phonographs by means of which soft tones are reproduced with any ordinary standard or loud tone needle. The use of this modulator also adds greatly to the life of the record, as the needle is supported between elastic surfaces which permit it to "give" slightly with every curve in the record groove, thus lessening the shock to the delicate walls of the groove and greatly decreasing wear. Haile's Modulator may be attached to any disc talking machine and is put on or taken off just as easily as a needle is inserted or removed. By slightly turning the screw in the side of the Modulator it may be regulated over a wide range of tones. Shipping weight, 2 ounces.

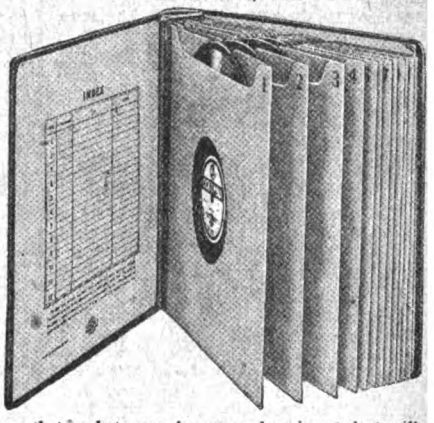
Lubricate a New Mainspring.

If you have occasion to order a mainspring to replace a broken one, be sure to with it a can of lubricant that you may lubricate it thoroughly and properly placing it in the spring barrel. Ordinary machine oil should not be for this purpose. Something more substantial and lasting is needed. For purpose Silvertone Mainspring Lubricant has been specially prepared. If is freely applied when the spring is placed in the barrel the lubricant will s between the coils, giving a free, smooth running motor and preventing ing and "jumping" or "knocking" of the spring. One lubrication will last a time.

Silvertone Mainspring Lubricant.



A specially prepared graphite paste for mainspring lubrication. One can will lubricate any one or two-spring motor. For a three-spring motor two cans are needed. See note above about lubricating a new mainspring. Shipping weight, 2 ounces.

20H5310—Price..... **20c**

Silvertone Record Albums Protect Your Records

For 10-Inch Records, 67c and 79c **For 12-Inch Records, 76c and 94c**

These albums are absolutely high grade in material and workmanship. Each album contains twelve numbered pockets, made of fine grade tough fibered paper. Each pocket has hole in center so that title of record can be read without removing it. Each inside cover has blank index, so that selections may be indexed and thus quickly found. Each record thus has its own place in the album, where it is protected from dust and injury.

Silvertone Albums are strongly made. 20H5210 and 20H5214 have a firm binder board back for holding the pockets; 20H5212 and 20H5216 are fitted with wood reinforced back with special loose leaf arrangement, so that pockets may be removed or inserted at will. Albums 20H5210 and 20H5214 are not loose leaf and pockets in these albums are not removable.

Both styles are bound in dark red cloth. Sizes: 10-inch album, 10x11½ inches; 12-inch, 12½x13¾ inches. Provided with leather covered ring in back for withdrawing from cabinet. Shipping weights: 10-inch album, 3½ lbs.; 12-inch, 4½ lbs.

Price	19c	29c	47c

Governor Springs.

Governor Spring (With Weight).

In replacing a broken governor spring it is necessary that the new spring be exactly like the old one. It must not only be of the same length and thickness, but the weight or ball attached must be of the same weight as the other. If this is not the case the motor will not run quietly and true. When only one or two springs of the set are replaced, there may be a difference between the new and the old. Therefore we list governor springs only in sets of three. 20H5276, 20H5277, 20H5281 and 20H5283 have the weights attached. The others are springs only. The weights must be unscrewed from the old springs and attached to the new.

Motor Bearing Oil.

This is a light bodied mineral oil entirely free from animal or vegetable oils. It is designed for the lubrication of parts where the pressure is comparatively light and the speed relatively high, thus making it especially adapted to the close fitted bearings of phonograph motors.

The ends of all spindles and shafts, the sleeve which slides on the governor shaft and the felt friction disc on the governor should all be oiled occasionally with this Motor Bearing Oil—just a drop or two on each bearing is enough, and it may be applied conveniently with a match or toothpick. Shipping weight, 6 ounces.

20H5311—Price..... **15c**

Gear Lubricant.

This is a semi-viscous lubricant, consisting of a heavy mineral oil and a fine grade of petrolatum designed especially for the worm and spur gears of phonograph motors.

All gears, and especially the worm gear of the governor should be thoroughly coated with this lubricant every three or four months. Shipping wt., 12 ounces.

20H5312—Price..... **15c**

For the proper lubrication of a phonograph motor, three lubricants are necessary. 20H5311 for the bearings, 20H5312 for the worm gears and 20H5310 for the mainspring. Proper attention to the lubrication will insure a smooth running motor for many years.

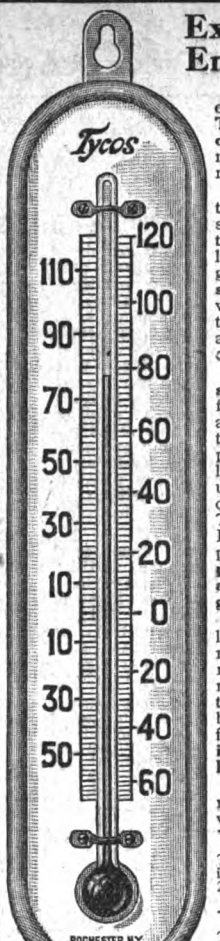
Distance Reading Thermometer. Red spirit. Lithographed metal case, large black figures on light scale; easily read at a distance of several feet. Length, 7⅝ inches. Shipping weight, 9 ounces.

5H93837—Price.....**26c**



Distance Reading Thermometer. Spirit. Metal scale mounted on varnished wood back. Large dark figures on light scale, easily read at a distance of several feet. Scale range, 50 degrees below zero to 120 above. Length, 8 inches. Shipping weight, 12 ounces.

5H93838—Price.....**33c**

Metal Window Thermometer. Spirit tube. Black figures on scale of rough finished zinc which will resist the action of the weather. This thermometer is intended to be mounted on the window frame outside so that it can be read from within the house. Two metal brackets are furnished for attaching. Length, 8 inches. Shipping weight, 15 ounces.

5H93840—Price.....**85c**

Extra High Grade White Enameled Thermometer

Most thermometers when hung out of doors exposed to the weather rust and corrode. **The figures and lines soon become indistinct and difficult to read.** They are not made to resist the effects of heat, cold, moisture and dirt.

Take the regular Japanned Metal case thermometers with mercury tubes, which are standard goods in this line—every dealer sells them, nearly everybody buys them. They look good when they are new, and in the better grades they are accurate, **but they do not stand up.** After a little exposure to the weather, the figures and lines are so indistinct it is almost impossible to read them and it is always hard to see the small mercury column.

This fine enameled thermometer will stand up indefinitely. The large black figures on a pure white ground stand out plain and clear, and they stay that way because they are protected by an absolutely weather-proof transparent glaze. The surface is just like a piece of porcelain and the figures are under the glaze. It cannot rust. It cannot corrode or fade nor deteriorate in any way. The large column of red spirit is easy to see. It can be read quickly and easily, even in poor light. **It can hang on your front porch exposed to heat and cold, wind and rain, for years and still be just as good as new.**

This thermometer is accurate, We believe most people like to feel sure their thermometer is right. They don't like to find it reading 17 degrees below zero some frosty morning and realize that perhaps the actual temperature is 20 below or perhaps only 12 below, and many thermometers do come that far from the truth. **There is a satisfaction in having a thermometer you can believe.**

The back of this instrument is made of metal. It is 10¼ inches long and 2¼ inches wide.

5H93825—Extra High Grade Enameled Thermometer. As illustrated, with scale reading to 60 degrees below zero. Shipping weight, 2⅞ pounds.
Price.....**$2.65**

5H93826—Extra High Grade Enameled Thermometer. Same as illustrated, but with scale reading not lower than 40 degrees below zero. Shipping weight, 2⅞ pounds.
Price.....**$2.45**

Storm Glass Thermometers.

Developing, rinting and Enlarging

How to Send Us Films or Negatives

lms sent to be developed should have your name and address written on the
be packed in a pasteboard box, and the box securely wrapped with paper
with string. Do not send rolls of film in an envelope, as the sharp edges
ool are almost sure to cut the envelope open in the mail.
egatives sent for prints or enlargements should be packed **flat** between two
stiff pasteboard, wrapped with paper and tied with string.
negatives sent for prints or enlargements should be packed face to face in the
ox in which they came. The box of plates should be completely surrounded
packing material, such as excelsior, and enclosed in a larger box to insure
ment.
film or film negatives may be safely and economically sent by parcel post.
e that glass negatives be sent by express, although small sizes can be sent
ly by parcel post, if they are carefully packed.
your letter how many films or negatives you are sending, with full instruc-
the work you wish us to do. On the outside of the package and also on the
which contains your instructions write "From," followed by your name
ess.
the package as follows: SEARS, ROEBUCK AND CO., Photo Finishing Department.
**er and money apart from package. Be sure to put name and address on the pack-
rite them also in pencil on the black or red paper of each roll of film.**

How to Figure the Price

**cessary that money to cover
cost of doing the work be
he time the negatives or films**
Sending us work without a
e means only delay. We must
your work aside until we have
and received a remittance.

**your letter of instructions
n your package.**

ith your letter of instructions sufficient
the entire cost of developing the films
ntire cost of printing from every
ring that all will be good. If you send
es include, in addition, a sufficient
y the postage. It sometimes happens
he negatives are not good enough to print and in such cases we make prints only from the good negatives and return whatever balance is due. For example: Suppose you send us two rolls of ten exposure 3¼x5½ film and three rolls of six-exposure film of the same size with instructions to develop the film and make one unmounted Velvet print from each good negative. The total amount you should send with your order would be as follows:

5 rolls developed.....**$0.45**
38 unmounted Velvet prints,
3¼x5½, at 5 cents each.....**1.90**
Total.....**$2.35**

If we find that part of the negatives are not good enough to print, we will send you prints from the good negatives only and return the balance of your money.

Price for Developing Roll Films.

We pay return postage on all film negatives.

Price, per roll, regardless of size or number of exposures. **9c**

NOTE—Prices quoted for developing include no prints from the negatives. If prints are desired they must be ordered extra and money allowed for them in accordance with prices for printing shown in list below.

Price for Developing Film Packs.

Price, per pack, regardless of size.....**25c**
See note above.

Prices for Prints and Post Cards.

We pay postage or express charges on all prints.

We print from original negatives only. Do not send us prints of any kind for this purpose.

We make all prints on developing (gaslight) paper and finish them in black and white, either glossy or velvet surface. Velvet prints have a very fine grained matte surface, rich in detail and pleasing in appearance. Glossy prints have a brilliant, highly polished surface. Unmounted prints are made with accurately trimmed white borders. Mounted prints are put on cards with handsomely embossed borders and mounted with dry mounting tissue so they lie perfectly flat.

Size	Velvet Prints		Glossy Prints	
	Unmounted, Each	Mounted, Each	Unmounted, Each	Mounted, Each

12, 8x14, 10x17 and 12x20 are good sizes to make from 3¼x5½ negatives.

Kewpie Enlarging Kameras

With this simple piece of apparatus, it is no trouble at all to make first class enlargements from small negatives. The process is simplicity itself and no more trouble than making a contact print from the negative. The negative is placed in the small end of the box and Argo Enlarging Paper in the other. The exposure is made by pointing the instrument toward the sky for a short time, depending upon the density of the negative. The paper is developed in the same way as a contact print. Either plates or films may be used, and they may be of the size listed or smaller.

20H543—Kewpie Enlarging Kamera making 5x7 enlargements from 2¼x3¼ negatives. Requires 5x7 Argo Enlarging Paper. Shipping weight, 3 pounds. Price.....**$2.75**

20H544—Kewpie Enlarging Kamera, making 6½x8½ enlargements from 3¼x4¼ negatives and 5x8½ enlargements from 2½x4¼ negatives. Requires 6½x8½ Argo Enlarging Paper. Shipping weight, 4 pounds. Price.....**$3.65**

Kewpie Enlarging Kamera, making 8x10 enlargements from 4x5 negaenlargements from 3¼x5½ negatives. Cuts off a little from negatives but this is in most cases an advantage. Requires 8x10 Argo Enlargshipping weight, 5 pounds. Price.....**$4.10**

Argo Enlarging Paper

This is just the paper to use with the Kewpie Enlarging Kameras. It is a chloride paper of the same general class as Darko and other developing papers, but much faster. On account of its speed it must be handled in a deep orange or ruby light to prevent fogging.

Prints made on this paper look entirely different from the ordinary bromide enlargements. They possess a snap and brilliancy which is usually found only in contact prints.

Argo Enlarging Paper is made in one degree of contrast, suitable for normal negatives. We furnish it in Semi-Matte surface, single and double weight, and in a Rough Matte surface, buff, for sepia prints.

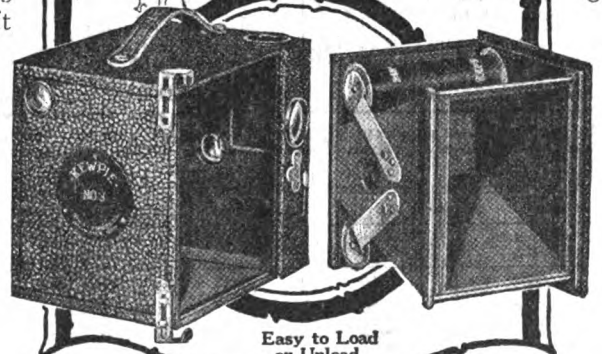
Low Prices

$2.25 to $4.95

Easy to use



REAL CAMERAS—Reliable, Simple in Construction and Surprisingly Low in Price. That's what those who have bought and used them think of KEWPIE KAMERAS.

That a camera be reliable is perhaps the most important consideration—and you can always depend on a KEWPIE to get the picture. That is why it has been such a favorite with amateurs and the surprisingly large number of owners of high priced cameras who have also bought them.

It would be hard to find a camera more simple in construction. Everything essential to the making of good pictures is built right into the KEWPIE, and everything which is not absolutely essential has been left out. The shutter is automatic and always ready for use. It requires no "setting." KEWPIES need not be focused. They are "fixed focus" cameras. No adjustments whatever need be made. Just push the lever and the picture is taken. Each lens is carefully fitted and adjusted to the camera in which it will be used. That accounts for the sharpness of detail in KEWPIE pictures.

All KEWPIE KAMERAS are identical in general design and quality. They differ in size only.

Easy to Load or Unload.

Prices

Fixed Foc

KEWPIE KAMERAS with fine single ac lenses, designed espe them. They are provided diaphragm openings, or s means of which the depth may be regulated or exp adapted to varying degrees They are equipped with a rotary shutters, making b and instantaneous exposur simple in construction, po action and easy to operate.

KEWPIE KAMERAS rugged construction, bein throughout of kiln dried prevent warping. They are with good grade keratol, wh and wears like leather. T trimmings are finished in nic or fine black enamel.

KEWPIE KAMERA the No. 2, are equipped brilliant finders, one for h pictures and one for ver tures. The No. 2 also finders, but they are of th glass and mirror style.

KEWPIE KAMERA and No. 3A are each provi two tripod sockets, one zontal pictures and one fo pictures. The No. 2, No. No. 2C Kewpies have n sockets, but time exposu be made by resting the ca any steady support.

Conley Junior Film Cameras

Sold Only by Sears, Roebuck and Co.

Four Sizes—$9.85 to $13.75

No. 3 Conley Junior Camera.

CONLEY Junior Roll Film Cameras—there are four of them, made in the sizes that are most popular with amateur photographers—are daylight loading, moderately priced, beautiful in finish and design and thoroughly practical and efficient. They are marvels of compactness, the smaller sizes slipping easily into one's coat pocket. Yet they are all so complete in their equipment as to meet every essential requirement.

An exclusive feature of these cameras is our depth of field focus scale, which shows at a glance both the maximum and minimum distances at which objects are in focus. The ordinary focus scale shows definitely only one distance at which objects are in focus, and the user must guess as to whether objects at greater or less distances will also be sharp, often resulting in pictures which are wholly or in part out of focus, or "blurred." This difficulty is overcome when you use a Conley Junior.

Modern in Every Detail. Conley Junior Cameras are made chiefly from aluminum, the sides being reinforced with ebony finish hardwood. Covering is genuine seal grain leather. All wearing parts of hard brass or steel. Bellows of "Insted" Leather, a wonderfully durable substitute for genuine leather, lined with lightproof gossamer cloth. Provided with brilliant reversible view finders, two tripod sockets, rigid all metal lens standard and folding leg.

Extra Rapid Rectilinear Lenses. Conley Junior Cameras are all equipped with Extra Rapid Rectilinear Lenses, designed expressly for these cameras. They work at F:8 (U. S. 4), which makes them just four times as fast as single achromatic lenses, and twice the speed of the F:11 rapid rectilinear lenses, usually furnished with moderate priced cameras. Each has the Victo Shutter, making time and bulb exposures of any desired length and automatically controlled exposures of 1/10, 1/25, 1/50 and 1/100 of a second; it is provided with wire push release and may also be operated by finger release and is equipped with iris diaphragm.

ds. 2A and 3A Conley Junior Cameras are identical in ith the No. 3 Conley Junior illustrated. The manner of nd the lens standard and folding leg of the No. 2 are In these details the No. 2 Junior is like the No. 2 Fixed mera illustrated below.

Film for Conley Junior and Conley Fixed Focus ameras may be bought anywhere. They use any nd—Vulcan, Eastman, Rexo, Ansco, Ensign nd others. Both Vulcan and Eastman films are ted on page 563.

PRICES

Conley Fixed Focus Folding Cameras

Sold Only by Sears, Roebuck and Co.

ocusing—No Guessing at Distances—Snapshots Always Sharp

URE TAKING with the Conley Fixed Focus Folding Cameras is simity itself. Snapshots made with these wonderful little cameras are always rp. No focusing is required, no guessing at distances—whether the sub- feet or a hundred feet away, it makes no difference; your entire picture harp. All there is to taking snapshots is to open the camera, pull out the il it automatically stops in focus, point the camera at the subject and snap re. These cameras possess all the desirable features of box cameras with dditional advantage of compactness, the No. 2 size readily slipping into pocket.

ed Focus Folding Cameras are made aluminum, the sides reinforced with hardwood, and covered with imitation leather. Wearing parts are of hard el, nicely finished in black or polished ows of "Insted" Leather, a wonderful or leather. Provided with brilliant ew finder, two tripod sockets, rigid ens standard and folding leg. The ra is illustrated. The No. 2A is idensign with the exception of the lens standard, the folding leg and the manner of closing the camera. In these details the No. 2A Fixed Focus Camera is like the No. 3 Conley Junior Camera illustrated above.

Conley Fixed Focus Folding Cameras are equipped with fine single achromatic lenses, designed especially for them, and Ultex shutters, making time and bulb exposures of any desired length and automatically controlled exposures of 1/25, 1/50 and 1/100 second. They are provided with iris diaphragms and with wire push release and may also be operated by finger release.

Digitized by Google

No. 3 Conley De Luxe.

Conley De Luxe Roll Film Camera

Sold Only by Sears, Roebuck and Co.

CONLEY De Luxe Roll Film Cameras are beautifully in every detail, handsomely finished in black enamel, nickel plated trimmings. They are graceful in appea compact and handy, and wonderfully simple in operation. are no complicated parts to confuse the owner. And sim in operation always means a greater percentage of good pic especially for the amateur.

The focusing device of these cameras is unusually convenient in operation. When the front is drawn out it automatically stops and locks in focus for a distant view. If nearer objects are to be photographed, a slight pressure of the release spring permits the front to be further extended and again automatically locked for any desired distance.

The No. 2A camera is furnished with extra long bellows extension, thus being especially suitable for making portraits of satisfactory size without employing any auxiliary or supplementary lens, a feature not to be found in many film cameras. The special focus scale on the No. 2A camera has graduations marked for 2½, 3, 4, 5, 6, 8, 10, 15, 25 and 100 feet.

The film holding device of the Conley De Luxe makes these cameras easy to load or unload, and the absence of any catches, pins or other parts on the outside of these cameras prevents mischief by meddlers. Ingeniously designed pressure springs in the film chambers and in the camera back keep the film under a slight tension, perfectly flat and exactly in the focal plane. This insures perfect focus and sharp detail.

The unusually rigid and accurate construction of the lens standard insures perfect alignment of the lens and film. This is very essential in order to utilize to the fullest extent special advantages of fast anastigmat lenses.

The rapid rectilinear lenses fu with these cameras are the e any rapid rectilinear lens sold. not so fast nor of such great c power as the anastigmat lens will be found very satisfactory f scapes and other views where a fast lens is not required.

The Luxar and Citar ana lenses furnished with these c are not surpassed in optical q by any anastigmat lens on the The increased speed and greate ing power of anastigmat lens long been appreciated by camer Our unusually low prices for De Luxe Cameras with these fin enable practically everyone to t vantage of their superiority.

The Acme shutter is a hig shutter of great efficiency. leaves form star shaped openi mitting greatest volume of l least possible time. Shutter n set before each exposure. Mak and bulb exposures of any length and automatically contro posures of 1/100, 1/200, 1/ 1/5, ½ and 1 second. Victo shut has star shaped opening and time and bulb exposures of any length and automatically contro posures of 1/10, 1/25, 1/50 and 1/100 Both shutters equipped with t phragm and provided with wi release and finger release.

Details—Conley De Luxe Cameras

Combination aluminum and ebony finished wood body, covered with leather. Very rigid U shape metal standard. Rising and falling front. Re brilliant finder. Fine black enamel finish throughout with nickel plated trim Automatic focus stop at infinity. Very accurate focus scale, locking autom at each graduation. Black "Insted" Leather (a wonderfully durable substi genuine leather) bellows with lightproof gossamer lining. Two tripod Improved film holding device, very easy to load or unload.

	Size of Camera, Closed	Net Weight
No. 2A	1¾x3⅞x8¼ inches	1 lb. 14 oz.
No. 3	1¾x4⅝x8¼ inches	1 lb. 15 oz.
No. 3A	1⅞x4¼x9¼ inches	2 lbs. 9 oz.

Film for Conley De Luxe Roll Film Cameras may be bought anywhere. They use any kind—Vulcan, Eastman, Rexo, Ansco, Ensign, etc. Both Vulcan and Eastman film are listed on page 563.

Ray Filters.

A Ray Filter absorbs the violet and ultra-violet rays of light and produces a picture in which the color values are correct. Landscapes photographed with the ray filter possess a brilliancy and contrast which it is impossible to obtain otherwise. In the photographing of clouds, flowers, paintings or any brightly colored subjects, the ray filter is practically indispensable. When used with orthochromatic plates these filters increase exposure three times.

20H1141—Suitable for use with small cameras having lenses ⅞ inch or less in diameter. Black enameled mounting. Shipping weight, 3 ounces. Price **42c**

20H1142—Adjustable for any ordinary lens with an outside diameter of 1 inch to 1¼ inches. Mounted in brass, with black enameled finish. Shipping wt., 3 ounces. Price **42c**

Kensington Film Negative Books.

A very convenient means for filing film negatives. Keeps them clean, flat and readily accessible. Each book contains 50 numbered envelopes, made of tough, translucent paper, and an index with corresponding numbers. Shipping weight, 4 ounces.

20H758—For negatives 2½x4¼ or smaller. Price, each.....**35c**

20H759—For negatives 4x5 or 3¼x5½. Price, each.....**45c**

Telescopic Metal Tripod.

This is a very light and compact three-section telescopic metal tripod, adapted to any 3¼x5½-inch or smaller camera. It is very convenient under all conditions, but especially desirable when traveling, owing to its exceedingly compact form and light weight. Very carefully made and finely finished throughout. Length, extended, 38¼ inches; closed, 15½ inches. Shipping wt., 1¼ pounds.

20H735—Price..**$1.75**

Light Sliding Tripod.

This is a Two-Section Sliding Tripod, suitable for 3¼x5½, 4x5 or smaller cameras. Made of ash, black finish. Metal parts nickel finish. Lgth., extended, 56 inches; closed, 30 in. Shipping wt., 2 pounds.

20H700
Price.**85c**

American Photography Exposure Tables.

A vest pocket book of tables giving the correct exposure at any hour of the day and any day of the year, with any brand of plates or any speed of lens. Simple and absolutely correct. Shipping weight, 1 oz.

Eastman and Vulcan Roll Film

When ordering film, look carefully for the name of your camera. If in doubt as to which style you require, measure the length of the empty spool in your camera. Spool lengths are stated for each style. As a further guide to the style you require, note the makers' number, as stated under the description of each kind. You will find this numbering both on the roll itself and on the carton in which it comes.

Vulcan and Eastman N. C. Film

Are Both Made by the Eastman Kodak Co.

Both brands are non-curling. Both are orthochromatic. Both are free from halation. Both are extremely rapid. We have made repeated tests of the two and can see no difference in the speed of the film or in the quality of the negatives.

Vulcan Film is spooled in black paper. Eastman N. C. Film is spooled in paper which is red on the outside and black on the inside.

Both Vulcan and Eastman N. C. Film may be used in autographic Kodaks and Brownies, but no record or title can be made on the film at the time of exposure.

FOR 1⅝x2½ PICTURES.

Length of spool, 1⅝ inches. Makers' numbers: Vulcan, 254; Eastman, 127. Fits the following cameras:

Pocket Kodak	No. 0 Anseo Vest Pocket

Shipping weights, 6-exposure roll, 4 ounces; 10-exposure roll, 4½ ounces.
*When used in these panoramic cameras, the "6-exposure" roll makes two and the "10-exposure" roll four 3½x12 exposures.

Eastman Autographic Film

Film is designed for use in Autographic Kodaks and Autographic Brownies. In itself is just the same as the regular Eastman N. C. Film, but there is a in the way it is spooled. A thin red paper is used, and between it and the film ip of black displacing tissue which permits the recording of writing on the film (if an Autographic Camera is used) at the time the exposure is made. Bear in mind that the autographic feature can be made use of only when this film is used in an Autographic Camera. The record can be made on the film only when the two are used together—that is, Autographic Film in an Autographic Camera.

For 1⅝x2½ Pictures.
Vest Pocket Autographic Kodak. Eastman's number A127.
H2820—8-exp. roll.....23c
Shipping weight, 1½ ounces.

For 2¼x3¼ Pictures.

For 3¼x5½ Pictures.
Fits No. 3A Autographic Kodaks or No. 3A Folding Autographic Brownie. Eastman's number A122.

20H2838— 6-exp. roll.50c
20H2839—10-exp. roll.81c
Shipping weights, 6-exposure roll, 4 ounces; 10-exposure roll, 4½ ounces.

Premo Film Packs. Use Films in Your Plate Camera

By the use of a film pack and film pack adapter you can instantly convert any plate camera, up to the 5x7 size, into a daylight loading film camera. Instead of two exposures with a plate holder, a film pack adapter occupying no more space gives you twelve exposures without reloading the camera. Each pack contains twelve films. Any number of the films may be exposed and removed without exposing the remainder.

Premo Film Packs also fit the Seneca Filmettes, Premo Juniors, Premoettes, Film Premos and other film pack cameras without an adapter.

Catalog No.	Size	Shipping Weight	Price, Each
20H1892	2¼x3¼	4 ounces	$0.45
20H1893	2½x4¼	5 ounces	.54
20H1894	3¼x4¼	6 ounces	.81
20H1895	4 x5	7 ounces	.99
20H1896	*3 x5¼	7 ounces	.90
20H1897	*3¼x5½	7 ounces	.99
20H1898	5 x7	12 ounces	1.71

The 3x5¼ Film Pack fits all 3¼x5½ cameras except the Premo and Seneca models of 1913 and later. These cameras take the full 3¼x5½ size.

Film Pack Adapters for Plate Cameras

The Film Pack Adapter is a device the same size and shape as a plate holder which enables one to use film with any ordinary glass plate camera. These adapters fit any style of Conley or Seroco cameras, also the Century, Premo, Seneca and Black Beauty cameras.

20H588

Size	Price	Shipping Weight
3¼x4¼	$1.25	5 ounces
4 x5	1.25	6 ounces
*3 x5¼	1.25	6 ounces
*3¼x5½	1.25	7 ounces
5 x7	2.05	10 ounces

*All 3¼x5½ cameras, except Premos and Senecas made since 1913, take the 3x5¼ adapter.

Improved Darko Papers and Post Cards

WE HAVE greatly improved Darko Developing Paper, something we have been trying to do for a long time. This IMPROVED DARKO is practically free from stain and fog, even with prolonged development. In addition, the prints are more brilliant and pleasing.

We have never seen a paper we liked any better than our IMPROVED DARKO. It is so good we are using it in our own Photo Finishing Department, where only a developing paper of the highest quality will work satisfactorily.

IMPROVED DARKO Papers and Post Cards are usually printed by artificial light and developed and fixed much as a negative is. There are three grades—**a grade for every negative.** They are known as Red Label, or Contrast Emulsion, for use with flat negatives; Green Label, or Medium Emulsion, for use with average negatives, and Blue Label, or Soft Emulsion, for use with very hard or contrasty negatives.

Each grade of IMPROVED DARKO is furnished in three surfaces—Glossy, Velvet and Matte. The question of surface is entirely one of personal taste. We recommend the Velvet surface for most work.

The Glossy surface is very smooth and has a high polish. Prints on this paper should be squeegeed to bring out the full degree of glossiness. The Velvet surface is of a velvety texture, midway between the Glossy and the Matte surfaces, having a slight gloss. The Matte surface is slightly rough—a perfectly dead surface without gloss. The picture to a slight extent seems to sink into the paper.

All IMPROVED DARKO, except the India Tint Darko and Darko Post Cards, is furnished in regular weight stock. The India Tint Darko and Post Cards come in double weight.

Red Label Papers.

Contrast Emulsion for Soft Negatives.

Red Label Darko Papers are suited to soft or flat negatives. They will make good prints from negatives which are flat on account of overexposure and underdevelopment. They are suited to negatives in which there is a gradual and easy blending of lights and shadows, technically known as soft negatives. They will make extra strong and contrasty prints from normal or hard negatives.

Order by catalog number.

20H1601—Glossy surface.
20H1602—Velvet surface.
20H1604—Matte surface.
See price list at right.

Blue Label Papers.

Soft Emulsion for Contrasty Negatives.

Blue Label Darko Papers are suited to very hard or contrasty negatives. Underexposed plates which have been forced in development to bring out as much detail as possible are usually harsh and contrasty, and give the best results with this grade of paper. Cloud effects and landscape negatives made with ray filters usually require this grade, and it is especially suited to portraits.

Order by catalog number.

20H1623—Glossy surface.
20H1624—Velvet surface.
20H1626—Matte surface.

Shipping weights: One dozen, 3½ ounces; one-half gross, 13 ounces.

Price, any of above surfaces and emulsions, per **dozen, 17c;** per **half gross**.....**85c**

Green Label Papers.

Medium Emulsion for Normal Negatives.

Green Label Darko Papers are suited to negatives of medium or average strength in which there is just the proper or normal degree of contrast between the lights and shadows. Negatives which have been correctly exposed and correctly developed usually yield the best prints when this grade is used.

Order by catalog number.

20H1612—Glossy surface.
20H1613—Velvet surface.
20H1615—Matte surface.
See price list at left.

India Tint Darko.

India Tint Darko is coated on a special extra heavy velvet surface stock of soft India color, so that the lights in the picture are of a delicate sepia or cream color. The paper is handled just the same as the other grades of Darko, and the India tint of the paper in contrast with the rich blacks of the picture gives an effect that is unique and exceedingly artistic. Unusually pleasing effects are obtained by using the Darko Sepia Toner with this paper, as the delicate cream tint of the paper harmonizes beautifully with the warm sepia tones, imparting to the picture the soft delicacy of an old etching. Furnished only in medium emulsion for normal negatives.

20H1617—India Tint Darko.
See price list at left above.

Photographic Plates

Hammer "Extra Fast" Orthochromatic Plates.

These plates are especially suitable for landscape views, portraits and all subjects in which color values are important, such as flowers and paintings. Landscapes made with them possess a brilliancy and contrast that cannot be obtained with ordinary plates. For full color correction, a ray filter should be used with these plates. See table at right below for net weights and shipping weights.

20H1764

Conley Plate Holders

Fit all Seroco, Conley, Century, Premo, Black Beauty and Seneca Folding and View Cameras.

The Conley Plate Holders are made with Drake's Patent Lightproof Flexible Valve and Spring Bar Plate Locking Device.

The Drake Lightproof Flexible Valve is positive prevention against light struck plates, making it impossible for the holders to leak light, even if the slide is inserted cornerwise, as the valve automatically closes up around the edges of the slide.

The Spring Bar Plate Locking Device makes it possible to load or unload the Conley Holder in total darkness with ease and without danger of touching the surface of the plate.

The following holders fit all Conley or Seroco Folding Cameras, including the 5x7 and 8x10 Conley or Seroco View Cameras and Cameras of other makes as specified above.

All these holders are made with hand rubbed mahogany finish and furnished with pressed board slides.

Photographic Chemicals and Supplies

Red Seal Developing Powders for Plates or Films

We furnish, under the Red Seal brand, a line of developing powders for plates or films which is of exceptional quality. These powders are put up in tightly sealed tubes, six tubes to the package. Only the purest chemicals are used in compounding these powders, and we recommend them as very satisfactory in results, very simple and convenient to use, and economical.

Red Seal Pyro Developing Powders, 21 Cents.

For Developing Plates or Films.

Pyro is absolutely the best developer for plates or films. Each tube makes 18 ounces of solution for six-minute tray development, or 36 ounces for twenty-minute tank development at 65 degrees. Some workers object to pyro because of its tendency to stain the hands, but so far as results are concerned we believe pyro is the best developer that can be used. Shipping weight, 6 ounces.

20H1949—Price, per package of **6** tubes.....**21c**

Red Seal Hydro-Metol Developing Powders, 22 Cents.

Contrast Formula for Plates or Films.

Yields negatives of great brilliancy and a marked degree of contrast. Each tube makes 8 ounces of developer for tray development, the complete package of six tubes making 48 ounces. Shipping weight, 5 ounces.

20H1951—Price, per package of **6** tubes.....**22c**

NOTE—Metol sometimes has an irritating or poisonous effect on the skin of some individuals, and those who are susceptible to it should select a developer which does not contain metol.

Red Seal Hydro-Metol Developing Powders, 22 Cents.

Soft Formula for Plates or Films.

Yields soft negatives with abundant detail. Each tube makes 8 ounces of developer for tray development, the complete package of six tubes making 48 ounces. Shipping weight, 5 ounces.

20H1953—Price, per package of **6** tubes.....**22c**

Neg-Dry, 23 Cents.

A hardening solution for either plates or films. Negatives treated with Neg-Dry may be dried in less than five minutes after they have been washed by placing them in this preparation and drying them by artificial heat. Neg-Dry also eliminates all traces of hypo that may not have been washed out of the film. This preparation may be used over and over again. Shpg. wt., 13 oz.

20H1980—Price, per bottle...**23c**

Red Seal Developing Powders for Developing Papers

Red Seal Developing Powders for papers are very simple and easy t It is only necessary to dissolve the contents of one tube in 8 ounces of wat the developer is ready for use. They are packed in boxes, as illustrated, six to the box, so each box makes 48 ounces of developer ready for use.

Red Seal Hydro-Metol Powders, 22 Cents.

Regular. For Bluish Black Tones.

A combination of hydrochinon and metol which gives bluish black tones. We recommend this developer in preference to any other for velvet and matte surface papers. Shipping weight, 5 ounces.

20H1936—Price per box of **6** tubes.....**22c**

NOTE—Metol sometimes has an irritating or poisonous effect on the skin of some persons. Those who are susceptibl should select a developer which does not contain metol.

Red Seal Hydro-Metol Powders, 22 Cents.

Anti-Friction. For Olive Black Tones.

A combination of hydrochinon and metol which gives olive black tones. powders are put up under a special formula which prevents the dark li irregular markings known as friction or abrasion marks, which often di prints on glossy papers. Shipping weight, 5 ounces.

20H1937—Price, per box of **6** tubes.....

Red Seal Amidol Powders, 22 Cents.

For Developing Prints.

A developer which yields ve blue black tones and is suitable with any standard developing pa post cards. A very satisfactory oper for prints. Shipping weigh

Perfection Blotter Book for drying prints flat. Has twelve sheets of lintless blotting paper, 9x12 inches, interleaved with a fine quality of wax paper, all bound in heavy manila covers. Shipping weight, 13 ounces.

20H1528—Price.....**23c**

Blotting Paper.

20H1526—Photographers' Blotting Paper for drying or mounting prints, free from lint. **State size.**

Size, 9x12 in. Shpg. wt., 10 oz. Per doz....**14c**
Size, 19x24 in. Shpg. wt., 2 lbs. 3 oz. Doz...**45c**

Reducing Powders, 27 Cents.

Negatives which from over development or other causes are too dense can be quickly reduced to the proper density for printing by the use of this preparation. The powders are put up in packages containing twelve powders and each powder makes 10 ounces of reducing solution. For use they are simply dissolved in water. Shipping weight, 3 ounces.

20H1972—Price, per box.....**27c**

Intensifying Powders, 27 Cents.

A weak, thin negative lacking in contrast may be greatly improved by intensification, and this powder is a very convenient means of preparing a good intensifier. It requires only to be dissolved in water to be made ready for use, forming a simple and easy method of intensification. Each package makes 24 ounces of solution. Shipping weight, 5 ounces.

20H1970—Price, per package.....**27c**

Red Seal Hypo.

(Hyposulphite of Sodium.)

We furnish hypo in two forms, pea crystal and granular. The pea crystals, as the name implies, are simply small crystals. The granular is made by crushing or grinding the crystal hypo until it is about like coarse granulated sugar. This form dissolves very readily and is convenient to use.

Pea Crystal Hypo.

20H2156—In 1-lb. carton. Shpg. wt., 1½ lbs. Per pound.....**9c**

Polish For Squeegee Plates.

A dry preparation for polishing ferrotype or squeegee plates to prevent the prints sticking to them. Shpg. wt., 2 oz.

20H1548—Price, per box.....**12c**

Electric Printer and Safelight.

Makes printing certain, as exposures are under accurate control. Made of wood with ventilated metal panels. Prints from films or glass negatives of any size up to and including 5x7. A hinged door operated from outside the box divides box into two compartments. Socket for electric lamp is in lower compartment. Exposure is made by raising and lowering the door. There is a safelight by which the operator can see to place the paper on the negative. A yellow window in the side forms a safelight by which to develop prints. Replacing this with a ruby glass, 3¼x5¼ inches, the printer becomes a darkroom lamp.

20H1423—Electric Printer and Safelight, co with 6 feet of cord, plug and socket, without lamp, ping weight, 5 pounds. Price.....

Ground Glass.

Ground glass, 5x7 inches. This glass fits the Printer and Safelight. Shipping weight, 2 pounds 2

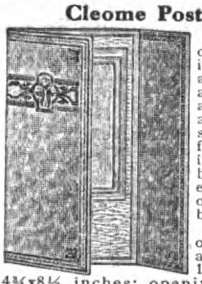
Peerless Japanese Transparent Water Colors.

All the enchantment of color photography is available to everyone by the use of these Water Colors. Charming color effects may be secured on your favorite landscape or portrait prints by this fascinating and simple method. These water colors may also be used for sketching on water color paper, coloring post cards or maps, and in an infinite number of other ways. Colors flow smoothly and evenly over any paper surface and, combined, will form an almost unlimited number of shades and tints. Their wonderful **blending qualities** have made them favorites everywhere.

The fifteen colors are in the form of color films, the most convenient form for keeping colors clean and instantly available. Films bound into booklet with interleaf of instructions preceding each color. Colors: Brilliant yellow, deep yellow, orange, flesh, geranium pink, scarlet, royal crimson, mahogany, sepia, light green, dark green, sky blue, dark blue, wistaria violet and pearl gray.

Outfit contains, in addition to booklet of colors, two brushes, bottle of eradicator, film of sizing and book of instructions for slide coloring. Shipping weight, 8 ounces.

20H1921—Price.....**$1.48**



Osaka Transparent Water Colors.

A box of twelve dry colors in pans. One each of blue, yellow, brown, pink, violet, magenta, orange, green, red, new rose, white and black. Two good brushes included for applying colors. Shipping weight, 4 ounces.

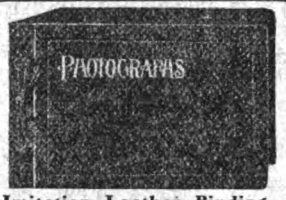
Keep Your Pictures Safely in Highest Quality Loose Leaf Photo Albums

Each Album Contains 100 Pages (50 Black Flexible Leaves).



We handle only the best grade photo albums. They are well bound and attractive in appearance. The leaves are of the Egyptian black tint, harmonizing with almost any kind of print, and are made of strong, tough paper, the best grade used for album leaves. This paper keeps its color indefinitely and will give years of service.

The leaves of these albums are removable, permitting the arrangement of the photographs to be changed at will; old leaves may be taken out, new ones put in or rearrangements made at any time. Both covers and leaves are flexible and the albums are bound in such a manner that they always lie perfectly flat whether op

Photograph the Baby!

Keep a Record of All the Little Incidents of Baby Days.

"Our Baby" Loose Leaf Album is an excellent place to keep Baby's pictures, with notes of incidents and dates pictures were taken. In it you can keep a lock of Baby's hair, little ribbons from Baby's first dress, a record of Baby's weight at different ages, the days Baby learned to crawl, to walk, to talk; pictures of Baby's first shoes and tiny mittens; pictures of Baby splashing in the bathtub and in all the winning Baby poses.

Album is nicely bound in linen finish black cloth or genuine seal grain leather, lettered in gilt. It has fifty alternate removable black and white leaves (25 black and 25 white), the black leaves for pictures, the white leaves for notes. Special title leaf with illustrations is provided for recording name and birthday of baby and where born. Size of leaves, 7x10 inches. Shipping weight, 1¼ pounds.

20H3065—Cloth Binding **$1.15**
20H3066—Genuine Seal Grain Leather Binding **2.80**

"My Memory Book" Loose Leaf

An attractive loose leaf album containing forty black leaves for mounting photographs, clippings, wedding, birth and obituary notices, pressed flowers and leaves, programs, press notices, etc. Has two white leaves (four pages) in front of book, entitled in attractive lettering, "Friends o' Mine," with spaces for autographs, addresses and date.

The leaves are removable, so new leaves may be added, damaged ones replaced or the arrangement changed at will. Comes in two bindings, linen finish black cloth with gilt lettering, or imitation mission grain leather with embossed title and design.

Lexington Albums

83 Cents and Up

These are very attractive medium priced albums, bound either in black bookbinders' cloth; imitation leather with horn back, alligator grain; or genuine leather, with elephant grain. The illustration shows imitation leather. Capacities are from 200 to 500 post cards, as indicated below.

No paste is needed to mount cards in these albums. Small segments of a circle are cut in proper position in the leaves and the corners of the cards slip easily into them. Thus the cards may be quickly removed if it is desired at any ti the arrangement.

China, Glass and Lamps

mplete line of China, Glass and Lamps that we carry is shown on this llowing thirteen pages.

will examine these pages we believe you will find that our prices on , glassware, lamps and allied lines are unusually low and that you will stantial savings by sending us your order.

arantee safe delivery and will replace, without extra charge, all pieces damaged in transit. We also guarantee to replace, without extra charge, that may prove defective in material or workmanship. We pay transportges on all replacements.

ng sizes (or capacity) in this catalog, we have endeavored, as nearly as o approximate the actual size, but it must be borne in mind that in pottery and glass which is made by hand, through the agency of fire, there will always be a slight variation in exactly the same articles. No endeavor is made to carry the size or capacity closer than one-quarter inch and one-quarter pint. The article therefore may vary within these limits and be correspondingly slightly larger or slightly smaller than the size or capacity given. Our object in stating the size is to convey to the mind a general idea of size and appearance which would be conveyed through the eyes if the article itself was before you.

You take no risk in buying from us, because we guarantee that every article you purchase from us must satisfy you perfectly. If, for any reason, any article does not please you, you are at liberty to send it back to us, and we will, at once, return your money, together with any transportation charges you may have paid.

For Silver Plated Tableware see pages 424 and 425.

SNOWFLAKE WHITE DINNER SET

Made of fine quality of white semi-porcelain (semi-vitreous china). **The ware is pure white in color with a glossy glaze, and great care has been used in selection. Every piece is carefully modeled with an attractive embossing around the edges. The ware is exceptionally light in weight for semi-porcelain, yet at the same time, on account of its quality it is strong and durable. Our Snowflake white dinnerware on account of its good quality and attractive shape with ornamental embossing is an especially desirable white semi-porcelain dinner set. We have just reduced the price very greatly, in fact, the present prices are below pre-war prices. At these new low prices the Snowflake white dinnerware is very much cheaper in price than any other high grade white dinnerware.**

BLUE MEDALLION BUNGALOW DINNER SET

coration represents a new and popular style in dinnerware. Each piece is round the edge with a narrow band of bright blue which resembles enamel. is narrow blue band are fancy blue medallions connected with a fine blue hair- handles are decorated with blue tracings. The contrast between the dainty blue decoration and the pure white china is such that it sets it off in the most attractive manner. While it is extensively used for cottage and bungalow, this dinner set makes a very handsome and attractive dinner set for the home. It is neat, dainty and pleasing. Made of pure white semi-porcelain in the plain edge Empress shape.

38—Blue Bungalow Dinnerware. For list of pieces in the complete sets see page 569.

GOLD BAND DINNER SET

The decoration on this set consists of a wide band of bright gold around the edge of each piece with an additional gold band around the center of the covered dish, sugar bowl, cream pitcher, sauce boat and pitcher. The handles are also traced with bright gold. This set is made of pure white semi-porcelain, in a plain edge shape, which will appeal to people of refinement. The gold band is the full standard width, the same width and style as is used on the higher priced gold band sets. Our price for this set is very low, having been reduced again. This is an unusual bargain in high grade gold band dinnerware, which continues its steadily growing popularity each year and remains a criterion of good taste.

CARNATION BEAUTY GOLD ORNAMENTED DINNER SET

a dinner set which is very pleasing. The decoration is quite a striking one from what you usually see. It consists of large pink carnations entwined violets and green foliage forming large sprays, while between each spray large gold ornament of attractive design which adds much to the brightness of the decoration. The fancy ornamental handles and knobs are traced with bright gold. The shape is a reproduction of a popular French shape and is richly embossed around the edges and also around the center of the covered dish and the sauce boat and around bottom of pitchers and sugar bowl. The set is made of pure white semi-porcelain.

FLYING BLUEBIRD DINNER SET

This Bluebird Decoration is greatly admired and is unusually chic and pretty. This decoration consists of Flying Bluebirds, "the emblem of peace and happiness," with a background of apple blossoms and green foliage in natural colors. The edge of each piece is trimmed with a blue band which harmonizes with the bluebirds in color. The handles are traced in blue to match. This attractive dinner set is made of pure white semi-porcelain in a popular plain edge shape. Please note carefully the Bluebird decoration on this set. It is not the cheap, gaudily colored pattern often seen, but is a pattern of unusual daintiness and charm, with all its colors soft and pleasing.

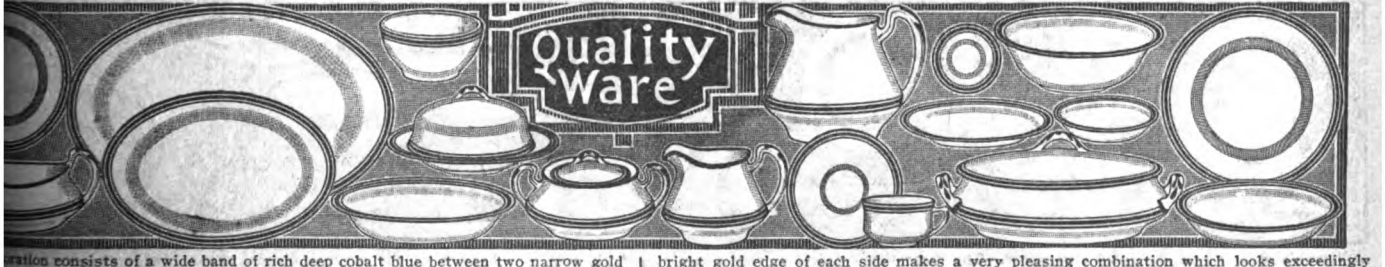
ROSE AND LATTICE BORDER DINNER SET



There is a great demand at present for dinner sets with rose borders in semi-conventional designs, a style of decoration made so popular by the Havilands. This very pretty pattern has a black and tan lattice border with panels of pink roses inserted here and there, which alternate with a large pink rose mounted in a medallion. Around the inside edge of the border is a narrow sepia colored band. On the outside of the border and around the edge of each piece there is a narrow bright gold band. The handles are also traced with gold. The set is made of pure white semi-porcelain in a good looking plain edge shape. This is our most popular high grade border pattern and the price is **very** low.

WHITE AND GOLD BRIGHT GOLD BAND EDGE WITH GOLD CARNATION BORDER DINNER SET

This dinner set combines the elegance of a gold band with the decorativeness of a gold lace border. The decoration of this set consists of a bright gold band around the edge of each piece and an ornamental gold border in floral (carnation) design which is very attractive and of unusual richness. Inside the cups, on the large pieces and on the shoulder of the plates there is an additional gold line. All handles are gold t gold floral border which adorns this set is sure to please everyone, no matte criminating, for there is something very dainty and attractive about these gold Made of pure white semi-porcelain in a popular plain edge shape.

35H290—White and Gold Dinnerware. For list of pieces in the complete sets see page 569.

YELLOW MATTE GOLD BAND DINNER SET

The decoration, which is very rich in appearance, consists of a band of yellow matte gold (guaranteed to be 18-karat) around the edge of each piece. In addition to this matte gold band on the edge, the covered dish, sugar bowl, creamer, pitcher and sauce boat have a gold band around the center. The handles of these pieces and of the cups are heavily covered with 18-karat yellow matte gold. Please bear in mind that the gold u sets is strictly first quality genuine gold, the same as is used on the fine Frenc piece is stamped "Warranted 18-karat gold." Made of fine quality semi-po beautiful plain edge shape. A high grade dinner pattern.

PINK ROSE AND DAISY BORDER DOUBLE GOLD TRIMMED DINNER SET

An exceptionally dainty and pleasing high grade border pattern. The decoration consists of a border of small pink roses alternating with delicate yellow daisies which are connected together by green leaves and stems on a soft toned latticework background. Around the outside edge of this border is a bright gold band and on the inside edge of the border there is a bright gold hairline. This double gold treatment sets off th most pleasingly. The handles are full gold traced. Made of fine quality pure porcelain, in the plain edge Empress shape. For those who want a set th refinement and beauty in the decoration we recommend this pattern.

YELLOW MATTE GOLD DINNER SET

Very elaborately gold decorated dinnerware. The decoration consists of yellow matte gold (warranted 18-karat) which is applied around the edge of each piece and over the fancy embossing in such a manner as to make it a most attractive gold decorated set. The handles are heavily covered with yellow matte gold. In addition to being covered with gold, the handles of the covered dishes, sugar bowl and butter dish with gold in ribbon bowknot design on the cover. The fancy shape, which is is fast becoming one of the most popular shapes. It is a copy of one of the dinner sets. The set is made of fine quality pure white semi-porcelain.

Price, each...$8.85
For metal water cooler see page 833.

Cooking and Baking Glassware.

Clear glass dishes of high thermal endurance, comprising great strength with low expansion. Bake an even crust top and bottom. Clean and economical in service. In baking, oven heat is transmitted to the food uniformly on all sides, top and bottom.

This glass is clean and clear and most appropriate for serving on the dining table because of its neat appearance and transparency. It does not chip, as all edges are round. It has twice the strength and more than twice the thermal endurance of common glass; and if handled with ordinary care it can be used continuously for years.

35H679—Oval Casserole With Cover. 9½x7 inches. Capacity, 3 pints. Weight, 4 pounds.

For metal coffeepots and teapots see pages 424 and 828 to 831.

OUR IMPROVED HOME BUTTER MAKER.

Sanitary, Simple. **Practical, Durable.**

Economical Home Butter Maker, fitted with two special features, namely, a Screw Metal Top and a Heavy Steel Supporting Handle. These features have two advantages. (1) The metal screw top prevents the milk or cream from splashing or working out of the churn and makes it unnecessary to hold the top on when churning. (2) The heavy steel supporting handle on the cover enables you to hold the churn steady on the table with your left hand while churning with the right hand.

These two features make this a most practical and satisfactory churn.

Illustration Shows How the Churn Is Operated.

Simple, economical, sanitary and very easy running. The cover, wheel, stem, handle, paddle, in fact all of the metal working parts, are made of steel, nickel plated. The handle is fitted with a wooden grip which makes churning easy. The jar is made of heavy clear crystal glass measuring 6x8 inches with a capacity of one gallon. There are no wooden or other insanitary parts which will absorb the butter and become rancid.

This machine can also be used as a cake or batter mixer, cream and egg beater. Even if you do not make your own butter you should have one of these churns in your home, for it will combine 1 pound of common commercial butter with an equal weight of milk and make 2 pounds of fresh, healthful milk charged table butter. Full instructions accompany each churn. Weight, packed, 10 pounds.

35H529 Price **$2.50**

35H795—Price

The Famous ANGLE LAMP

These remarkable Oil Lamps differ entirely in construction from the ordinary old fashioned lamp, in which the burner is above the oil tank. In the Angle Lamp the burner projects from the side of the oil tank, the light burning in a big, round glass bowl instead of in an ordinary chimney. All the light comes directly down where it is wanted, instead of being cut off by the shadow of the oil tank. The Angle Lamps are made of steel in either antique brass finish or nickel plated finish. Some of the advantages of the Angle Lamp are:

Saves Money. The flame of an Angle Lamp being in the bowl instead of a narrow chimney, burns less oil and more oxygen, enabling an Angle Lamp to burn fully twenty hours on a quart of oil, as compared to about ten hours for an ordinary Rochester burner. At the present price of oil the money saved on the oil bill will pay the entire cost of the Angle Lamp within a year.

Easy to light and easy to extinguish. To light the lamp just lift up the burner latch and light the wick. To extinguish the lamp it is not necessary to remove the glass, but just turn the wick back and it will automatically go out. No need to blow it out. The Angle Lamp is unaffected by drafts.

Easy to fill. To fill the Angle Lamp it is not necessary to take it down. Lift out the oil tank and fill it and the lamp goes on burning.

No smoky glass and no heat. The bowl being below, the flame cannot smoke the chimney and cut off the light. No washing of chimneys every day. Owing to the big bowl and funnel shape chimney, the heat is absorbed. You can work as close as you want to an Angle Lamp.

Splendid for the eyes. The soft yellow radiance cast by the Angle Lamp is fine for reading, working or sewing. No eye strain from brilliant white glare. Angle Lamp light comes from above—no glare in the eyes, no shadows.

DOUBLE BURNER HANGING LAMP.
Holds 1½ quarts of oil. Plain steel fount, nickel plated or antique brass finish. Shipping weight, 18 pounds.

35H872—Brass. Price 7.95

"EVER-BRITE" Gasoline Table Lamp

Lights With a Match

The "Ever-Brite" Lamp is all that the name implies. It produces a light of unusually high candle power, which is of greater volume than that produced by twenty ordinary No. 2 flat wick kerosene lamps. Its consumption of fuel is very small, being only 4 pints of gasoline in twenty-four hours' continuous burning. In other words, you can burn this lamp three hours a night for a month on about 1½ gallons of gasoline. It is fitted with two mantles, and for this reason it casts no shadows, which is a very great advantage, as users of ordinary kerosene lamps will quickly realize.

The quality of light approaches sunlight, which makes it easy on the eyes and shows colors in their true values. The light is absolutely steady—no flicker or smoke, which makes reading and sewing under it a pleasure.

It is simple, convenient, safe, clean and economical. It lights almost instantly with an ordinary parlor match. Anyone can operate it.

There are no complicated parts to get out of order and no trouble. It requires practically no attention.

It requires filling only once a week, and a few strokes with a small hand pump every two or three days to keep up the air pressure.

Absolutely safe. The fuel has only one outlet—a tiny hole in the generator—**so there is absolutely no danger.** The lamp can be turned over and over and will burn safely in any position. **If filled by daylight, there is no chance of accident.**

The lamp gives off no smoke, soot or odor. It has no wick to trim, no chimney to clean or break. It cannot leak or become oily; it is absolutely airtight and clean as a dish to handle.

Built for lifelong service and everyday satisfaction. All exposed parts of the "Ever-Brite" Lamp, base and burner, are made of heavy brass, nickel plated. The standard is made of brass and is covered with heavy black wood, which adds to the appearance of the lamp and forms a cool handle for carrying. The height of the lamp is 22 inches and the diameter of the base, which contains the fount, is 8 inches. Capacity of fount, 2 quarts.

Our New Lighting Fixture Catalog

Ask for It

Send for This Book Today

THE lighting is a most important feature of a well appointed home. Our new Lighting Fixture Catalog illustrates a comprehensive line of Lighting Fixtures, embodying the latest ideas in modern illumination. It also contains a complete selection of standard electrical house wiring materials, lighting glassware and portable lamps. It will pay you to send for this catalog. Quality should be considered when buying lighting fixtures. Quality is the foundation of our line, and our liberal guarantee protects you.

Our Lighting Fixture Catalog also lists:

Art Domes
Brackets
Chandeliers
Cleats
Clusters
Conduits
Desk Lamps
Domes
Drop Cords
Floor Lamps
Glassware
Insulating Joints

Have you been thinking of putting a new lighting fixture in your living room or dining room, something to replace the old one that's an eyesore to you? Or is the lighting of the bedroom bad, making it hard to see how to dress? Why not put that new fixture in right away?

Perhaps you have a house or an apartment to rent or sell. Why not make it more beautiful and valuable by installing attractive Lighting Fixtures? The increase in the rent or sale price will pay for the fixtures many times over.

Our electric fixtures are properly constructed and wired for use with either city current or any home lighting plant.

Our fixtures are shipped to you completely assembled, wired ready to hang, fitted with "NOTORCH" attachments, which enables you to install them without the use of a soldering torch or any tools other than a screwdriver.

Don't delay—write today for your copy of our new Lighting Fixture Catalog 416GC. We will send it to you postpaid. Take advantage of our low prices and order your lighting fixtures at your earliest opportunity.

Our Lighting Fixture Catalog also lists:

Outlet Boxes
Plugs
Receptacles
Rubber Covered Wire
Shades
Sockets
Switches
Table Lamps
Tungsten Lamps

Our fixtures are approved by the Underwriters' Laboratories, Inc., under the direction of the National Board of Fire Underwriters, and each and every fixture bears their stamp of approval in the form of a serial numbered label.

School Furniture

THE MAJESTIC is our highest grade school desk. It embodies everything required in a desk of this type. It is properly designed, well constructed, and will give a lifetime of satisfactory service. Neither comfort nor beauty has been sacrificed to gain additional strength found in the Majestic. The correct shape of the back seat prompts the pupil to assume an erect, proper, yet comfortable position.

The Majestic Has Many Special Features

Wood Parts—Michigan hard maple. Back and seat curved as in illustration; top slightly sloped.

Castings—Semi-steel, finished in black enamel, baked on.

Finish—A durable varnish finish. Golden natural color.

Seat Hinge—Simple in construction, noiseless in operation and designed to last as long as the desk.

End Panel—The beautiful pillar effect adds to the appearance and at the same time admits light and air into the book box.

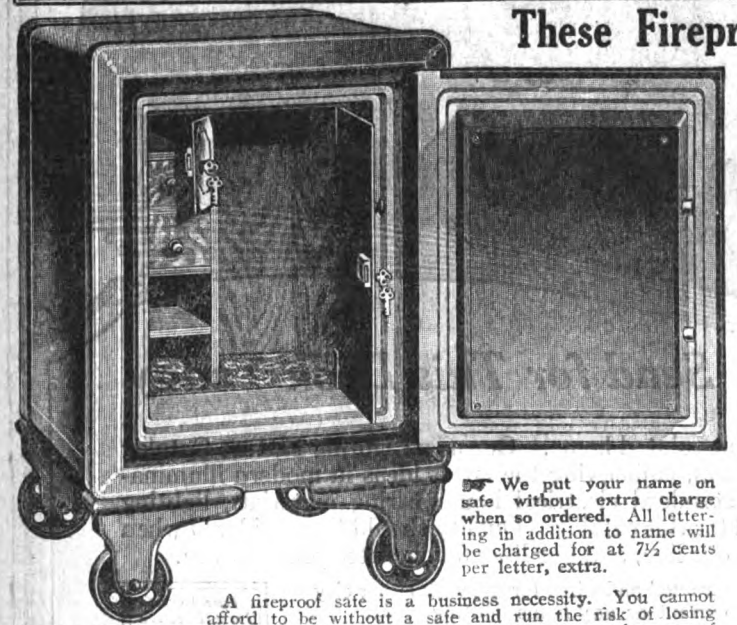
Inkwells—Majestic Desks are equipped with inkwells of the latest, most approved type, with the exception of sizes 5 and 6, with which inkwells are not furnished. These two sizes are for the little tots in first, second and third grades, where no pen writing is done.

Sanitary Features—All corners rounded to eliminate dust pockets. Feet filled in to facilitate sweeping and prevent accumulation of dirt.

Shipped from factory in SOUTHERN MICHIGAN.

Our Guarantee

We guarantee Majestic Desks for a lifetime. We will replace free of charge and will pay all transportation charges on any parts which break in transit, or any parts which, through defect in material or construction, break after the desks have been installed in the schoolroom.



Every school ou should have a copy our School Furniture Supplies Catalog 59 It contains our comp line of school desks, cluding non-adjust and adjustable. In dition, we quote pr globes, blackboards, School officials in e part of the cou have found it to t advantage to purc equipment from us cause our quality st ards are high and prices are such they can save cons able money on yearly requirements

These Fireproof Safes Will Protect Your Valua

We put your name on safe without extra charge when so ordered. All lettering in addition to name will be charged for at 7½ cents per letter, extra.

A fireproof safe is a business necessity. You cannot afford to be without a safe and run the risk of losing important papers and other valuables by fire or theft, when you can buy one of these fireproof safes at such a low price. These safes give you full protection at much lower prices than you would have to pay elsewhere for standard safes of equal value. Be sure to buy a safe large enough to hold all your valuables and allow for growing business.

Made of tough steel with double bottom for great strength. Walls are filled with a fireproof filling that has stood many fire tests. Doors are made with tongue and groove construction that absolutely excludes heat, smoke or flames from contents of safe in case of fire. Interlocking flange prevents door from being broken open, even if hinges are knocked off. Three-tumbler combination locks are furnished on all sizes. Our best safes, 22H1881 and 22H1882, have Yale O. B. B. combination lock. All other sizes have our own special combination lock. We always recommend ordering safe with inner door, as it gives more privacy and greater security. Cabinet work is finished in imitation cherry with oak drawer fronts. Cash boxes and lock drawers have good quality locks with two keys.

Specially arranged cabinets can be made to your order. We cannot make any changes in measurements of safe bodies, but we can change cabinets to any arrangement you want, adding or leaving out drawers and pigeonholes. If a specially arranged cabinet is wanted, send a diagram with measurements and we will tell you the additional cost, if any.

Ten days required to make shipment from our factory in Newark, Ohio. We put on the final coats of varnish, decorating and lettering after your order is received. This assures you a high class fresh finish. Carefully wrapped and padded and packed in burlap to insure safe delivery in first class condition.

Measurements and Prices.

Our best safe. Fireproof walls, 5½ inches thick. The 5½-inch wall will naturally withstand a fiercer prolonged fire than the lighter 4-inch walls of our other safes. Yale O. B. B. combination lock. Height, including wheels, 35½ inches. Inside measures 19 inches high, 13¾ inches wide, 14 inches deep. Shipping weight, about 972 pounds.

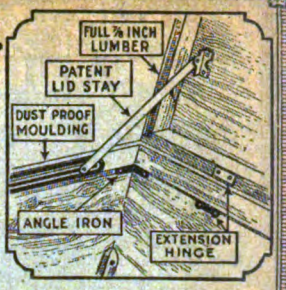
Why Our Cedar Chests Are the Best

...L TRAYS ARE THREE-QUARTER LENGTH.

Material—Nothing but selected fragrant Tennessee red cedar is used in our chests, every piece of which is thoroughly dried and properly seasoned in our modern kilns. It is absolutely necessary to do this, since without properly seasoned material it is impossible to produce quality work. After seasoning and machining, a great deal of care is required in selection, as Tennessee cedar is full of defects, mostly streaks of white sap, large black knots and dry rot. These are all eliminated by us, which necessarily means a large percentage of waste. Small knots are not a defect, in fact they are a necessity, as most of the cedar oil that produces the fragrance is contained in the knots. They also add to the beauty of the grain.



Construction—In constructing we use all fragrant solid red cedar finished ⅝ inch thick.

The Corner Construction—The corner construction has been acknowledged the best self locking corner ever used in the manufacture of cedar chests. No nails, dowels or screws to mar the beauty on the side. Joints are locked together and glued. This makes it impossible for them to open.

Workmanship—Our chests are the product of skilled cabinetmakers—geniune mechanics of the old school, to whom perfection has become a habit. Every chest is accorded the same individual care in both workmanship and selection of materials to make it a genuine piece of art. Every joint is carefully fitted. All lids are made to fit snug and tight and overlap on the joint, insuring a chest that will be permanent proof against moths, vermin and dust.

Finishing—The natural non-fading red cedar color is maintained throughout in finishing, after being sanded perfectly smooth; no stains, acids or other preparations are used. These are unnecessary when the cedar is well selected as to color. Each chest is given a soft, velvety finish with high grade varnish finish. We give some of our chests a rubbed finish on the top only and others a rubbed finish throughout. This rubbing is done by hand and the varnish is rubbed down to a beautiful polish, making each chest a very fine piece of furniture.

All our Cedar Chests are equipped with roller casters, wood handles and substantial locks. (Two keys.) The hinges and patent lid stays are plain metal, polished. We use only genuine 10-ounce copper for trimming our cedar chests.

A Cedar Chest Is Like An Insurance Policy

It insures your furs, linens and clothes against damage or destruction by moths, mice, dust, etc.

Coal

Fibre-Craf

WHAT IS FIBRE-CRAFT?

Fibre-Craft is made of wood pulp, twisted into long, smooth, pliable, fibrelike strands of uniform size, bling reeds. See illustration to the left. The process of manufacture makes them strong, resistant to and extremes of climate. These strands are woven by hand over the furniture frames, making durable furniture which is capable of withstanding hard usage.

Four-Piece Fibre-Craft Set. Unusually attractive. Can be had in choice of two finishes: Light golden brown or rich ivory finish, with cretonne upholstering. The settee, rocker and chair of this set are made with full spring construction. Have thick, soft, removable seat cushions. Frames are of hardwood, over which is woven the Fibre-Craft material, as described above.

overings Used on Our Upholstered Furniture

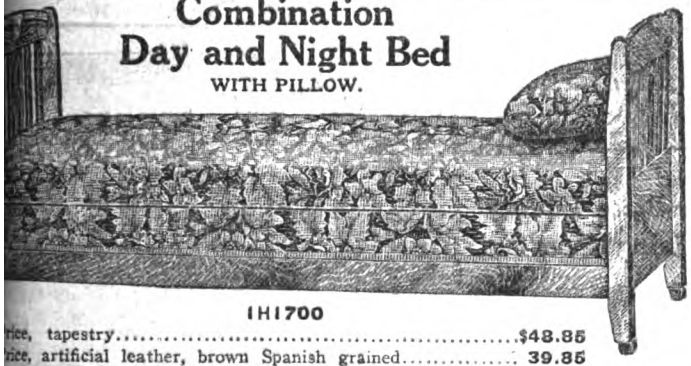
Genuine Leather.

ne of the most satisfactory and popular of all upholstery coverings, not only se of its superior wearing qualities, but also because it is soft and pliable lways presents an attractive appearance. We list practically every number r upholstered furniture in genuine leather and we advise our customers to t in preference to artificial leather. The grain of the surface of the genuine r, brown Spanish grained, produces a rich mottled effect which greatly es the beauty of the piece of furniture on which it is used.

Tapestry.

e tapestry which we furnish on our Parlor Furniture is of especially tive design. The predominating color is **dark green with tan, red, brown** ack, **all richly blended.** Heavy and closely woven.

Artificial Leather.



The body of the material is made of heavy sateen fabric, coated, finished and grained in imitation of hand buffed black leather or in imitation of genuine leather, brown Spanish grained. Either makes a strong and attractive furniture covering and will give lasting good service.

Velour.

A stylish and very serviceable cloth covering. It is made of mercerized cotton. It has a soft nap, single tone colors in either mulberry or Holland blue, which are the most popular colors. A floral figure is put into this covering by clipping the top of the nap, which also produces a self two-tone effect. **State color desired.**

MASSIVE—HIGH QUALITY FUMED OAK SET

Specially Attractive — Fashionable Design

Four-Piece Library or Living Room Set

This very desirable set is modeled in the old Flanders design much sought after by lovers of choice furniture. Ordinarily a set of this fashionable design and very superior quality is sold only by exclusive dealers and priced very high. Our policy of giving our customers the benefit of BETTER FURNITURE FOR LESS MONEY is well typified in this set.

Settee. Full box spring seat measures **26x72** inches. Height of back from seat, **18½** inches; length outside, **80** inches. Shipping weight, about 165 pounds.

Rocker and Chair. Size of seats, **21x21** inches. Height of backs from seats, **19½** inches. Shipping weight, about 78 pounds for chair and about 85 pounds for rocker.

Made of quarter-sawed oak, fumed finish (a rich nut brown color). Seats of settee, chair and rocker have full steel coil spring construction and are thoroughly well upholstered in GENUINE LEATHER, brown Spanish grained. Particularly notable are the very artistically designed back and end panels and the massive legs and back posts. Steel sliding casters.

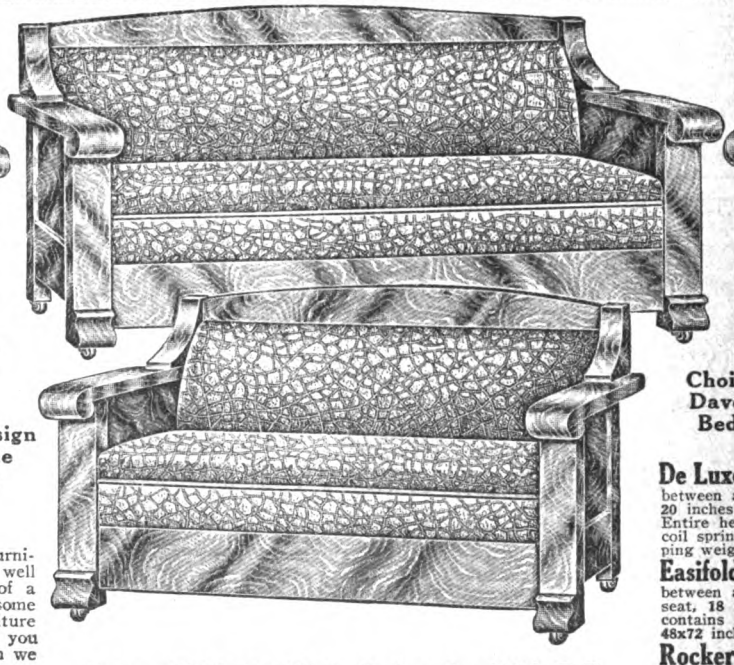
Pad Mattresses for Upholstered Bed Davenports

A good, serviceable pad, soft and comfortable. Made with 1½-inch box edges. Covered with good quality floral art pattern ticking. While this pad will give good service, we recommend that you purchase either 1H7213 or 1H7214, both of which are thicker, heavier and much better in every way. Weight, 18 pounds. Size, 47x72 inches.

1H7210—Price $3.88

The mattress to buy! Has the same construction as our regular high grade felted cotton mattresses. A good thick pad with a soft, springy felted cotton stock filling. This cotton is fleeced, worked and felted into layers, then encased in the ticking. Securely tufted, evenly placed and firmly bound with strong stays. As comfortable a mattress for davenport as anybody might wish for. Has 2½-inch box edges, with extra side row stitches. The ticking is a strong, serviceable grade in a pretty floral design, very attractive. Weighs full 25 pounds. Size, 47x72 inches.



1H7214—Price $6.38

A medium priced pad of unusual comfort giving qualities. Made of built-up layers of felted cotton stock, the same as our regular high grade felted cotton mattresses. It has 2-inch box edges. Securely tufted, all even and firmly held in place with strong stays. Good quality floral art pattern ticking. Weight, 20 pounds. Size 47x72 inches.

1H7213—Price $4.9

Simple, Graceful Lines of Design Combined With Comfortable Upholstery Make This Set Very Popular.

You will appreciate the very big furniture value represented in this set, as well as the great practical convenience of a comfortable bed at night and a handsome davenport in the daytime. For furniture of this style and excellent quality you would pay elsewhere much more than we ask.

Frames made of selected hardwood, with top, arms and entire front quarter sawed oak veneered. Plain panels. Choice of golden oak rubbed finish or fumed finish. Made springedge with full steel coil spring construction in the seats. Seats and backs are comfortably padded and expertly upholstered, as noted in price list. Shipped knocked down from factory near CHICAGO or from CENTRAL NEW YORK.

Easy and Convenient to Operate

e Easifold Opened as a Bed.

The De Luxe is a short davenport small rooms and the Easifold is long davenport for large rooms. ey provide both a comfortable an or davenport by day and a viceable bed by night. Each conns, concealed under the seat, a l size comfortable bed, the spring which is made of strong steel ric.

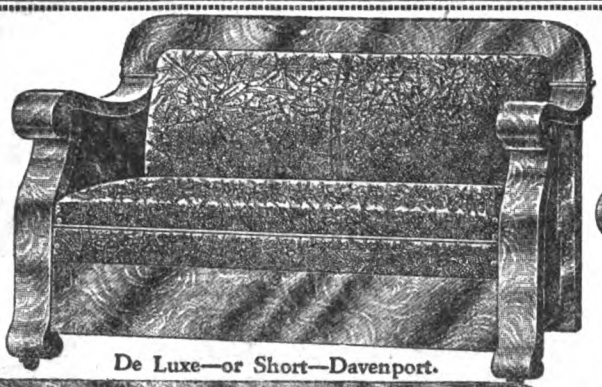
The tension springs furnish all the effort—only the slightest pull is necessary to release them. The closing up is equally easy and simple. The leverage arrangement of the bed frames, together with the aid of tension springs, eliminates the necessity of lifting by the person operating it. These are the easiest working davenports of which we know.

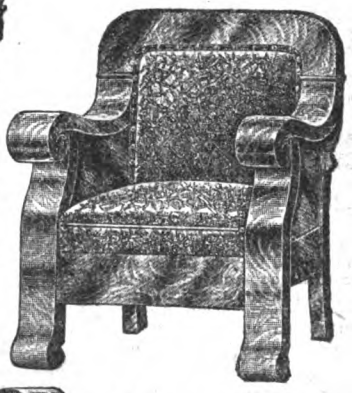
First—A slight lifting pull on the lower edge of the back releases tension spring which raises the back into position shown in the illustration above.

Second—Now by lightly pulling on the small hand strap at the back edge of the seat another set of tension springs raise seat into position shown here.

Third—A slight pressure downward brings the bed entirely open, as shown here. The pillow rail can then be opened out as shown.

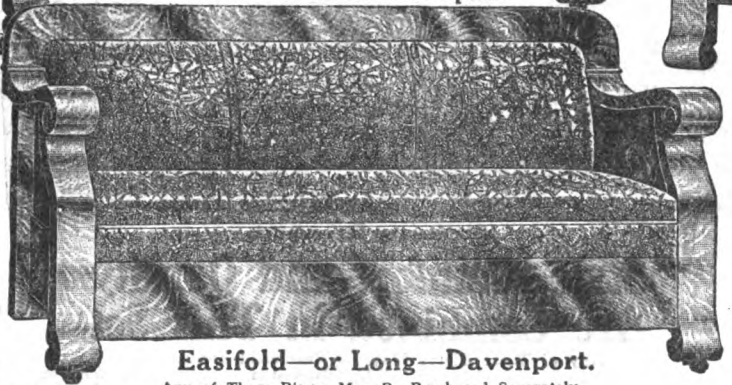
Note the Pillow Rail.





The De Luxe Opened as a Bed.

Over the spring a removable mattress fits. (A selection of these mattresses is shown on page 608.)



The bed section folds or unfolds instantly with very slight effort. The bed frame and springs are entirely independent of the upholstering and, when in use as a bed, there is room for free circulation of air underneath and all around.

De Luxe—or Short—Davenport.

Easifold—or Long—Davenport.

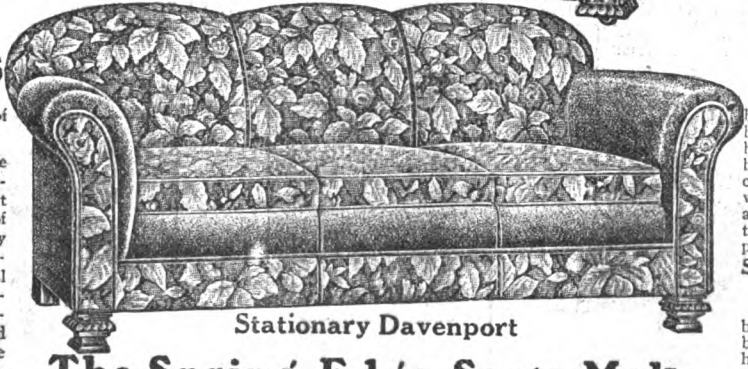
A Davenport Set of Real Merit

De Luxe Bed Davenport.



Removable Spring Cushions

(See page 595 for view of inside of auto spring cushion.)

Truly a set in which you will derive the comfort and pleasure. Upholstered in tapestry or the latest two-tone velour. Arms and part of seat upholstered in plain pearl gray velour, balance of front, seat cushion and back a very pretty floral pattern velour. Frames made of selected hardwood. Exposed parts finished in brown mahogany, rubbed dull. All pieces of this set made with spring edge, with steel coil construction which makes it very comfortable. Each cushion has springs sewed in individual pockets so they cannot lose their shape. They are padded with Southern moss and high grade heavy cotton felt.

This set is shipped set up with the exception of the De Luxe Bed Davenport, which is shipped knocked down. Shipping weights: Bed davenport, about 250 pounds; stationary davenport, about 225 pounds; chair and rocker, each, about 110 pounds.

OUR BEST
Kitchen Cabinet

1H2169⅓
In Golden Oak or White Enamel.

It Pays to Buy the Best

This cabinet is one of superior quality, workmanship and design and at our low price insures your entire satisfaction as well as a substantial saving of money. Made of oak, light natural oak color, dull satin finish or finished all over in white enamel. All panels are 3-ply built-up stock. The construction is a strong lock joint framed in type which resists the kitchen steam and heat. The interior of this cabinet is all white enameled, sanitary and easily cleaned. The porcelain enameled top is of specially high quality, smooth, clean and highly polished. Some of the special features of this cabinet are the easy filling flour bin with window front and patent sifter, capacity about 50 pounds; swinging glass sugar container; cutlery drawer; meal bin; sliding pan tray in bottom of cupboard in base section; bracket support for food chopper; dustproof base top; mouseproof cake and bread box drawer with perforated lid; sliding drop curtain; new type catches, insuring accurately closed, dustproof doors. This cabinet is also equipped with menu cards, bill hooks, recipe card rack, metal coin tray, cook book holder, crystal glass coffee, tea and spice jars and many other conveniences and labor saving devices.

Measurements—71 inches high, 48 inches wide and 27 inches deep, when top of base section is closed; the sliding extension porcelain table top when pulled forward increases the working surface to 38x48 inches. Shipped from factory in INDIANA. Shipping weight, about 325 pounds.

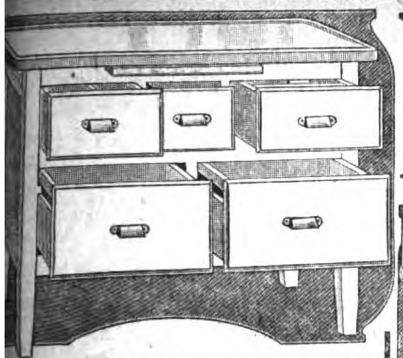
"Wilson" Is Our Own Trade Name and Guarantees Full Values in Kitchen Cabinets.

Popular, Medium Priced Kitchen Cabinet

This cabinet typifies to an unusual degree the excellent values we are able to give our customers. Quality considered, our price on this kitchen cabinet is so low that it represents a saving to you of many dollars. It is solidly constructed of select oak, dull golden finish. The hard, durable and washable white enamel finish on the inside of the cupboard and space below it is an attractive, sanitary feature. Has a sliding curtain front. This attractive feature, the sliding front, enables you to "get at" things handily without moving articles which may be on the table top. It also adds to the appearance of the cabinet when closed. Equipment includes forward tilting flour bin with flour sifter attachment; crystal tea, coffee and spice jars; ample capacity crystal glass sugar container, with scoop, and mouseproof cake and bread drawer with sliding perforated cover. **Measurements—70** inches high, **42** inches wide and **25** inches deep with sliding top closed; the sliding extension table top increases the table surface to **38x42** inches. Furnished with either metal covered top or top of durable white porcelain enamel, highly polished and sanitary. We recommend the purchase of the porcelain enameled top as well worth the slight additional expense. Shipped from factory in INDIANA. Shipping weight, 250 pounds.



Bread Drawer is big and roomy and has sliding lid. A sanitary storehouse for cakes, bread and pastry.

Refrigerators

All these refrigerators shipped from factory near GRAND RAPIDS, MICH.

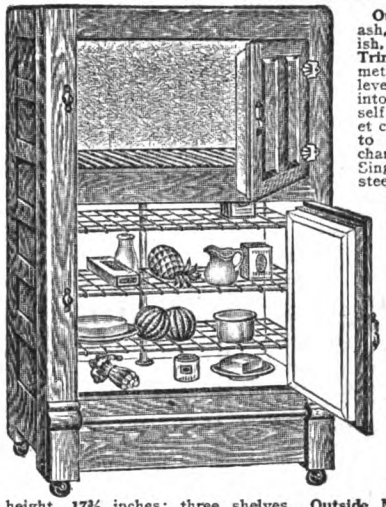
Insulation Is a composition, felted into sheets. It does not settle in the wall leaving the ice chamber unprotected, nor can it sift through the inner walls to the provision chamber.

Ice Chamber. The ice rests on a removable rack. The water flows into the waste pipe and fills the drip cup. The end of pipe is always immersed in the water in cup. No foul air can enter ice chamber through waste pipe.

Provision Chamber. All our refrigerators, except 1H2832⅓ and 1H2889⅓, have the top, sides and bottom of the provision compartment lined with heavy galvanized steel. The shelves are made of steel wire, tinned finish.

Ice Capacity. A cake of ice cut the exact dimensions of the ice chamber will weigh the number of pounds given in the description. We recommend selection of refrigerator with ice capacity large enough to hold amount of ice you wish to use, the unmelted portion of previous cake, as well as milk bottles, etc.

Water Cooler. This shows the water cooler of Refrigerator 1H2819⅓. Made of steel, with white enameled lining, fitted at the left hand side of ice chamber. A cup stand and faucet are also furnished, as shown in large illustration.



Case. Made of ash, high gloss golden finish. Swinging baseboard. **Trimmings.** Solid metal lever, nickel plated hinges and lever fasteners on doors. Self retaining casters. Air trap fitted to bottom of provision chamber. **Ice Chamber.** Opens from outside. Galvanized steel lining. All metal ice rack. Removable flue. **Provision Chamber.** Steel lined, enameled, steel lined. Floor on level with bottom of door. Steel wire shelves, tinned finish. Removable drain pipe.

This set makes a strong appeal to those who really know and appreciate good furniture design

QUEEN ANNE Period Style. With its graceful Cabriole legs and its simple pleasing curves, this set is a splendid example of the fine old Queen Anne Period Style. This is really good furniture, containing in its making that additional something that sets it aside from the ordinary. True, it costs a trifle more than furniture of ordinary quality, but we are sure you will find those few extra dollars well spent.

Shipped to You on Approval. You may order this set, enclosing the price, place it in your home and use it thirty days before deciding definitely to keep it. Examine it carefully and you will fully appreciate its beauty and quality. This plan gives you the opportunity to see that it is even more than we claim for it.

Made of gumwood with fronts, tops and end panels veneered with walnut. Dull satin American walnut finish. Drawers and doors fitted with old brass finish drop pulls and knobs. China cabinet has lock and key. Good quality casters. Entire set shipped from factory in MICHIGAN.

ADAM PERIOD STYLE DINING ROOM SET.

This Set Combines Charm and Dignity With Substantial Construction.

The characteristic features of the Adam Period are shown to particular advantage in this dining room set. The long, straight lines of buffet, china cabinet and serving table, the comfort and grace of the chairs and the imposing dignity of the extension tables are distinguishing marks of richness and refinement. This set will appeal strongly to those who appreciate furniture of the better sort.

Made of quarter sawed oak in dull golden or brown fumed finish, or gumwood, with base, tops and table tops veneered with American walnut dull satin finish. **Be sure to specify finish desired.** Drawers and doors fitted with period style antique brass finish pulls and knobs. Chairs shipped from our store; all other pieces from factory in ROCKFORD, ILL.

China Cabinet.

Height, 60 inches; width, 42 inches; depth, 13 inches. Glass paneled. Three adjustable grooved shelves. Sliding casters.

Buffet.

Base, 22x48 inches. Bevel mirror, 10x42 inches. One top drawer lined for silverware. Brass pulls.

Five-Leg Table.

Top, 48 inches in diameter. When extended the center leg remains stationary to support center of table.

Pedestal Table.

Forty-eight-inch top. Pedestal, 10 inches thick, non-dividing; all except 6-foot lengths have drop legs (see small illustration, page 627).

Chairs.

Note the exceptionally low price on the arm chair. You should take advantage of this opportunity as the saving is considerable.

Removable slip seats, upholstered with genuine leather, brown Spanish grained. Height, back, 24 inches. Entire height, 4[illegible] inches.

Serving Table.

Size of top, 18x40 inches.

Louis XV Period Style Bedroom Set

Quiet simplicity and dignity of line forms the keynote of this favorite period style. Such furniture brings your home abreast of the times. Your bedroom will have that air of luxury only possible with furnishings of really artistic design. This is better furniture than is ordinarily offered our customers, but you will never regret the few extra dollars paid for it. Its ownership is well within the limits of the accepted standards of economy and its quality will always be a source of pride and satisfaction. Always compare quality. When you compare prices, you have learned nothing unless you also compare quality. We save you money, quality considered, on all your purchases.

Shipped to You on Approval.

So confident are we that you will be more than pleased with the quality and exceptional value, we will be glad to have you order this set, enclosing our price, with the understanding that you may use it in your home for thirty days before deciding definitely to keep it. This plan affords you an opportunity to make comparisons and judge for yourself that this furniture is even more than we claim for it.

Material and Finish.

The frames are of quartered gumwood on all pieces. Finished in imitation walnut or imitation mahogany. The fronts, ends and tops are made of five-ply genuine walnut veneer in walnut finish, and five-ply genuine mahogany veneer in mahogany finish, except dressing table, which has solid gumwood ends and five-ply gumwood front. The drawers are equipped with period style antique brass finish pulls. The dresser and chifforette have framed-in dustproof bottoms. The drawers of each piece are nicely finished inside with shellac.

Dresser.

Base, 23x48 inches. Plain plate mirror, 26x34 inches. Shipping weight, about 200 pounds.

Chifforette.

Base, 20x36 inches. The top section has three removable trays as shown in illustration. Shipping weight, about 175 lbs.

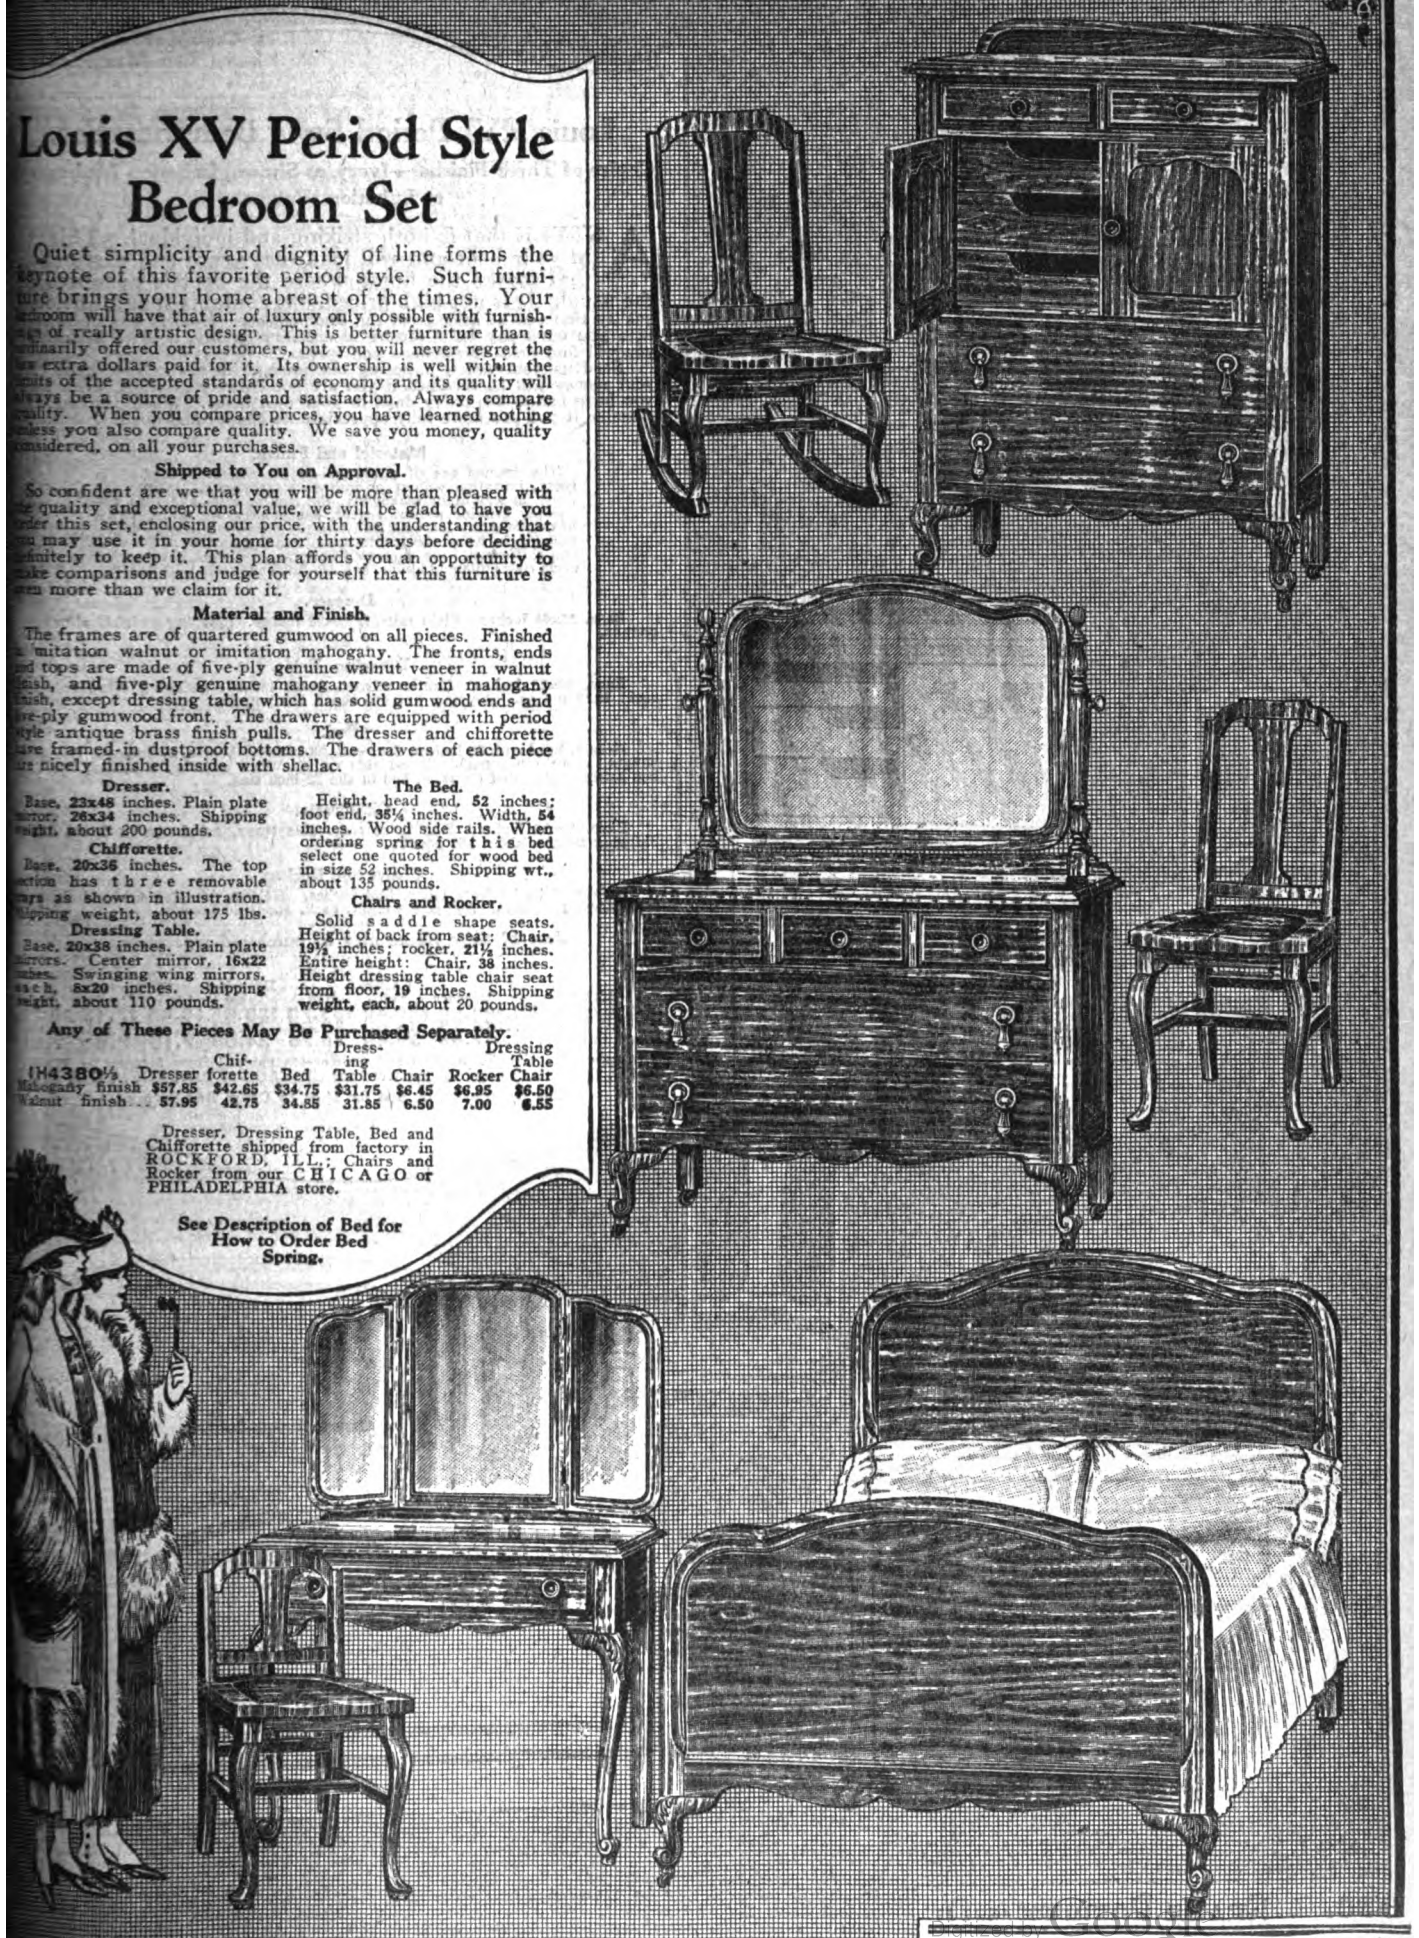
Dressing Table.

Base, 20x38 inches. Plain plate mirrors. Center mirror, 16x22 inches. Swinging wing mirrors, each, 8x20 inches. Shipping weight, about 110 pounds.

The Bed.

Height, head end, 52 inches; foot end, 35¼ inches. Width, 54 inches. Wood side rails. When ordering spring for this bed select one quoted for wood bed in size 52 inches. Shipping wt., about 135 pounds.

Chairs and Rocker.



Solid saddle shape seats. Height of back from seat: Chair, 19½ inches; rocker, 21½ inches. Entire height: Chair, 38 inches. Height dressing table chair seat from floor, 19 inches. Shipping weight, each, about 20 pounds.

Any of These Pieces May Be Purchased Separately.

Louis XVI Period Style Bedroom Set.

Choice of Three Finishes—Ivory, as Shown, Imitation Mahogany or Imitation Walnut.

A STYLE that is both striking and individual. This set in your bedroom will lend that grace and distinction that marks the home where the best is accepted as the usual. It is not high priced, but contains that additional quality that sets it aside from the commonplace. It costs but little more than you must pay for furniture of ordinary quality, and we know that you will find those few dollars well spent.

Send us your order, enclosing our price, with entire assurance that your money will be returned if you are not entirely satisfied, even after you have had it for thirty days in your own home. When you see and examine it you can more fully appreciate its beauty and quality.

Material and Finish.

The frames are of gumwood on all pieces. Finished in ivory, imitation walnut or imitation mahogany. Where the finish is walnut or mahogany, the fronts, ends and tops are five-ply genuine walnut veneer, except dressing table, which has solid gumwood ends and five-ply gumwood front. When finished in ivory the fronts are of solid gumwood. Dresser and chiffonette have dustproof bottoms. Drawers have period style ring pulls and knobs, and are finished inside with shellac.

Dresser.

Base, **22x44** inches. Plain mirror, **26x32** inches. Shipping weight, about 190 pounds.

Dressing Table.

Base, **20x28** inches. Center mirror, **14x22** inches; swinging wing mirrors, each, **8x22** inches. Shipping weight, about 110 pounds.

Bed.

Height, head end, **56** inches; foot end, **38** inches. Width, **54** inches. Shipping weight, about 130 pounds. Wood side rails. When ordering a spring for this bed select one quoted for wood bed in the 52-inch size.

Chiffonette.

Base, **20x36** inches. Has three removable trays, as shown in illustration. Shipping weight, about 160 pounds.

Chairs and Rocker.

Height of backs from seats, **21½** inches. Height, dressing table chair seat from floor, **19** inches. Shipping weight, each, about 20 pounds.

Any of these pieces may be purchased separately.

Louis XVI Period Bedroom Set

BOW END BED STYLE

THIS is a splendid offering of the most popular French Period style bedroom furniture featuring bow end bed. Here is a combination of appealing attractiveness, excellent material and workmanship at a price that is within easy reach of the majority. The same exquisite beauty of design that gave Louis XVI furniture such distinctiveness among works of the master-craftsmen of the old period is found in each piece of this set. The panel effect design, the artistic ornamentations, the neat fluting—all secure an effective, harmonious appearance.

Material and Finish.

The frames are of gumwood on all pieces. The fronts, ends and tops have five-ply genuine walnut veneer except the dressing table, which has solid gumwood ends and five-ply gumwood front. The finish is American walnut, a wood specially selected for its beautiful grain, rich satin sheen and long wearing quality. Drawers of each piece are nicely finished inside with shellac. The antique brass finish drawer pulls contribute to the harmony that dominates this set. The mirrors are plain plate. All cases are fitted with dustproof bottoms. Chifforette has three enclosed sliding trays and one drawer. The Vanity Dresser swinging mirrors are easily adjusted to many positions.

Dresser.

Base, **23x48** inches. Plain plate mirror, **28x34** inches. Shipping weight, about 200 pounds.

Chifforette.

Base, **21x36** inches. Shipping weight, about 175 pounds.

Vanity Dresser.

Base, **18x44** inches. Plain plate mirror. Center mirror, **18x30** inches. Swinging mirrors, each, **9x20** inches. Shipping weight, about 130 pounds.

Bed.

Height, head end, **52** inches; foot end, **32** inches; width, **54** inches. Wood side rails. When ordering spring for this bed select one quoted for wood bed, in 52-inch size. Shipping weight, about 150 pounds.

Chairs and Rocker.

Saddle shape seat; height of back of chair from seat, **19½** inches; rocker, **21½** inches. Entire height: Chair, **38** inches. Height dressing table chair seat from floor, **19** inches. Shipping weight, each, 20 pounds.

Any of these pieces may be purchased separately.

Extra Special Value
Queen Anne Style Bedroom Set

Genuine Veneer, Walnut or Mahogany Finish.

FOR a set of this style and quality you would expect to pay very much more than our price. A special price concession from the factory, due to unusually large orders for this set, enables us to offer our customers this extra fine bargain. The design is specially attractive with the distinctiveness and grace of the Queen Anne Period. Particularly effective are the new style bow end bed and tall mirrored vanity dresser.

Made of hardwood with fronts and tops of genuine veneer finished in walnut or mahogany, dull rubbed. Ornamentations are distinctive and specially attractive. Drawers are equipped with artistically designed ring pulls finished in antique brass, and are nicely finished inside with shellac.

FEATHERS AND PILLOWS

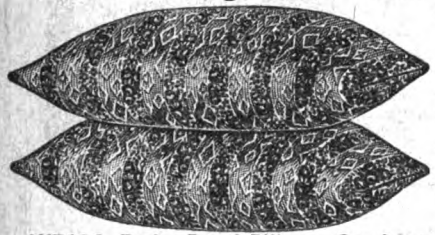
Guaranteed All New Feathers

Our feathers and feather pillows listed below are described in complete detail as to the proportions of the different feather mixtures, so you may readily select the grade and quality you desire. Whatever grade you select represents full value for the price.

When the new feathers reach the factory they are put through an extensive cleaning and sterilizing process. First they are thoroughly dusted and steamed. This process removes practically all foreign substance from the quills and gives the feathers new life and resiliency. They are then dried with large fans. By this time the feathers are light, fluffy and clean, ready to be sorted into the various grades.

Our Prices Are for Net Weight.

Our prices are for net weight of feathers and no extra charge is made for the bag. Each bag contains the exact weight of feathers specified in the price list. You can readily see what a big saving this means to our customers. You should take this into consideration in making purchases of feathers.

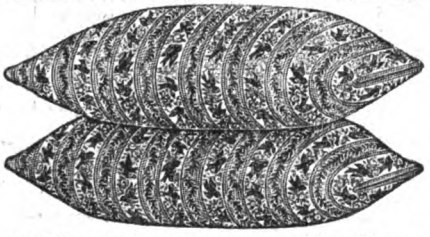


DESCRIPTION.	1-lb. Bag
1H7104—Mixed hen feathers, about one-fourth white and three-fourths colored feathers. Our lowest price grade. Price	$0.29
1H7108—Mixed hen feathers, about one-half white and one-half colored. A far better grade than 1H7104. Worth much more than the slight difference in price. Price	.39
1H7112—Made up of about two-thirds white hen and one-third mixed goose and duck feathers, giving greater buoyancy than all hen feathers. Price	.63
1H7116—Made up of about two-thirds mixed white goose and gray duck feathers, and one-third white hen feathers. Light in color. A good standard grade mixture. Price	.89
1H7120—Purity Brand Feathers. A choice mixture of **all white** feathers of about one-third mixed goose and duck feathers, and about two-thirds white hen feathers. Very buoyant and soft. Price	.97
1H7124—Purity Brand Feathers. A finer mixture than 1H7120. All white feathers, made up of about equal parts of goose and white hen feathers. Fine quality. Price	1.16
1H7128—Purity Brand Feathers. Made up of about 60 per cent white goose feathers and 40 per cent white hen feathers. Soft, downy and with splendid filling qualities. Price	1.37
1H7133—Purity Brand Feathers. Our finest grade. Made up of about three-fourths white goose feathers and one-fourth white hen feathers. Soft, light and springy, with excellent filling capacity. Price	1.67
1H7140—Purity Brand Down. A carefully blended mixture of about one-fourth pure gray duck down, the balance mixed white and colored hen feather down, made of crushed and curled feathers. Price	1.07
1H7145—Purity Brand Down. Selected choice white down, made up of about one-half pure white goose down and one-half white hen feather down, made of crushed and curled feathers. Free from all quilly feathers. Price	1.82

Furnished in 1-pound, 2-pound, 3-pound, 5-pound, and 10-pound bags.

You Get the Best Quality When You Buy Feathers From Us.

Do not be governed entirely by price when selecting feathers. The inferior grades on the market at lower prices are feathers that have not been so extensively cleaned and well sterilized as the feathers we sell and will not make so comfortable a pillow. The feathers we list are guaranteed to be as clean as can be obtained and, as is our policy, they are priced so as to save you money.



An Extra High Grade Pillow.

1H7196—Purity Brand Pillows. Our finest grade. An extra fine pillow, containing all gray goose feathers with the natural down. Fancy art ticking.

Size, inches	20x27	21x27	22x28	23x29

Steel

These Steel Beds are the very best made. The styles shown have proved to be the most popular. Here is your chance to buy the very best at a moderate price. Built strong so as to give lasting service. Electrically welded joints fused into a single piece of reinforced thickness make tight locked corners, the basis of a firm standing bed—without rattling, wabbling or creaking.

The underslung side rails prevent striking the rail when sitting or lying on edge of bed, making the bed uniformly comfortable.

$15.65 In White Enamel. For Bed Complete With Spring.

Made in three pieces. Head end, foot end and spring. Side rails of spring form side rails of the bed, making it rigid and strong. Steel fabric spring. Beds

Material and Construction—These beds are made by forming and electrically welding polished cold rolled strip steel into reinforced tubing. Their weight is one-third less than iron beds of even less strength and rigidity. They can be easily moved without marring floors or tearing rugs.

Finish—The surface of the steel, burnished to saw blade fineness, takes a porcelainlike finish impossible to apply to the old style tubing. Coat after coat of wear resisting elastic enamel is flowed and baked on, making a long wearing, smooth, attractive finish.

Buy The Best Spring You Can Afford

SUPERIOR (IN QUALITY AND VALUE

Shows Patent Raised Double Shank Corners. Note ends are entirely closed.

A Spring for Real Comfort and Long Wear. Will Not Sag or Roll.

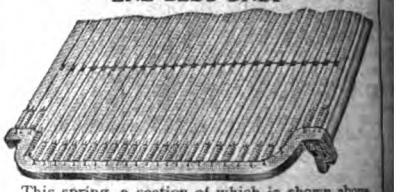
Special Slat Fabric Spring

On this fine spring you will experience the most delightful comfort. Its construction is such that it adapts itself to the curves of the shoulders and hips, allowing every muscle to relax—fostering the most enjoyable refreshing sleep.

No matter what position you assume or how often you move, the spring instantly adjusts itself, affording constant comfort. Two persons of unequal weight will not roll toward the center.

The fabric is made of narrow bands (⅝ inch wide) of flat steel, running lengthwise and fastened to the angle ends with **sixty** steel helical springs. These bands are connected with each other by three rows of small sensitive helical springs, running crosswise. This provides an elastic tension each way, which eliminates sagging. The oval shape tubular side rails are 1½ inches thick. The fabric of the spring is elevated **6** inches above side rails, preventing striking the rail when sitting or lying on edge of bed. The frame is light gray enamel.

Sixty Nights' Trial If you've slept on the ordinary kind of spring, order one of these. Try it for sixty nights. If you are not then well satisfied with it, you may return it at our expense and receive your money back.



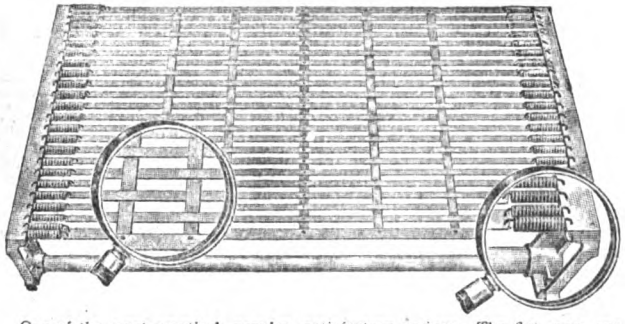
The helical springs are black japanned and the fabric has an anti-rust coating. No slats are needed when used on metal bed; two ordinary wood slats needed when used on wood bed. **Furnished for wood beds** in two sizes, **46**-inch and **52**-inch widths. **Furnished for metal beds** or wood beds with steel side rails in four sizes, **39**-inch, **42**-inch, **48**-inch and **54**-inch widths. **State kind and size of bed for which spring is wanted.** Shipping weight, about 56 pounds.

1H5746

Spring for metal beds or wood beds with steel side rails. Sizes, **54**-inch, **48**-inch, **42**-inch and **39**-inch. Price $7.25

Spring for wood beds with wood rails. Sizes, **52**-in. and **46**-in. Price. 7.67

SLAT FABRIC SPRING FOR BOW END BEDS ONLY.

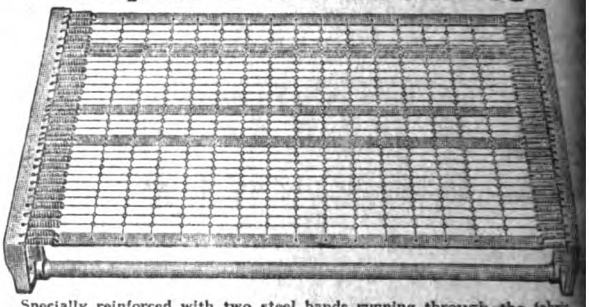


This spring, a section of which is shown above, has the same construction as Spring 1H5746, shown at the left. The lower end of the spring is shaped to fit bow end beds of sets 1H4387½, shown on page 631, and 1H4358½, on page 635. Shipping weight, about 55 pounds.

1H5748

Spring for Bow End Metal Beds or Bow End Wood Beds with steel side rails. Size, **54**-inch. Price **$8.65**

Spring for Bow End Wood Beds with wood rails. Size, **52**-inch. Price..... **$8.67**

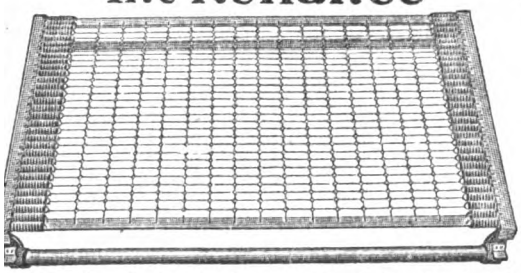


Leader Slat Fabric

One of the most practical, popular, satisfactory springs. The flat, even surface makes wear on the mattress slight. It is sanitary. There are no cracks or crevices for dirt or vermin. The fabric of this spring is made of flat tempered steel slats, interwoven as shown in illustration. This produces a flat, even, flexible surface. The fabric is attached to the angle steel end bars with **twenty-four** steel helical springs at each end. The side rails are made of drawn steel tubing, **1 5/16** inches in diameter. A special feature of this spring is the heavy shank casting on each corner which raises the fabric about **6** inches above the side rail, high enough to prevent striking rail when sitting or lying on edge of bed. The outer edge at each side has an extra wide slat, supported with **two** steel coil springs at each end. This, together with elevated side rail, makes a bed of uniform comfort throughout. The frame is finished in the gray enamel finish. No slats needed. Furnished in **54**-inch size only. For metal beds or wood beds with steel side rails. Shipping weight, about 52 pounds.

1H5734—Spring for metal beds or wood beds with steel side rails. Size, **54**-inch. Price **$6.75**

Popular Link Fabric



Specially reinforced with two steel bands running through the fabric. Adapted for light, medium or heavy weight persons and will give years of perfect service. Side rails made of 1½-inch drawn steel tubing, oval shape. Ends steel, 1½ inches wide. A special feature of the construction is the malleable corner castings which fasten the side rails to the angle steel end bars, raising fabric **6** inches above the side rails, high enough to prevent touching the when sitting or lying on the edge of the bed. This makes the edge of the as comfortable as the center. The special galvanized, twisted, rust-proof fabric used in this spring is fastened to the angle steel end bars with steel helical springs. Each side of the fabric is further strengthened by a steel band 1¼ inches wide. The frame is finished in parchment, olive brown color enamel. Note the sharp corners of the end rail are smoothly covered with the outer shank the corner casting to prevent tearing the bedding. No slats are needed when used on metal beds; regular wood slats needed when used on wood beds.

Furnished for metal beds in two sizes, 48-inch and 54-inch widths. State size desired. Shipping weight, about 58 pounds.

1H5737—Spring for metal beds or wood beds with steel side rails. Sizes, **54**-inch and **48**-inch. Price **$5.85**

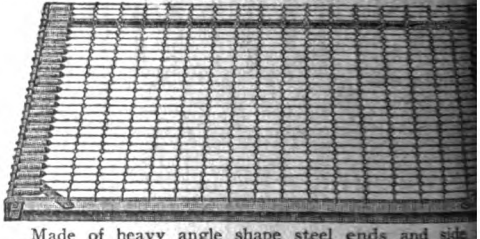
The Reliance

Side rails made of steel tubing, 1¼ inches in diameter. Patent steel fabric is attached to angle steel end rails with **twenty-nine** steel helical springs at each end. Fabric raised **4** inches above side rails. Gray enamel finish frame. Fabric has anti-rust tin coating. No slats needed for metal beds, two wood slats needed for wood beds. Furnished in **52**-inch width for wood beds, **39**-inch and **54**-inch widths for metal beds. **State size and kind of bed for which spring is wanted.** Shipping weight, about 60 pounds.

1H5722

Spring for metal beds or wood beds with steel side rails. Sizes, **54**-inch and **39**-inch. Price **$4.65**

Spring for wood beds with wood rails. Size, **52**-in. Price. **4.67**



How to Order a Bed Spring.

State whether spring is wanted for wood or metal bed. Give the exact length and width of your bed.

If you want a spring for a metal bed, to obtain the width, measure from one **outside** edge to the opposite **outside** edge of the rail. For the length, measure the length of the side rail.

If you want a spring for ordinary wood bed, give the length of the cross slat for the width and the length of the side rail for the length. If for wood bed fitted with square wood rails or with steel rails, where the spring rests on the rails instead of on slats, for the width give measurement from **outside** edge to the opposite **outside** edge of the rail. For length, give length of side rails.

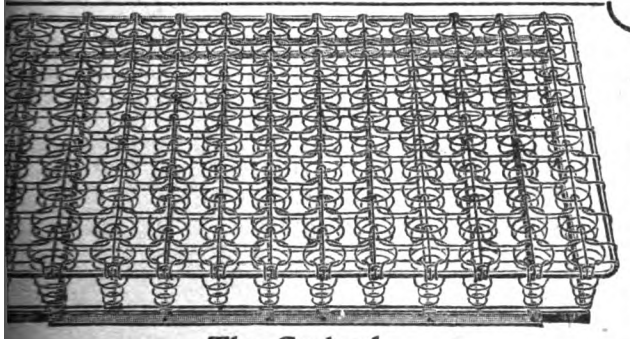
The Ideal Double Deck.

A Superior Spring for Thorough Comfort.

Will Not Sag or Roll.



This is one of our finest bed springs and we recommend it highly. It will last a lifetime. With extra deep double decked coil springs linked together at the top with small helical springs, tension is afforded in every direction. It adapts itself to the curves of the shoulders and hips, allowing every muscle to relax—fostering sound, refreshing sleep. It is made up of **ninety-nine** high carbon steel coil springs, about twice as long as the average size coil spring. They are fastened together at the top with **160** interlocking helical springs, giving added resiliency. This construction provides an even buoyancy throughout. A heavy steel brace running the entire width of the spring and securely fastened to the angle steel side rails supports each row of the steel coil springs. The sides have an extra angle steel extension, permitting the spring to be fitted to metal beds without the use of slats. For use on wood beds three ordinary wood slats are needed. Finished in black japan. **State kind and size of bed for which spring is wanted.** Shipping weight, about 92 pounds.

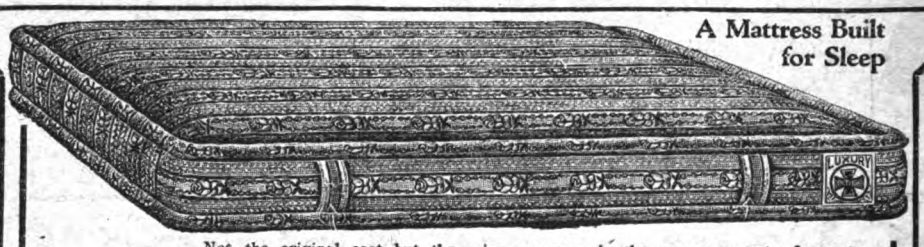
Whitmore Felted Cotton Mattresse

Behind these fine mattresses is the high reputation of the Whitmore brand. To the side of every genuine Whitmore mattress is attached the label shown at the right. This label is a guarantee that the mattress is made throughout of strictly high grade material, that every detail of construction has received expert attention, and that every mattress is absolutely sanitary.

We call special attention to the fact that these mattresses are made of a select quality of felted cotton. The long, downy cotton fibers are fleeced, worked and drawn into loose, fluffy layers. As you stretch out on one of these mattresses you are conscious the most delightful accommodation of every part of it to the cu of your body. It "fits" you as though it had been molded for particular use and enjoyment. It offers sleeping luxury in highest degree.

The filling is guaranteed all new cotton stock, complying the sanitary bedding laws. Open up your mattress. We wel closest inspection, so you may see for yourself that the quali all or even more than we claim.



The Luxury Tuftless Mattress

Our Best Mattress

$16.95 Full Size

100% All New Felted Cotton Stock

A Mattress Built for Sleep

Not the original cost but the price per year is the proper way to figure true mattress economy. The number of years of service which this mattress will give you makes it a splendid value at our unusually low price. You will find this kind of mattress in homes where cost is not considered, and you will find it also in homes where every item of expenditure is carefully watched.

The filling consists of a very high grade mixture of long fiber cotton and cotton linter. The cotton is combed and machined until the fibers are thoroughly separated and worked into massive layers or sheets. This process produces a firmly and evenly matted elastic cotton mass that will retain its shape and buoyancy through years of service. This felted cotton mass is encased in the ticking and is not stuffed in as in many mattresses of inferior quality.

This mattress is made with roll edges extending entirely around the full 5-inch border. This adds to the strength and durability. Note the rounded corners which allow the easy placing of bed covers and adds much to the attractive appearance. The Art Pattern Ticking is of very good quality, made especially for us. It has a close weave, insuring extra long wear.

Weight, 50 Pounds in Full Size

The Imperial

The Better Mattress for Less Money

$12.75 Full Size

Makes Your Sleep RESTFUL

In the building of the Imperial Mattress are invested not only choice materials and the clever craft of the skilled maker, but the ideal that it shall be a really restful bed. The soft, downy felted cotton stock encased inside its ticking responds to every pressure. It fits snugly up against every curve of your body, supporting gently every point of contact.

The downy fibers of cotton stock are fleeced and worked into sheets and then into layers. The ticking is drawn over these sheets, the edge is firmly sewed all around and then the tufts are carefully placed. This tufting holds the filling in place, giving the mattress excellent wearing capacity and a long life of satisfactory service.

The Art Ticking is a floral pattern and a good grade.

The Roll Edge and the Round Corners improve the appearance, prolong the life and add to the convenience of the mattress in allowing the easy placing of bed coverings. Near each end on the 54-inch and 48-inch sizes are handles.

Through the side is an **extra row of stitching**, which holds the edge of the mattress firm and upright. This is an added improvement, increasing the serviceability and durability of this mattress.

Why Pay More Elsewhere for a MATTRESS Not So Good?

$10.95 Full Size

This mattress is made of built-up layers of new, wholesome cotton stock, felted into light, airy sheets. The special treatment which the cotton stock undergoes gives it a springy softness that provides lasting comfort giving qualities to the mattress. The fibers are fleeced, curled and drawn into layers laid one upon the other and encased in the ticking. This makes a soft, elastic, springy mattress.

The ticking—made especially for us by the textile mills—is a beautiful art floral design, carefully cut, stitched throughout. The tufts are all of uniform size, evenly placed and of the same tension throughout. They prevent matting and bunching of the filling.

The Roll Edge and the Round Corners improve the appearance, prolong the life and add to the convenience of the mattress in allowing the easy placing of the bed coverings. Near each end on the 54-inch and 48-inch sizes are handles.

Through the side is an **extra row of stitching**, which holds the edge of the mattress firm and upright. This improvement adds considerably to the serviceability and durability of the mattress.

Back of this fine mattress is the high reputation of the famous Whitmore brand.

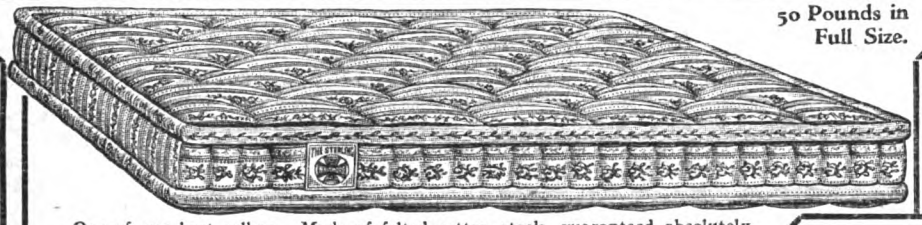
Whitmore Felted Cotton Mattresses



The Whitmore label is a brand of QUALITY. It is a positive guarantee of the best dollar-for-dollar mattress value we can obtain. The protection offered you by the WHITMORE label cannot be overestimated; it means, first of all, that the WHITMORE mattress is SANITARY and that it complies with the sanitary bedding laws of the various states. In the second place, it guarantees genuine mattress COMFORT AND SATISFACTION. It also guarantees enduring service. And finally, it guarantees MATTRESS ECONOMY and SUBSTANTIAL MONEY SAVING.

WHITMORE Felted Cotton Mattresses are built and not stuffed. That is one reason why the WHITMORE Mattresses are so uniformly elastic and of the same tension throughout. The felting process also prevents matting and lumpiness. The tufts are EVENLY placed, and are bound by strong stays, an important feature in keeping the tension uniform and maintaining the shape and elasticity through long years of wear. Every detail of construction receives expert attention.

The STERLING

A Popular Good Quality Mattress

Has Roll Edges and Round Corners

Keeps Its Shape

One of our best sellers. Made of felted cotton stock, guaranteed absolutely new, complying with the sanitary bedding laws. The tough, springy fibers are fleeced, worked and drawn into loose, flaky sheets of cotton felt, which are then built into layers and laid one upon the other and encased in the ticking. It is a soft, elastic mattress; thoroughly wholesome and rest inviting. The ticking is an attractive floral art design, heavy and durable. It is carefully cut and stitched throughout.

$9.45 Full Size

It has round corners, a popular feature, which allows easy placing of the bed coverings. These round corners, together with the **roll edge,** also add greatly to the appearance and durability of the mattress. This roll edge extends entirely around the mattress. Has full 5-inch border. Another special feature is the extra row of stitching through the center of the sides. With this construction the sides of the mattress are straight and upright and will not break down, as often happens with other mattresses. The tufts are all evenly placed and firmly bound with strong stays. Near each end on the **54**-inch and **48**-inch sizes are handles.

Please note the fact that this mattress in the full size weighs 50 pounds.

ava Kapok Whitmore Sanitary Mattress

a Kapok is more commonly known as "Floss." Utmost care should be used selection of a Kapok Mattress on ac- of the fact that there are many infe- ades on the market.

Price, Only
$11.95
For Full Size.

Weighs 30 Pounds in the Full Size.

Specially Soft and Buoyant.

APPEARANCE, Java Kapok is some- at similar to cotton. However, the ers are much more silky in texture and usually light and buoyant. A mattress with it requires only 30 pounds (in the e) to equal the bulk of about 50 pounds ton felt. For this reason it is very o turn and handle. It is the standard al adopted in mattresses, pillows and s used by the Navy and Merchant Marine.

Select Grade Java Kapok.

y grades of Kapok are grown and marketed, of which are very inferior. The quality we use is believed to be the finest Java and is rigidly inspected in order to obtain orm quality. Upon arrival here it is sub- to the most efficient and up to date process ting and sterilizing. This gives added buoy- nd resiliency, qualities which are permanent subject to wear in the processed Kapok ss.

mattress is made of a silky vegetable fiber, rivals the finest down in texture. Java Kapok in the large seed pods of the randoe tree in ical forests of far off Java. In the Summer, he green pods, which are from 4 to 6 inches urn brown, they are gathered by the natives e quantities, brought into the towns, dried in and opened. The fiber is then removed, thor- cleaned and dried and packed in bales for ship- America.

Construction Details of Interest.

The Art Ticking is a beautiful floral pattern, very attractive. It is a heavy grade, closely woven. It has round corners and roll edges winding entirely around the mattress. Through the sides and ends is an **extra row of stitching,** which holds the edges of the mattress firm and upright.

The 54-inch and 48-inch widths furnished in two parts, 50 cents extra.

Rugs-Carpets Linoleum

On the following pages we have listed a most comprehensive selection of floor coverings, in a wide range of sizes and patterns, and sold at prices that we know afford you a very substantial saving.

We have carefully priced all our floor coverings according to quality. We take into consideration the quality of the fabric, the materials and the workmanship. We include all the qualities that represent good honest value for the money and make it easy for you to choose just the floor covering you need. You will be assured our prices are the lowest and, whatever you buy, you will be protected by our broad guarantee.

Let Us Estimate for You on Carpet and Linoleum.

We will estimate your Carpet or Linoleum requirements free of charge. If you estimate your own requirements we advise that you read instructions below.

How to Order Carpet.

In ordering carpet be careful to give the exact size of room or rooms. If an odd size, having a fireplace, bay window or offset, be sure to send a diagram with exact measurements, also be sure to state where entrance and front of room is, and allow 1½ yards extra to every 25 yards for waste in matching. **State whether you want the strips to run the long or short way of the room.** We always cut the carpet the long way of the room when no instructions are given.

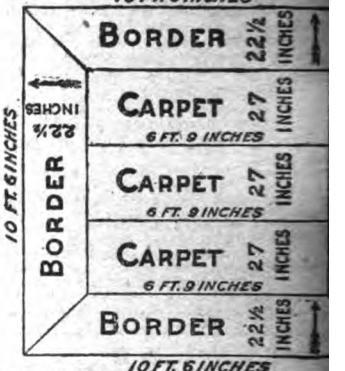
We cut all carpets to match free of charge and strongly advise having your carpets cut by us. There will be less waste and better matching if we cut the carpet for you. In case we use less than 1½ yards waste to every 25 yards we will return the difference.

Always Allow for Waste.

When ordering carpet always allow for waste in matching the pattern. For example, if you wish to cover a room measuring 25 yards, order 26½ yards, for, although 25 yards will actually cover the room, the pattern will not match; therefore, 1½ yards extra are needed to match the pattern exactly. Always order 1½ yards extra for every 25 yards required by actual measurements if you want the pattern to match at the seams.

Extra Charge for Sewing Carpet.

For 3 cents a yard extra we will sew **Ingrain or Rag Carpet** to fit any room. **For 4 cents a yard extra** we will sew any of our **Brussels, Velvet or Axminster Carpet** to fit any room. **For 10 cents a yard extra** we will sew any **Brussels, Velvet or Axminster Carpet ordered with a border.**



Sizing of Carpet Rugs.

When ordering a carpet and border to be made up as a rug we will apply special sizing at a charge of 5 cents per yard extra.

We strongly advise having us apply sizing to your made to order rug, as it will lie flat on the floor and not curl up after this sizing has been applied. The sizing we use consists of a high grade glue which has no odor to it. **Be sure to state if you wish this work done.**

Ordering Room Size Rugs or Carpets Made With a Border.

When ordering carpet made with a border, or room size rug, be sure to allow enough money to pay for same, as it will avoid any delay in writing for money to cover cost of goods. Remember, the border is only 22½ inches wide. The body of the carpet is 27 inches wide. The diagram shown is a room 10 feet 6 inches by 10 feet 6 inches.

Measure the distance around the room, which gives quantity of border required. In this instance it would be four times 10 feet 6 inches, or 42 feet, which is 14 yards of border.

To get the number of strips of carpet, deduct the width of two strips of border, or 45 inches, from 10 feet 6 inches, which leaves 6 feet 9 inches, or 81 inches. Dividing by 27 inches (the width of one strip of carpet) gives the number of strips needed.

To get the length of the strips, deduct width of two strips of bor inches, from length of room, 10 feet 6 inches, which is 6 feet 9 inches. T 6 feet 9 inches long would be 20 feet 3 inches, or 6¾ yards.

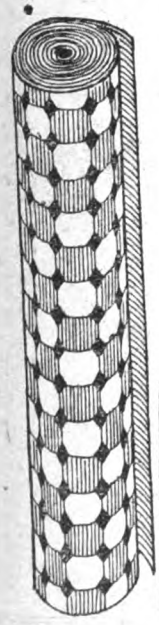
Allowing 1½ yards for matching would make the carpet and borde to fit a room 10 feet 6 inches by 10 feet 6 inches—22¼ yards. The cost carpet with border is 10 cents a yard extra.

If a certain number of strips of carpet do not fill the width room, and the remaining space to be covered is less than 13 inches wide, allow an extra strip of carpet one-half the length of the room. If mo inches remain to be covered allow a full length strip of carpet extra.

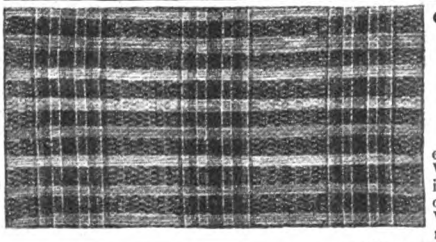
Special Size Rugs.

All rugs shown in our catalog are furnished only in the sizes quoted. If you want a special size rug, we will make up to your order rugs in any size and style from any of our carpets **with borders to match.** When ordering a special size rug be sure to send a complete diagram of the room, clearly showing all measurements, as fully explained above. Also be sure to state which way you want the strips of carpet to run.

Mitered Mats or Rugs.



When ordering carpet and border there are always ends of the border left, will sew up into a mat or a small rug at $1.25 apiece extra. These mats when this way look very pretty and can be used to good advantage in bedrooms and odd co you have a bordered carpet or rug and you wish us to make up the ends of the border mat, state so in your order, sending $1.25 extra for each mat, and we will make up a that will surely please you. Easily worth double the price.



This Table Shows How Much Carpet or Linoleum You Need.

If the size of your room is not given in this list allow enough money for the next larger size. We will cut the carpet or linoleum with the least possi and return whatever balance is due you at the time the shipment is made. The necessary waste for matching is included in the figures given below. **When sending ing of any room, locate front of the house, bay windows or any offset of the room. When ordering any carpet or linoleum always state whet want the strips of carpet or linoleum to run the long or short way of the room. When not mentioned we will cut it so as to run the strips the l**

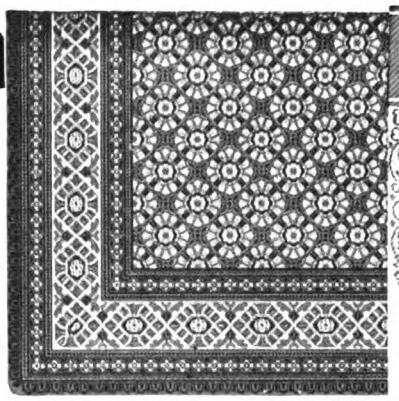
Quality Floor Coverings



WHAT IS MEANT BY THE RUNNING YARD.

Do not judge our prices of linoleum by prices by the square yard. We price all our linoleum by the RUNNING YARD, which means that 1 yard of linoleum of the 6-foot width is actually 2 square yards; the 7½-foot width equals 2½ square yards; the 12-foot width equals 4 square yards.

When figuring linoleum shipping weights, multiply the yardage by the weight shown under each catalog number and add to this figure the following weights for crating, according to the width of the linoleum: 6-foot width, 20 pounds for crate; 7½-foot width, 23 pounds for crate; 12-foot width, 30 pounds for crate. We furnish enough brads with each order to lay linoleum. Linoleum cement is listed on page 670 of this catalog.

LINOLEUM RUGS.

The two Linoleum Rugs shown at right are in the latest patterns and colorings. They are strongly made on a burlap base and the patterns heavily printed to give lasting service. Range of sizes quoted below the illustrations.

Heavy weight, high grade

Waterproof Rugs.

We believe the rugs shown at left to be equal in quality to any waterproof felt base rug on the market. We are listing here two beautiful patterns at much lower prices than they are generally sold. Range of sizes listed below the illustrations.

ON all of our Waterproof Floor coverings the pattern is carefully printed on a specially prepared waterproof base. This base consists principally of high test asphaltum, and various agents to give it a durable, resilient, smooth and even surface that is absolutely waterproof and handsome in appearance. This floor covering is extremely durable, lies perfectly flat on the floor, and looks like printed linoleum. There are cheaper grades made than are represented here, but, as we do not believe that they will give complete satisfaction, we do not handle them.

Special Size Made to Order Window Shades

These shades are made to order from high quality **hand painted** oil opaque shade cloth and are mounted on guaranteed patent spring shade rollers. It usually requires about five days to have special size shades made to order. We require the full amount of cash with the order in every instance. Be sure to give the right width and length, and specify whether the width given is for the length of roller from tip to tip or for the width of cloth. **Don't fail to give size and color wanted.** See below, "How to Measure for Made to Order Window Shades."

COLORS—Special size shades are made in the following colors: Dark green, dark olive green, terra cotta, slate, pea green, white or buff. Shade cloth 48 inches and wider is made of heavier fabric and will not always exactly colors of smaller shades.

In the price list below "width in inches" is the width of cloth. If the size you wish is not given in the following schedule the next larger size will be charged, but the shade will be made the exact size you order. Shades with brackets are included. **Be sure to state width and length desired and allow correct amount.**

Shades up to 63 inches wide by 8 feet long are mounted on wooden rollers. All shades larger are mounted on tin rollers.

24H1500½—Order by number and be sure to state width, length and color wanted.

LETTERING—Price for lettering window shades with shaded gilt lettering is 75 cents a running foot extra. Furnished only on 24H1500½ and 24H1510½ shades

How to Measure for Made to Order Window Shades

While it is scarcely practical to give shipping weights on all the shades, you may get an idea of the shipping weight from the fact that the average shade 36 inches wide by 6 feet long weighs 1¾ pounds packed for shipment.

In giving measurements for the LENGTH OF SHADES, give the height (in feet) of each window, and always add enough extra for one turn around roller. When your order does not state how measurements are taken, the cloth will be cut the measurements given and outside brackets will be sent. Measurements should always be taken very accurately, even to a sixteenth of an inch. It requires about five days to have special size shades made to order.
